DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 4th September 1916.

Summary.—During the week heavy rain fell over the greater part of the province, causing some damage to the standing autumn paddy in parts of the 24-parganas and Jessore. Transplanting of winter rice is approaching completion; weeding continues. Harvesting of autumn rice and jute is nearing completion in the eastern districts and continues elsewhere. The prospects of sugarcane and other standing crops are generally reported to be satisfactory. Fodder is scarce in parts of Jessore and Tippera. Cattle disease is reported from five districts. The average price of common rice for the province has remained almost stationary as compared with that of the previous week.

No. 7451 L.R.—The 8th September 1916.—Whereas Maharaja Bahadur Sir Prodyot Coomar Tagore, KT., has applied to the Governor in Council, under section 3 of the Bengal Settled Estates Act, 1904 (Bengal Act III of 1904), for permission to make a settlement of an estate under that Act;

AND WHEREAS in pursuance of section 7 of the said Act, and with the previous sanction of the Governor General in Council, the said application was published for general information [with the exception of the particulars as to income, revenue, rates and taxes which have been inserted in pursuance of clause (*b*) of section 4 of the Act], in the *Calcutta Gazette* of the 8th April 1914, Part I, at pages 685-95, as Notification No. 3748, dated the 30th March 1914;

AND WHEREAS the Governor in Council duly considered all objections to the proposed settlement, communicated to him during the period of six months subsequent to the date of the said notification;

AND WHEREAS the incumbrances mentioned in paragraphs 6 and 7 of the said application have been discharged and whereas certain other incumbrances which are referred to in paragraphs 8 and 9 of the application have also been discharged and the only incumbrances now subsisting are enumerated and described in the second schedule to the proposed instrument of settlement hereto annexed;

AND WHEREAS provisions have been made in the said proposed instrument of settlement for the continuance of the three several annuities mentioned in the said second schedule and for the discharge of the other incumbrances and for payment of interest thereon, which provisions have been assented to by the creditors:

NOW, therefore, in exercise of the power conferred by clause (*b*) of sub-section (*1*) of section 8 of the said Act, the Governor in Council is pleased to grant permission to the said Maharaja Bahadur Sir Prodyot Coomar Tagore, KT., to make the settlement proposed in the application hereinafter set forth below of the immoveable properties mentioned in the first schedule annexed to the said proposed instrument of settlement.

L. BIRLEY,
Secy. to the Govt. of Bengal.

In the matter of the Bengal Settled Estates Act, 1904 [Act III (B.C.) of 1904], and in the matter of a proposed Instrument of Settlement to be executed by Maharaja Bahadur Sir Prodyot Coomar Tagore.

TO HIS EXCELLENCY THE GOVERNOR OF BENGAL IN COUNCIL.

The application of Maharaja Bahadur Sir Prodyot Coomar Tagore under section 3 of the Bengal Settled Estates Act, 1904,

SHEWETH—

1. That the applicant was born in the year 1872 and is the adopted son of the late Maharaja Bahadur Sir Jatindra Mohun Tagore, K.C.S.I., and succeeded on the death of his adoptive father to the hereditary title of Maharaja.

2. The applicant is in possession in his own right of and is solely entitled to the immoveable properties particularly described in the first schedule hereto which are held by him in permanent heritable and transferable right.

3. The income yielded by the said immoveable properties and the revenue and cesses payable to the Government annually in respect thereof are specified in the said first schedule hereto. That the rates and taxes payable to the local authority in respect of the said immoveable properties amount at present in the aggregate to Rs. 1,002 per annum.

4. The said immoveable properties except the premises No. 20-1, Prosonno Coomar Tagore's Street, Calcutta, were (with other properties since sold or now to be sold by him) conveyed to the applicant by an indenture of conveyance, dated the 21st May 1908, made between the Tagore Estates Limited, of the one part and the applicant of the other part for the consideration of Rs. 48,00,000 and were so conveyed subject to the payment of three monthly annuities of Rs. 200 each to one Nogendra Bhusan Mukerji, one Sheshendra Bhusan Chatarji, and one Sreemati Promoda Sundari Debi, respectively, during their respective lives, which said annuities are still subsisting and payable,

5. The said consideration of Rs. 48,00,000 was part of a sum of Rs. 50,00,000 advanced to the applicant by the Government of India, the repayment whereof is secured by an indenture of mortgage, dated the 21st day of May 1908, made between the applicant of the one part and the said Secretary of State of the other part, whereby the said immoveable properties except as aforesaid (with other properties since sold) were transferred by the applicant to the said Secretary of State, subject to the said three annuities and subject to the proviso for redemption that, when the said sum of Rs. 50,00,000 and all interest thereon in the meantime at the rate of 4 per cent. per annum should, under the scheme or provision for redemption and in manner therein mentioned contained and provided, have been fully paid to the Government of India, the said Secretary of State would reconvey the said immoveable properties to the applicant.

6. By an indenture of mortgage, dated the 31st day of May 1910, and made between the applicant of the one part and one Sreemati Charusila Dassi of the other part, the said immoveable properties (with certain exceptions, but including the premises No. 20-1, Prosonno Kumar Tagore's Street, Calcutta), were charged by the applicant by way of second mortgage with the repayment to the said Charusila Dassi of the sum of Rs. 4,50,000 advanced by her to the applicant with interest thereon in the meantime at the rate of 6 per cent. per annum.

7. On the 19th December 1910 the applicant borrowed a further sum of Rs. 50,000 from the said Charusila Dassi, the repayment whereof with interest at the rate of 6 per cent. per annum is secured by an agreement, dated the 19th December 1910, and made between the applicant of the one part and the said Charusila Dassi of the other part, whereby the applicant covenanted to repay the said principal sum with interest on demand and to execute in favour of the said Charusila Dassi as further security for such repayment a mortgage of certain of the said immoveable properties, which he has not yet done.

8. The several incumbrances aforesaid are enumerated and described in the second schedule hereto, and in such schedule are also contained particulars of the name and address of each incumbrancer and a statement of the amount now due to each incumbrancer other than the said annuitants.

9. In addition to the incumbrances aforesaid the applicant is indebted to the several persons whose names and addresses are set forth in the third schedule in the sums set opposite their respective names in the said schedule, in which schedule is also specified the nature of the said debts none of which are secured debts.

10. Save as specified in the second and third schedules hereto there are no incumbrances held by secured or unsecured creditors enforceable against the applicant or the said immoveable properties.

11. The applicant is desirous of effecting a settlement of the said immoveable properties and is willing that there shall be embodied in such settlement such provisions as are contained in the draft of the proposed instrument of settlement submitted with this application or such further or other provisions as may be assented to by the creditors and approved by the Local Government for the discharge of the said incumbrances and for the payment of interest thereon.

The applicant therefore applies for permission to make a settlement of the immoveable properties mentioned and described in the foregoing application and the first schedule thereto pursuant to the Bengal Settled Estates Act, 1904.

I, MAHARAJA BAHADUR SIR PRODYOT COOMAR TAGORE, the applicant abovenamed, do declare that the statements in paragraphs 1, 2, 4 to 11 of the foregoing application are true to my knowledge, and that the statements in paragraph 3 of the foregoing application are made upon information received by me and believed by me to be true.

Signed at "The Prasad," Prosonno Kumar Tagore's Street, Calcutta, this 1st day of November 1912. } PRODYOT COOMAR TAGORE.

Proposed Instrument of Settlement.

NOTIFICATION.

No. 2747Medl.—The 9th September 1916.—The following report is published for general information :—

J. DONALD,
Secy. to the Govt. of Bengal.

Dated Darjeeling, the 7th July 1916

From—MAJOR CLAYTON LANE, M.D., I.M.S., Secretary and Superintendent of the Eden Sanitarium and Hospital, Darjeeling,

To—The Secretary to the Government of Bengal, Financial and Medical Departments, Calcutta.
(Through the Surgeon General with the Government of Bengal, Calcutta.)

I HAVE the honour to submit the following report on the working of the Eden Sanitarium and Hospital for the year 1915. I was in charge of the institution from the 1st January to 31st December 1915.

2. The Sanitarium was opened on the 1st April and closed on the 10th November 1915.

3. The Hospital attached to the Sanitarium opened on the 17th March and closed on the 10th November 1915. It was occupied for 7 months and 25 days during the year 1915.

4. The following table shows the number of each class of patients and their relatives admitted into the Sanitarium and Hospital during the past six years :—

Admissions.	1910.	1911.	1912.	1913.	1914.	1915.
First Class	146	56	85	79	69	66
Intermediate Class	78	126	124	125	97	101
Second Class	206	230	288	291	296	273
Third Class	136	119	178	177	144	167
Total ...	566	531	675	672	606	607

5. The following tables show the number of patients and their relatives and friends admitted during the last six years together with the daily average sick :—

Patients.

Years.	1910.	1911	1912.	1913	1914.	1915.
Admissions ...	427	393	506	499	483	271
Daily average sick ...	30·05	26·87	24·72	23·11	12·77	20·19

Relatives and Friends.

	1910.	1911	1912.	1913	1914.	1915.
Admissions ...	139	138	169	173	123	336
Total ...	566	531	675	672	606	607

The following table shows the different sexes of the patients with the result after treatment :—

Males.	Females.	Children.		Total.	Cured.	Relieved.	Discharged.	Died
		Males.	Females.					
121	97	37	16	271	230	26	11	4

The total number of admissions into the institution during the year 1915 was 607 against 606 during the year previous to it.

Of these there were 11 children admitted into the first class, 48 in the intermediate, 64 into the second class and 45 into the third class, making a total of 168 children, against 9, 31, 62 and 19 respectively admitted during the year 1914.

From the above figures it will appear that there has been a slight increase of residents in the intermediate and third classes and fall in number in the first and second classes during the year 1915.

Though the total number of admissions during the years 1914 and 1915 is almost the same, the total receipts from all classes have considerably increased owing to the increase of rates which came into force from the beginning of the year 1915.

The number of patients treated in 1915 was 271 against 183 in the year 1914. The Hospital was full throughout the period it was open during the year under report.

The daily average number of residents for the whole year works out at 31, but for the period the Sanitarium was open it was 47 as compared with 10 and 16 respectively during the year 1914.

The average stay of each resident was 19 days during the year 1915 as against 3 days in 1914.

The localities from which the people were admitted are, as usual, Calcutta heading the list and Darjeeling coming the next. It is interesting to note that persons from a very long distance such as Allahabad, Assam, Bombay, Colombo, Delhi, Central Provinces, Lucknow, Madras, Sambulpur, Simla, Shillong and Vizagapatam were admitted into this institution for treatment or change. There were few complaints regarding food and management and such complaints were immediately dealt with and the residents generally expressed satisfaction with the arrangements.

6. The free beds in this institution were occupied by 18 patients against 15 in the year 1914.

Four deserving were treated in the Superintendent's free bed against 7 during the year 1914.

Ten patients were sent up from the Presidency General Hospital for treatment and change in the free beds of that institution against 7 during the year 1914.

Four patients were admitted into the Medical College Hospital free bed during the year 1915 against one during the year previous to it.

Two patients were treated in the John White free bed during the year 1915, and the cost for their treatment was met out of that fund. During the year 1914 five patients were treated in the same free bed.

The Peter West free bed, which is intended for the planters, was not occupied during the year 1915. In the year under report the Binning Memorial Fund met the cost of treatment for two children in this institution. The total amount spent on the free beds was Rs. 882 against Rs. 1,058 in the year 1914.

7. The following subscriptions were received in the year 1915, besides the Government grants of Rs. 12,000 and Rs. 1,500 from the permanent subscribers :—

		Rs.
(1)	Darjeeling Improvement Fund	1,000
(2)	Darjeeling Municipality	1,000
(3)	Manager, Tukvar Co., Ltd.	100
(4)	D. P. Mackenzie, Esq.	250
(5)	Messrs. Mackintosh, Burn & Co.	25
(6)	Messrs. Hamilton & Co.	25
(7)	Messrs. Cooke & Kelvey	25
(8)	Messrs. T. E. Thomson & Co.	25
(9)	Darjeeling, Himalayan Railway Co	100
(10)	Messrs. R. Knight & Sons	25
	Total ...	2,575

8. The rule whereby European Government servants on receipt of Rs. 400 or under can obtain first class accommodation by paying intermediate class rates was taken advantage of in two cases only.

The rule granting a reduction of rates to European assistants in commercial firms, banks, etc., who are annual subscribers was taken advantage of in one case only during the year 1915.

9 (1) There were 4 cases of enteric fever against 2 in 1914. The patients were cured.

(2) There was one case of Kala-Azar treated in the hospital. The patient came from Calcutta and was discharged after 24 days, being much relieved.

(3) Thirty-six malarial fever cases were treated in 1915 against 14 during the year previous to it. The patients all recovered except 2 who went down to the plains before being thoroughly cured.

(4) Two pneumonia cases were treated during the year under report in the hospital. Both were cured.

(5) One case of appendicitis was treated in the hospital. The patient was cured after operation.

(6) One case of cholecystostomy was treated in the hospital. The patient, who was an old gentleman, died after operation from suppression of urine.

(7) Eight normal and 6 abnormal labour cases were treated in the hospital. The patients were all cured.

10. Forty-seven operations were performed in 1915 against the same number in 1914. Of these 10 were selected operations and 9 other important operations. Twenty-six operations were performed by me. The other 21 minor operations were performed by Military Assistant Surgeon H. L. O. Fleming.

11. There altogether 4 deaths in 1915 against 6 during the year 1914. The cases were—

(1)	Hepatic abscess with gallstones ...	1
(2)	Carcinoma of the caecum ...	1
(3)	Carcinoma of the liver ...	1
(4)	Acute bronchitis ...	1

12. *Income and expenditure.—Income.*—(*a*) Owing to the revision of rates of the different classes there has been an increase of receipts in all classes except the intermediate class, which shows a deficit of Rs. 454. It was due to the fact that residents in the intermediate class mostly paid the decreased rate at Rs. 6-8 per day, the similar rate charged to this class in 1914 for their admission into the institution with medical certificates or accompanying the patients as relatives and occupying the same room, *vice* Rule 15 (*a*). The second cause was that the average stay of the patients in this class was comparatively shorter than in the previous year.

(*b* The decrease in the receipts for operations was due to the fact that in the revised rules the charge for operations was decreased ; on the other hand, the charges for medical attendance in the different classes were increased and a new charge for general nursing in the hospital was introduced. The deficit of Rs. 576 in operation fees is sufficiently compensated by the increase of receipts against "Medical attendance" and "Nursing fees."

(*c*) During the year under report, on the representation of the Committee, the Municipal Commissioners of Darjeeling increased their subscription to the hospital from Rs. 150 to Rs. 1,000, and the Deputy Commissioner of Darjeeling obtained the sanction of Government for the payment of Rs 1,000 annually to the hospital attached to the Eden Sanitarium from the Darjeeling Improvement Fund.

(*d*) The Terai Planters' Medical Association sent Rs. 200 during the year under report as donation to the hospital.

Expenditure.—It will be noticed with interest the remarkable decrease of expenditure under almost every head of the account.

(1) Owing to the financial position at the end of the year 1914, the Civil Surgeon of Darjeeling did not draw allowance from the Sanitarium during the cold weather months for a certain period, so there has been a decrease of expenditure by Rs. 124 against the head "Civil Surgeon's allowance."

(2) The remarkable decrease was against "diet expenses" by Rs. 4,100 during the year under report, with practically the same number of admissions and a larger daily average number of residents.

(3) *Repair and Construction.*—Beyond the ordinary repairs to the buildings carried on by the Public Works Department no other improvements were carried out, except the improvement to the drain which carries flushings from the servants' latrine. This drain was considered insanitary, and according to the suggestion of the Municipality, Raniganj tiles were put on

(4) The increase of expenditure against "Medical Stores" was due to the fact that owing to the outbreak of war the price of medicines had gone up considerably and also to the fact that a larger number of patients were treated in the Hospital as compared with the year 1914

(5) *Rates and Taxes.*—The decrease under this head by Rs. 268-9-9 requires explanation. Under Bengal Government, Public Works Department, letter No. 653A., dated 26th January 1914, the holding tax of the buildings, which are borne in the books of the Public Works Department, was paid by that Department. The Sanitarium and Hospital buildings being Government buildings and borne in the books of the Public Works Department the Committee were relieved from the payment of the owner's share of the Municipal tax from the beginning of year 1915.

(6) The decrease of Rs. 343 against "Establishment" charges during the year 1915 was due to the strict enforcement of rule 29 The work of this institution was carried on with a smaller staff and a few extra men were engaged during the year 1915 at the time of rush of people. The residents failing to bring up a servant to attend at their table were charged for the attendance of the Sanitarium servants at their table.

(7) The endowment of Rs. 6,150 received from Mr. F. M. Leslie for the establishment of a Children's Cot, called "Binning Memorial Cot" for children was included in the accounts of the Eden Sanitarium during the year 1915 and two children were treated free out of the interest received from the investment.

(8) Reviewing the position generally of this institution during the year 1915, it may be stated that the income had considerably increased, namely, by Rs. 14,472, by the revision of rules and following them strictly, and the expenditure had been greatly reduced, namely by Rs. 6,678, with the same number of admissons of residents and staff, the result of strict supervision and control. The result has been a net profit of Rs. 4,648-2-9, deducting depreciations of Rs. 2,407-8-7 on furniture.

I note that never since the establishment of the Hospital attached to the Sanitarium has there been an annual profit in its working to the extent of Rs. 4,648.

13. The daily average cost of diet for residents not including the staff was Rs. 1-9-4 as compared with Rs. 2-0-7 in the year 1914.

14. The accounts were audited by Messrs. Viney and Thurston, Chartered Accountants of Calcutta.

15. *General Remarks.*—(i) In spite of insertion of rule 26 (*b*) the cost for the entertainment of six nurses in the Hospital was not recovered by the fees they earned.

The total amount received on account of nurses' fees was Rs. 2,556 during the year 1915, but the expenditure on account of their salary, travelling allowance and commission was Rs. 3,861-8-3. Hence the excess expenditure is Rs. 1,305-8-3 not covered by the income during the year 1915. I may note here that hitherto the expenditure incurred for the nurses had never been covered by the fees they earned and during the past years the nurses' expenditure was a great drain on the finances of this institution, which has no doubt considerably improved by the introduction of the above rule.

(ii) The Government of Bengal in their letter No. 3 0-Medl., dated 16th February 1915, sanctioned an additional grant of Rs. 12,000 from Provincial Revenues to the Managing Committee of this institution for the payment of outstanding liabilities of this institution which was thankfully accepted by the Committee.

(iii) Military Assistant Surgeon H. L. O. Fleming was the Resident Medical Officer of this institution from 5th March to 23rd November 1915.

(iv) Miss L Cox was appointed Housekeeper of this institution from 16th March 1915 and worked till the end of the year.

(v) Babu Sidheswar Dey was employed as the Accountant of this institution throughout the year 1915.

(vi) The nursing arrangements and linen as usual were under the supervision of two of the Clewer Sisters from Calcutta.

(vii) Sister Hope took charge of the Library attached to the Eden Sanitarium in addition to the linen room and has made certain improvements to the Library by purchasing new books.

(viii) The Sanitarium was officially visited during the year 1915 by the following :—

(*a*) Members of the Committee who acted as House Visitors :—

(*a*) Mr. R. C. Hodgson.

(*b*) Mr. E. A. Wernicke.

(*c*) Hon'ble Mr. J. Donald, M.A., I.C.S.

(*d*) Rev. A. C. Ridsdale.

(*e*) Dr. C. E. B. Seal.

(*b*) Her Excellency Lady Carmichael accompanied by the Hon'ble Surgeon-General W. R. Edwards visited this institution on the 10th of June 1916, and was pleased with the arrangements. Her Excellency remarked that "it might be better to have a little more Hospital accommodation and less residential."

I desire to again press on the attention of Government the urgency of an increase to the Hospital accommodation. This matter was mentioned in the annual report for last year. The accommodation is inadequate and patients have to be constantly removed to the Sanitarium though still unfit, in order to make room for more urgent cases. The present Hospital was built by Government in the year 1900 at a cost of about Rs. 20,000 and was opened on the 8th May 1901 by His Honour the then Lieutenant-Governor Sir John Woodburn. As Darjeeling is constantly growing and this is the only Hospital for the European residents in the headquarters of the District, it is hoped the Government will consider the question of its extension in better days, if it is not possible at present owing to the war in Europe.

(ix) The Committee held eleven meetings during the year 1915 to discuss various subjects in the interest of this institution. The most important subject dealt with was the revision of the Rules, which was approved by Government in their letter No. 28T—Medl., dated 19th May 1915.

The Government was also pleased to meet the charge on account of salary of the Military Assistant Surgeon attached to the Sanitarium during the period the institution is officially closed. This is done by transferring the Military Assistant Surgeon to a Calcutta Hospital after the Sanitarium is closed, and it has relieved the Committee of an expenditure to the extent of Rs. 1,300 on account of pay and his contribution.

(x) In spite of the raising of the rates in the different classes this institution was reasonably or actually full throughout the period it was open during the year under report and did not lose its popularity.

(xi) Owing to the present financial state of Government on account of the war, the following improvement, though suggested by the House Visitors of this institution, was not carried out :—

The "Sanitary" arrangements for the 3rd class rooms, particularly those for women. These continue to be insanitary and hopelessly inadequate.

(xii) Rev. H. C. Duncan, M.A one of the members of the Committee, went home on leave towards the close of the year 1915 and resigned his membership and suggested the appointment of Rev. J. P. Reid, M.A., the present Minister of the Church of Scotland. The Committee at least temporarily have lost his valuable services rendered to this institution.

(xiii) During the year under report I noticed from the bills for lighting and excess water, received from the Municipality, that the expenditure under these heads was going up. On testing the electric installation it was ascertained that the wires were leaking in several places and it was decided to put a separate meter for measuring the consumption of water in this institution. An estimate was asked for and received from the Municipality for putting up a meter for measuring water at about Rs. 500. These matters were kept pending for consideration during the next year along with the financial position of the institution.

(xiv) It was necessary to serve notices under rule 14 (*b*) to certain inmates who did not follow the rules of this institution or refused to follow them. The action appears to have been useful.

NOTICE.

Examination of Compounders at the Dacca Medical School.

IT is hereby notified, for general information, that the next Half-yearly Examination of Compounders will be held on the 30th October 1916 and subsequent days.

The examination will be conducted in accordance with Bengal Government Notifications Nos. 1410 and 1411Medical, dated the 7th July 1913:—

(*a*) The Examination Committee will consist of—

President:

Lieutenant-Colonel E. A. R. Newman, M.D. (Cantab.), I.M.S.

Members:

1. Teacher of Pathology.
2. Teacher of Medical Jurisprudence.

(*b*) No person will be admitted to this examination unless he produces certificates as required by rules 9, 10, 11 and 12 of Government Notification No. 1410Medical, dated the 7th July 1913.

(*c*) All male candidates must forward to the undersigned an examination fee of Rs. 5 at least one week before the commencement of examination; a fresh fee must be paid on each occasion that the candidate enters for the examination; but a candidate, who, after payment of the fee, is unable, through illness, to attend the examination, will be allowed, on producing a satisfactory medical certificate to that effect, to attend the next examination without payment of a fresh fee.

NOTE.—Women candidates are examined free of charge

(*d*) The students of the Compounder class of the Medical Schools at the end of the one year of study, and the students of the Licentiate class of these schools, on the completion of their second year's course, will be allowed to appear at an optional examination, to be conducted by the Committee of Examiners notified above in minor bandaging, preparation of antiseptic lotions and dressings, sterilization of dressings and instruments, and in all the minor duties of hospital work. No additional fee shall be charged for this optional examination.

This examination is also open to persons qualified for admission to the examination prescribed under the Rules for the grant of certificates to compounders, on production of a certificate that they have received instruction in a hospital or dispensary recognised by Government in minor bandaging, preparation of antisepsic lotions and dressings, sterilization of dressings and instruments, and in all the minor duties of hospital work. Such persons shall be required to pay a fee of Rs. 2-8 for this examination. But no fee will be required from a candidate who appears at the combined Compounders' and Dressership Examination and who has paid the fee of Rs. 5 prescribed in paragraph (*c*).

THE CALCUTTA IMPROVEMENT TRUST.

NOTICE UNDER SECTION 63 (2) OF BENGAL ACT V OF 1911.

PLAN OF PROPOSED PUBLIC STREET NO. XXI.

(Chitpore Road, Upper, to Central Avenue.)

NOTICE is hereby given under section 63 (2) of Bengal Act V of 1911, as amended by Bengal Act III of 1915, that the Board of Trustees for the Improvement of Calcutta has prepared a plan of a Proposed Public Street in Wards Nos. I and III, running eastward from Chitpore Road, Upper, at its junction with Proposed Public Street No. VI, through Grey Street, Raja Rajendranarayan Lane, Raja Mohendra Narayan Lane, and Raja Naba Krishna Street, and terminating at the Proposed Public Street No. I (Beadon Street to Shambazar Street).

The plan provides for a road 84 feet wide and for the widening of the junction of several smaller streets, through which the Proposed Public Street will pass.

The Proposed Public Street will pass through the following Municipal Holdings :—

Name of Street	Number of Municipal Holdings.
Chitpore Road, Upper ..	148, 148-1, 148-2, 148-3, 149, 150, 151, 151-1, 152, 152-1, 153.
Gopi Sen Lane	1, 8, 11, 12.
Grey Street	1, 1-1, 1-2, 1-3, 2, 3, 4, 5, 5-1, 113, 114, 115, 116, 117, 118.
Raja Debendra Narayan Lane	1, 2.
Raja Mohendra Narayan Lane	1, 3.
Raja Naba Krishna Street	2, 31
Raja Harendra Krishna Lane	12-1 (portion).

The plan of the Proposed Public Street and the particulars of the land through which the Proposed Public Street will pass may be inspected at the Offices of the Trust, 5, Clive Street, on week days between the hours of 11 and 4, Saturdays 11 and 2.

Copies of this notice may be obtained on payment of a fee of two annas per copy, and of the plan at a fee of eight annas per sheet.

Objections to the said plan may be submitted on or before the 15th November 1916.

CALCUTTA, *28th August 1916.*

ALTERATION OF IMPROVEMENT SCHEME No. I (SURTIBAGAN).

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above scheme so as to make Tarachand Dutt Street 84 feet wide instead of 45 feet wide for a length of about 440 feet east of Chitpore Road This will involve the acquisition of the following additional properties :—

Chitpore Road, Lower ...	63, 64, 64/1, 64/2, 65, 65/7, 65/8.
Ram Prosad Shah Lane ..	6, 7, 9, 10, 23/1, 24, 25, 27.
Tarachand Dutt Street ...	45, 48 and 49.

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours.

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite

Tarachand Dutt Street. The branch road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No. IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82. Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No. IV had been adopted.

The estimated cost of the proposed alteration is—

Land Gross	...	...	...	... 4¾ lakhs.
Recovery ..		...	...	... 4¼ „
Net	...	...	...	... ½ lakh.

The Engineering estimate is Rs 55,847, being Rs. 26,867 in excess of the original estimate already sanctioned.

C. H. BOMPAS, *Chairman.*

1st September 1916.

ALTERATION OF IMPROVEMENT SCHEME No. IA.

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above Scheme so as to make the Road 84 feet wide instead of 40 feet wide. This will involve the acquisition of the following additional properties:—

Kasi Nath Mullick Lane.

Nos. 5, 5/1, 17, 17/1, 17/1/1 (portion), 18, 19, and 20, 20/1, 20/2, 20/3, 20/4 and 21 (portion)

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite Tarachand Dutt Street. The Branch Road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82, Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No IV had been adopted.

The estimated cost of acquiring the additional land is—

Gross	...	...	...	... 6¼ lakhs.
Net	..	...	...	... ½ lakh.

The Engineering estimates amount to Rs. 32,655 against Rs 11,179, the estimated cost of the narrower Road

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE MATRICULATION EXAMINATION OF 1917.

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school-masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it :—

Name of School.	Date of Test Examination.
(1) Comilla Zilla School ...	4th, 5th, 6th and 7th December 1916.
(2) Noakhali Zilla School ...	Ditto.
(3) Chittagong Collegiate School ...	Ditto.
(4) Rangamati High English School	Ditto.

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the Head Master of the institution at which he appears.

4. Application for permission to appear must be sent in time to reach this office not later than the 5th November 1916. The information to be given and the documents to be appended in original are the following :—

(*a*) The name of the school in which the candidate last studied.

(*b*) The Transfer Certificate in original granted to the candidate by the Head Master of the school in which he last read ; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, the Registrar's receipt in original for the fee paid.

(*d*) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation Examination will be allowed to appear at it.

(*e*) In the case of school-masters a certificate of good conduct from the Secretary or proprietor of the school in which he is serving or from the Deputy Inspector of the district concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts :—

(i) Residence.
(ii) Father's name.
(iii) Second language besides English.
(iv) Vernacular language for composition.
(v) Vernacular language from which translation is to be made into English in the first English paper.

(vi) Which of the following subjects he has taken up :—

(i) Additional Mathematics.
(ii) Additional paper in the classical language.
(iii) History.
(iv) Geography.
(v) Elementary Mechanics.

N B—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1916 and then left the school can, under no circumstances, be allowed to appear at the examination

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the Head Master of the institution in which he intends to appear, at least 15 days before the date of that examination. The Head Master will deposit

the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The Head Masters of the institutions named above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the application to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held on the 1st March 1917 and the following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th January 1917.

ABDUL AZIZ,
Offg. Inspector of Schools, Chittagong Division.

CHITTAGONG, *the 31st August 1916.*

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE INTERMEDIATE AND B. A. EXAMINATIONS, 1917.

Boná fide teachers of schools, recognised by the University, or of any other schools, approved for the purpose by the Syndicate, who have served as such for a full period of three academical years preceding the examination, will be admitted to the Intermediate and B. A. Examinations as non-collegiate students.

2. Applications for permission to appear at the abovementioned examinations in the printed form prescribed by the University must be submitted to the Inspector of Schools for signature, on or before the 10th January 1917, with the following papers :—

(1) Registrar's orders showing that the candidate's name has been registered as a University student.
(2) Permission of the Senate allowing the candidate to appear at the examination.
(3) F. A. certificates by candidates for B. A. Examination or Matriculation certificates by candidates for the Intermediate Examination, and also the Registrar's receipt by candidates who had been admitted to a former examination.
(4) Certificates of good character, length of service and diligent and regular study from secretaries of the schools in which the candidates may be serving.

3. No candidate shall be admitted to the abovementioned examinations who has been enrolled as a regular student of a college during the twelve months previous to the date of the examination at which he applies for permission to appear.

4. The Intermediate and B. A. Examinations of 1917 will be held on the 12th and 22nd March, respectively, and the following days.

5. Applications and fees for admission to the above examinations must reach the office of the Registrar on or before the 26th January and 6th February 1917, respectively.

ABDUL AZIZ,
Offg. Inspector of Schools, Chittagong Division.

CHITTAGONG, *the 31st August 1916.*

NOTIFICATION.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1917.

A TEST EXAMINATION of private students, who have not attended any school, recognised or unrecognised, for at least one year previous to the ensuing examination, will be held at the office of the Inspector of Schools, Presidency Division, Calcutta, from Monday, the 4th December 1916. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private student" includes schoolmasters.

2. Private candidates are students, who have not attended any school for at least one year previous to the Matriculation examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation examination, must be submitted in original along with the application for permission to appear at the test examination. A statement of antecedents of the candidate should accompany his application. He should state whether he read in any unrecognised school, and if so, in what school and in what year. A student who failed to pass the annual examination for promotion to the first class at the end of the year 1915 and then left school will, under no circumstances, be allowed to appear at the Matriculation examination of 1917.

3. *Bonâ-fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination; they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 1st November 1916, his application for admission to the test examination, with the following particulars :—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation examination, (5) second language besides English, (6) Vernacular language, and (7) which two of the following optional subjects he has taken up :—

(*a*) Additional Mathematics.

(*b*) Additional paper in the Classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the test examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the test examination held by the head master of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the

candidates from that institution. The head master of such school is hereby authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The Matriculation Examination in 1917 will be held on the 1st of March 1917 and following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th January 1917.

INTERMEDIATE AND B.A. EXAMINATIONS IN 1917.

Deputy Inspectors, Sub-Inspectors and *bonâ-fide* teachers of English schools in the Presidency Division who have been employed as such for at least three years preceding the examination will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 4th December 1916.*

1. In accordance with section 9, Chapter XV. of the revised Regulations dealing with the registration of University students, all candidates, who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some affiliated institutions and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F.A., I.A., or I.Sc. certificates, and candidates for the Intermediate examination their Entrance or Matriculation certificates, together with a letter, in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those schoolmasters who were admitted to a previous examination of the same class.

4. The Intermediate and B.A. examinations in 1917 will be held on the 12th and 22nd March 1917, respectively, and following days.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before 26th January and 6th February 1917, respectively,* and must be sent to that office by the candidates direct.

M. P. WEST

Inspector of Schools, Presidency Division.

CALCUTTA, 285, BOW BAZAR STREET, *the 24th August 1916.*

OFFICE MEMORANDUM BY THE INSPECTOR OF SCHOOLS, BURDWAN DIVISION.

University Matriculation Examination, 1917.

PRIVATE STUDENTS.

1. Private students are those who have not attended any recognized or unrecognized High English schools for at least one year previous to the examination. The term "private students" includes school-masters.

2. Private students must appear at the Test Examination to be held on Monday, the 18th December 1916, and the following days at the Hooghly Collegiate School.

Each private student will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 9th November 1916, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstances will the admission fee be refunded* No private student will be admitted to the Test Examination unless he is accompanied, for the purpose of identification, by some person known in the office of the Inspector of Schools, Burdwan Division.

3. Applications must be submitted through the head-master of the school in which the applicant last read. The head-master, in forwarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The application of no candidate is to be forwarded who did not leave school from the first class, or who had not been declared fit for promotion to that class. The information to be given and the documents to be appended (in original) are the following:—

(*a*) The name of the school in which the candidate last studied.

(*b*) The transfer certificate (in original) granted to the candidate by the head-master of the school in which he last read; or

(*c*) In the case of a candidate who previously appeared at the Entrance Examination, the Registrar's receipt (in original) for the fee paid.

(*d*) The age of the candidate is not required in cases (*b*) and (*c*). No candidate who has not completed the age of sixteen years on the first day of the Matriculation Examination is eligible.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary or proprietor of the school in which the candidate is serving.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1916. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(*g*) The names of subjects in which the candidate wishes to be examined.

4. *The fee for the Matriculation Examination has NOT to be sent to this office.* It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

5. The address of each private student should be supplied to this office

6. The Matriculation Examination in 1917 will be held on the 1st March 1917 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 17th January 1917.

T. O. D. DUNN,
Inspector of Schools, Burdwan Division.

CHINSURA,
The 4th September 1916.

Intermediate and B. A. Examinations.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* masters of English schools, who have served as such for the full period of three academical years preceding the examination, will be admitted to the abovementioned examinations.

2. Candidates for the Intermediate and B. A. Examinations must produce certificates of character and length of service from the secretaries of their respective schools. Candidates for the B. A Examination must forward with their applications their F. A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B. A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required under section 9, chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 12th January 1917, together with other papers, as mentioned in rules 2 and 3, after which no application will be received.

5. The Intermediate Examination of 1917 will be held on the 12th March 1917 and following days. The B. A. Examination of 1917 will be held on the 22nd March 1917 and following days. The applications and fees for admission to the Intermediate Examination must reach the office of the Registrar on or before the 26th January 1917, and those for the B. A. Examination on or before the 6th February 1917.

T. O. D. DUNN,

Inspector of Schools, Burdwan Division.

CHINSURA,

The 4th September 1916.

DACCA DIVISION.

Rules for the admission of private candidates to the University Matriculation Examination, 1917.

1. A student who has not attended any school, recognised or unrecognised, for at least one year previous to the examination will be treated as a private candidate. Teachers of schools are also considered as private candidates.

2. Private candidates desirous of sitting at the ensuing University Matriculation Examination must appear at the test examination of one of the undermentioned schools to be held on the 4th December 1916 and the following days :—

(1) Dacca Collegiate School.
(2) Mymensingh Zilla School.
(3) Faridpur Zilla School.
(4) Barisal Zilla School.

3. Every private candidate must submit his application for admission to the test examination on or before the 1st November 1916 to the head master of one of the schools named above where he intends to appear,

producing a certificate from a respectable gentleman to the effect (1) that he has not attended any school, recognised or unrecognised, for at least one year previous to the examination, (2) that his conduct and character have been good, (3) that he has diligently and regularly prosecuted his studies and has been subject to proper discipline.

A student who failed to pass the annual examination for promotion to class X at the end of the session 1915 and then left the school should not be allowed to sit at the examination.

4. He should also forward with his application his transfer certificate from the school (if any) in which he last read, or the Registrar's receipt (if he appeared at any previous Entrance Examination), or a certificate from a respectable person with personal knowledge of the facts of the case that he has never been to any school.

5. No one will be admitted to the test examination unless he shall produce satisfactory evidence that he will have completed the age of sixteen years on the 1st day of March 1917. For the purpose of this rule the age as recorded in a transfer certificate from a recognised school or in the Registrar's receipt (in case of those who appeared at any previous examination) will be accepted. Those who have never read in any school must produce either their horoscope or an affidavit sworn by their parents or guardians before a competent Magistrate declaring their age.

6. Every private candidate shall state in his application his name, father's name, date of birth, residence, postal address and the following particulars:—

(1) Whether he appeared at the Entrance Examination in any previous year.

(2) Language in which (besides English) he is to be examined.

(3) Vernacular language for composition.

(4) Vernacular language from which translation is to be made into English in the 1st English paper.

(5) Which of the following subjects taken up—

(*a*) Additional Mathematics.
(*b*) Additional paper in classical language.
(*c*) History
(*d*) Geography.
(*e*) Elementary Mechanics.

7. Every private candidate must pay a fee of Rs. 2 to the head master of the school at which he appears for examination. The head master must deposit the amount of fees realised into the treasury, the expenditure incurred in this connection being met from the amount to be allotted in the Education budget.

8. On the first date of examination, he must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, otherwise he will not be admitted to the test examination.

9. The head masters of the schools named above should send to this office for orders a statement in duplicate showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination. The application forms of candidates who are declared eligible should be forwarded to this office for countersignature duly filled in and signed and accompanied by the documentary evidence referred to in paragraphs 3, 4 and 5.

10. Private candidates should arrange to remit their examination fees, together with the countersigned application forms, direct to the Registrar, so as to reach him on or before the 17th January 1917. The fee payable by each candidate for the examination is Rs. 12.

11. The Matriculation Examination for 1917 will be held on the 1st March and the following days.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR AUGUST 1916.

I. *Character of the Season.*—During the month under review seasonable rain fell throughout the province. The fall was in excess of the normal everywhere excepting in some of the Northern and Western Bengal districts. The usual rainfall statement is appended.

II. *Progress of Agricultural Operations.*—Transplanting of winter rice was in full swing everywhere. Weeding also commenced during the latter part of the month. Harvesting of autumn paddy and jute continued, but was approaching completion in some of the Eastern districts. Steeping and washing of jute were also progressing well.

III. *State of Standing Crops.*—Excepting in some of the low lands of Eastern Bengal, the standing autumn crops were in a fairly satisfactory condition.

IV. *Prospects and Probable Outturn.*—The prospects of the standing autumn and jute crops were on the whole fairly good. The prospects of the winter rice crops are so far not unfavourable.

V. *Damage to Standing Crops.*—Some damage was done to the standing crops on low lands in the Rajshahi and Dacca Divisions by excessive rainfall and floods. Injury to jute by insect-pests was also reported from some districts of the Presidency Division.

VI. *Condition of Agricultural Stock.*—The condition of agricultural stock is reported to have been fairly good. The number of districts in which cattle-disease was found to be prevalent varied from 2 to 9.

VII *Failure of Pasturage and Fodder.*—Insufficiency of fodder owing to floods was reported from parts of Dinajpur, Bogra, Dacca and Tippera.

VIII. *Prices of Food-grains.*—During the second fortnight of the month under review the prices of common rice rose in 8 districts, fell in 5 and remained stationery in the rest. It varied from 10 seers per rupee in the Chittagong Hill Tracts to 6 seers 14 chitaks in Tippera.

IX. *Condition of Agricultural People.*—Scarcity continued to prevail in parts of Bankura, Tippera and the Chittagong Hill Tracts The distress in the latter place was, however, subsiding The condition of the agricultural people elsewhere was fairly good

REPORT ON FAMINE IN BANKURA DISTRICT FOR THE WEEK ENDING THE 2nd SEPTEMBER 1916.

In **Bankura district** the distress in the affected areas is generally unchanged. The rainfall was general. Transplantation has been finished. Weeding continues. The prospects are good. *Bhadoi, til* and maize are being harvested The relief measures are adequate. The condition of people on the relief works is generally good. Sufficient advances are being made to weavers Private charitable organisations are giving relief. Prices are stationary. The price of rice is 8¼ seers per rupee. The number of persons on the relief works was 9,279, and in receipt of gratuitous relief 20,346, total 29,625. The gradual increase in the number of persons on the relief works is due to small demand for labour owing to the completion of transplantation. Two thousand three hundred and fifty-three persons were relieved on private works.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 11th September 1918.

Summary.—During the week under report light to moderate rainfall was almost general throughout the Province. The effects of the weather have been favourable to the winter rice crop. Transplanting of winter rice is still going on in places; weeding is proceeding everywhere. Harvesting and threshing of autumn paddy and cutting, steeping and washing of jute continue; but in Eastern Bengal these operations are nearly finished. Preparation of lands for *rabi* crops has just commenced in one or two districts. In parts of Malda autumn paddy and jute are reported to have been destroyed by excessive flood. Fodder is scarce in parts of Jessore. The average price of common rice is stationary as compared with that of the previous week.

The decrease in Coaching during this week is mainly in parcel and military baggage
The decrease in Goods during this week is mainly in tea flour iron and cement

The traffic during the month of August was not as good as was expected but there is every hope that the estimated earnings for the half year of Rs 6,60,000 will be reached. The increase in Coaching was in local and foreign passengers. The increase in goods is mainly under Jubbulpore Gram Rice and Tea. The traffic under iron and cement is still unsatisfactory

L. BIRLEY,
Secy. to the Govt. of Bengal.

SETTLEMENT OF THE PATILDAHA ESTATES BELONGING TO THE TAGORE RAJ UNDER THE BENGAL SETTLED ESTATES ACT, 1904.

No. 7451L.R.—The 8th September 1916.—Whereas Maharaja Bahadur Sir Prodyot Coomar Tagore, KT., has applied to the Governor in Council, under section 3 of the Bengal Settled Estates Act, 1904 (Bengal Act III of 1904), for permission to make a settlement of an estate under that Act;

AND WHEREAS in pursuance of section 7 of the said Act, and with the previous sanction of the Governor General in Council, the said application was published for general information [with the exception of the particulars as to income, revenue, rates and taxes which have been inserted in pursuance of clause (*b*) of section 4 of the Act], in the *Calcutta Gazette* of the 8th April 1914, Part I at pages 685-95, as Notification No. 3748, dated the 30th March 1914;

AND WHEREAS the Governor in Council duly considered all objections to the proposed settlement, communicated to him during the period of six months subsequent to the date of the said notification;

AND WHEREAS the incumbrances mentioned in paragraphs 6 and 7 of the said application have been discharged and whereas certain other incumbrances which are referred to in paragraphs 8 and 9 of the application have also been discharged and the only incumbrances now subsisting are enumerated and described in the second schedule to the proposed instrument of settlement hereto annexed;

AND WHEREAS provisions have been made in the said proposed instrument of settlement for the continuance of the three several annuities mentioned in the said second schedule and for the discharge of the other incumbrances and for payment of interest thereon, which provisions have been assented to by the creditors:

NOW, therefore, in exercise of the power conferred by clause (*b*) of sub-section (*1*) of section 8 of the said Act, the Governor in Council is pleased to grant permission to the said Maharaja Bahadur Sir Prodyot Coomar Tagore, KT., to make the settlement proposed in the application hereinafter set forth below of the immoveable properties mentioned in the first schedule annexed to the said proposed instrument of settlement.

L. BIRLEY,
Secy. to the Govt. of Bengal.

In the matter of the Bengal Settled Estates Act, 1904 [Act III (B.C.) of 1904], and in the matter of a proposed Instrument of Settlement to be executed by Maharaja Bahadur Sir Prodyot Coomar Tagore.

TO HIS EXCELLENCY THE GOVERNOR OF BENGAL IN COUNCIL.

The application of Maharaja Bahadur Sir Prodyot Coomar Tagore under section 3 of the Bengal Settled Estates Act, 1904,

SHEWETH—

1. That the applicant was born in the year 1872 and is the adopted son of the late Maharaja Bahadur Sir Jatindra Mohun Tagore, K.C.S.I., and

succeeded on the death of his adoptive father to the hereditary title of Maharaja.

2. The applicant is in possession in his own right of and is solely entitled to the immoveable properties particularly described in the first schedule hereto which are held by him in permanent heritable and transferable right.

3. The income yielded by the said immoveable properties and the revenue and cesses payable to the Government annually in respect thereof are specified in the said first schedule hereto. That the rates and taxes payable to the local authority in respect of the said immoveable properties amount at present in the aggregate to Rs. 1,002 per annum.

4. The said immoveable properties except the premises No. 20-1, Prosonno Coomar Tagore's Street, Calcutta, were (with other properties since sold or now to be sold by him) conveyed to the applicant by an indenture of conveyance, dated the 21st May 1908, made between the Tagore Estates Limited, of the one part and the applicant of the other part for the consideration of Rs. 48,00,000 and were so conveyed subject to the payment of three monthly annuities of Rs. 200 each to one Nogendra Bhusan Mukerji, one Shoshendra Bhusan Chatarji, and one Sreemati Promoda Sundari Debi, respectively, during their respective lives, which said annuities are still subsisting and payable.

5. The said consideration of Rs. 48,00,000 was part of a sum of Rs. 50,00,000 advanced to the applicant by the Government of India, the repayment whereof is secured by an indenture of mortgage, dated the 21st day of May 1908, made between the applicant of the one part and the said Secretary of State of the other part, whereby the said immoveable properties except as aforesaid (with other properties since sold) were transferred by the applicant to the said Secretary of State, subject to the said three annuities and subject to the proviso for redemption that, when the said sum of Rs. 50,00,000 and all interest thereon in the meantime at the rate of 4 per cent. per annum should, under the scheme or provision for redemption and in manner therein mentioned contained and provided, have been fully paid to the Government of India, the said Secretary of State would reconvey the said immoveable properties to the applicant.

6. By an indenture of mortgage, dated the 31st day of May 1910, and made between the applicant of the one part and one Sreemati Charusila Dassi of the other part, the said immoveable properties (with certain exceptions, but including the premises No. 20-1, Prosonno Kumar Tagore's Street, Calcutta), were charged by the applicant by way of second mortgage with the repayment to the said Charusila Dassi of the sum of Rs. 4,50,000 advanced by her to the applicant with interest thereon in the meantime at the rate of 6 per cent per annum.

7. On the 19th December 1910 the applicant borrowed a further sum of Rs. 50,000 from the said Charusila Dassi, the repayment whereof with interest at the rate of 6 per cent. per annum is secured by an agreement, dated the 19th December 1910, and made between the applicant of the one part and the said Charusila Dassi of the other part, whereby the applicant covenanted to repay the said principal sum with interest on demand and to execute in favour of the said Charusila Dassi as further security for such repayment a mortgage of certain of the said immoveable properties, which he has not yet done.

8. The several incumbrances aforesaid are enumerated and described in the second schedule hereto, and in such schedule are also contained particulars of the name and address of each incumbrancer and a statement of the amount now due to each incumbrancer other than the said annuitants.

9. In addition to the incumbrances aforesaid the applicant is indebted to the several persons whose names and addresses are set forth in the third schedule in the sums set opposite their respective names in the said schedule, in which schedule is also specified the nature of the said debts none of which are secured debts.

10. Save as specified in the second and third schedules hereto there are no incumbrances held by secured or unsecured creditors enforceable against the applicant or the said immoveable properties.

11 The applicant is desirous of effecting a settlement of the said immoveable properties and is willing that there shall be embodied in such settlement such provisions as are contained in the draft of the proposed instrument of settlement submitted with this application or such further or other provisions as may be assented to by the creditors and approved by the

Local Government for the discharge of the said incumbrances and for the payment of interest thereon.

The applicant therefore applies for permission to make a settlement of the immoveable properties mentioned and described in the foregoing application and the first schedule thereto pursuant to the Bengal Settled Estates Act, 1904.

I, MAHARAJA BAHADUR SIR PRODYOT COOMAR TAGORE, the applicant abovenamed, do declare that the statements in paragraphs 1, 2, 4 to 11 of the foregoing application are true to my knowledge, and that the statements in paragraph 3 of the foregoing application are made upon information received by me and believed by me to be true.

Signed at "The Prasad," Prosonno Kumar Tagore's Street, Calcutta, this 1st day of November 1912. } PRODYOT COOMAR TAGORE.

Secy. to the Govt. of Bengal.

No. 7804Regn.—The 19th September 1916.—The following rules have been made by the Inspector-General of Registration and approved by the Government of Bengal under section 69 of the Indian Registration Act, 1908, (XVI of 1908), in supersession of all rules heretofore made under section 69 of the Act.

L. BIRLEY,

Offg. Secy. to the Govt. of Bengal.

THE REGISTRATION RULES.

PRELIMINARY.

Short title.

1. These rules may be called the Bengal Registration Rules, 1916.

Definitions

2. In these rules, unless there is anything repugnant in the subject or context,—

(*i*) "The Act" means the Indian Registration Act, 1908;

(*ii*) "Appendix" means an Appendix to these rules;

(*iii*) "Registering officer" includes both a Registrar and a Sub-Registrar;

(*iv*) "Registration office" includes both a Registrar's and a Sub-Registrar's office.

(*v*) "Rule" means a rule made under the Act and for the time being in force;

(*vi*) "Section" means a section of the Act.

CHAPTER I.

MAINTENANCE OF REGISTER-BOOKS, PAPERS AND DOCUMENTS IN REGISTRATION OFFICES, THEIR CUSTODY AND DESTRUCTION.

Forms of Register books Nos 1 to 5

3 Register-books Nos. 1, 3 and 4, prescribed by section 51 of the Act, shall be kept in Form No. 1 in Appendix I. Register-books Nos 2 and 5 prescribed by the same section shall be kept in Forms Nos. 2 and 3 respectively, in Appendix I.

Register-books how to be kept.

4. In the left-hand margin of the Register-books Nos. 1, 3 and 4 there shall be copied in *red* ink the value of the stamp on each document registered, the certificate of admissibility in respect thereof, referred to in rule 46, and all the endorsements relating thereto made in the office, including the serial number in the Register of thumb impressions (Form No. 4 of Appendix I) of each thumb impression, if any has been taken; in the centre, the document itself shall be copied in *black* ink, and below the copy of each document itself the stamp-vendor's endorsement shall be copied in *red* ink, and the right-hand margin shall be left vacant for notes under section 20, sub-section (*2*).

Separate volumes for Register-books

5. (*1*) Several volumes of Register-books Nos 1 and 4 may, if necessary, be kept in use simultaneously when the documents registered are so numerous as to make this course necessary.

(*2*) Register-books Nos. 2, 3 and 5 shall be continued from year to year until they are full, and in small offices, where the number of documents registered is inconsiderable, the same volume of Register-books Nos. 1 and 4 may also be used for two or more years.

File-books to be kept

6. (*1*) In addition to the bound volumes of Register-book No. 1, every Sub-Registrar must keep two file-books as parts of Register-book No. 1.

(*2*) In one of such file-books he must file the memoranda of registered documents which have been forwarded to his office under sections 64, 65 and 66.

(*3*) In the other file-book he shall file the following documents received by him under section 89 of the Act:—

(*i*) copies of sale-certificates from Civil Courts and from Revenue officers:

(*ii*) copies of instruments and orders issued under the Land Improvement Loans Act, 1883, and the Agriculturists' Loans Act, 1884;

(*iii*) copies of instruments of mortgage of immoveable property under the Agriculturists' Loans Act, 1884.

(4) Every Registrar shall keep three separate file-books, as parts of Register-book No. 1, one for memoranda, one for copies of documents and copies of maps or plans (if any) received under sections 65, 66 and 67, and one for the copies of sale-certificates and the copies of instruments and orders referred to in sub-rule (3) and received by him.

(5) The papers referred to in sub-rules (2), (3) and (4) shall be bound into volumes of convenient size at the end of the year. The papers shall be numbered consecutively, but in a series different from that used for the registration of original documents in Register-book No. 1. The volumes shall be numbered in one series with the volumes of Register-book No. 1.

Additional records to be kept in all Registration offices.

7. Besides the Register-books Nos. 1 to 4 mentioned in rule 3 and the file-books prescribed by rule 6, the following books and registers shall be kept in all Registration offices in the forms noted against each, namely :—

(1) Cash-book (Form No. 23 in Appendix I);
(2) Catalogue of books (Form No. 21 in Appendix I);
(3) Chalan-book (Form No. 22 in Appendix I);
(4) Daily notices (Form No. 20 in Appendix I);
(5) Fee-book (Form No. 11 in Appendix I);
(6) Receipts for memoranda and copies (Form No. 12 in Appendix I);
(7) Receipts given under section 52, clause (b) (Form No. 8 in Appendix I);
(8) Register of Powers of-Attorney (Form No. 17 in Appendix I);
(9) Register of visits and commissions (Form No. 9 in Appendix I);
(10) Register of applications for search and copy (Form No. 18 in Appendix I);
(11) Receipts for fees paid for search and copy (Form No. 19 in Appendix I);
(12) Register of documents impounded and sent to the Collector (Form No. 7 in Appendix I);
(13) Register of thumb impressions for ordinary registrants (Form No. 4 in Appendix I);
(14) Register of thumb impressions for applicants for return of documents in cases of loss of receipt (Form No. 4 in Appendix I);
(15) Receipts for fees and travelling allowances under section 31 or section 33(3) (Form No. 10 in Appendix I);
(16) Register of copies and memoranda despatched to other offices (Form No. 25 in Appendix I);
(17) Stock-book of furniture (Form No. 24 in Appendix I).

Additional records to be kept in Registrar's office.

8. In addition to Register-book No. 5 prescribed by section 51, and the books and registers mentioned in rule 7: a register of unclaimed wills forwarded to the Registrar's office, under rule 107, shall be kept in Form No. 5 in Appendix I.

Central office of record in each district.

9. Each Registrar's office shall be a central office of records for the district, and such of the registers of the subordinate offices as are not to be destroyed shall be transferred to it from time to time as directed in rule 10.

Transfer of records to the District office.

10. (1) In January of each year the following records of the previous year shall be transferred from Sub-Registry offices to the Registrar's office, namely :—

(a) completed volumes of Register-book No. 1, together with file-books containing the memoranda and copies referred to in rule 6;
(b) completed volumes of Register-book No. 4 and Index No. IV, and copies of Indexes Nos. I, II and III;
(c) files of translations and copies filed under section 62; and
(d) completed registers of thumb impressions:

Provided that, in the case of a Sub-Registry office which has no masonry accommodation for the custody of records, and in the case of any other Sub-Registry office to which the Registrar may, by written order, extend this proviso, the said records shall be transferred to the Registrar's office at the close of each quarter.

(2) Register-books Nos. 3 and 2 and the Register of Powers-of-Attorney shall be transferred from Sub-Registry offices to the Registrar's office as soon as they are filled up.

(3) The Registrar of a district, on receiving Indexes Nos. I and II from Sub-Registrars' offices, shall bind them separately for each Sub-Registrar's office.

Records to be permanently preserved in Registrar's office.

11 The following records shall be permanently preserved in all Registars' offices, namely :—

(1) Catalogues;

(2) Kazis' records under Regulation XXXIX of 1793;

(3) Register-books (except the Register of refusals) and their indexes prescribed by, and translations and true copies filed under, the various Registration Acts (Acts XVI of 1864. XX of 1866, VIII of 1871, III of 1877 and XVI of 1908);

(4) Register-books of documents and their indexes kept prior to Act XVI of 1864; and

(5) Lists of records destroyed and reports of destruction of records.

Records to be permanently preserved in other Registration offices.

12. The following records shall be permanently preserved in other Registration offices, namely :—

(1) Catalogues;

(2) Lists of records destroyed;

(3) Original Indexes Nos. I and II under Acts XX of 1866, VIII of 1871 III of 1877, or XVI of 1908.

Registers to be kept in the Calcutta Registry office.

13. The books and indexes of the General Registry office under Act XVI of 1864 and Act XX of 1866 shall be preserved in the Calcutta Registry office.

Responsibility for safe custody of records.

14. Every Registering officer shall be responsible for the preservation and safe custody of all registration records, including those of previous years, which have accumulated in, or have been transferred to, his office.

What record may be destroyed.

15. The following records may be destroyed, with the previous sanction of the Inspector-General of Registration, after the expiration of the period of retention respectively specified against each, the said periods being computed from the 1st January next following the date of record :—

Description of records.	Period of retention.
(1) Thumb-impression Registers	50 years.
(2) Registers of Powers-of-Attorney authenticated	
(3) Book No. 2	12 years.
(4) Cash-book	
(5) Fee-book (including the Tenancy Act Fee-book)	
(6) Other records which may be specified in this behalf from time to time by the Inspector-General	
(7) Register of visits and commissions	3 years.
(8) Register of copies and memoranda despatched to other offices	
(9) Register of applications for search and copy ...	
(10) Register of documents impounded	
(11) Chalan-books	
(12) Receipts for copies and memoranda ...	
(13) Receipts referred to in section 52 of the Act ...	
(14) Receipts for fees and travelling allowances under section 31 or section 33(3) of the Act	
(15) Receipts for fees paid for search and copy ...	
(16) Other records which may be specified in this behalf from time to time by the Inspector-General	

Record of destruction of unclaimed documents under section 85.

16. When a registered document, which has remained unclaimed in any Registration office for a period exceeding two years, is destroyed under section 85, a note to that effect shall be made in the margin opposite to the copy in the book in which the document is registered

Conditions precedent to destruction of documents.

17. (*1*) No books or registers prescribed by the Act or by these rules and no documents shall be destroyed at any Registration office without the previous sanction of the Inspector-General of Registration.

(*2*) Before any document is destroyed, an endeavour must always be made by the Registering officer in whose office the document is kept to induce the presentant thereof to take it back.

CHAPTER II.

AUTHENTICATION OF REGISTER-BOOKS.

Certificate to be given in Register books.

18. When a register-book is opened, the pages therein shall be counted and a certificate showing their number shall be entered at the top of the first page by the Sub-Registrar in the form : "This book contains . . . pages consecutively numbered." When a register-book is closed, a certificate to that effect, signed by the Registering officer, shall be appended to the last page at the end of the written portion of the book, and a further certificate showing the number of pages written upon, and the number of copies of documents contained in each, shall be entered at the top of the written portion of the first page of the book.

Authentication of copies and notes.

19. (*1*) The Registering officer shall authenticate by his initials all corrections in the copy of every document admitted to registration, which, by section 52, clause (*c*), is required to be made in the register-book and all notes in such copy which may be made under section 20, sub-section (*2*).

(*2*) He shall also affix his initials to each page of such copy, and shall certify with his full signature that each copy is a true copy, and shall date such certificate with his own hand.

(*3*) All interlineations and corrections in the register-books shall be made in *red* ink when entries are made in *black* ink, and shall be made in *black* ink when entries are made in *red* ink.

Marginal note to be made of cancellation of document by order of a Civil Court

(*4*) When a Court forwards a copy of its decree cancelling a registered instrument under section 39, Specific Relief Act I of 1877, the Registering officer shall note, on the margin of the copy in the book in which it has been registered, the fact of the cancellation of the instrument.

(*5*) If a registered document is declared by a Court to be a forgery or to have been registered by false personation, a note of the fact shall be made in the copy in the register-book and also on the document itself, if available.

Mode of making corrections

20. (*1*) The practice of wiping out incorrect words and figures in register-books with the finger, or scratching them out with a knife, is prohibited in all Registration offices.

(*2*) Corrections in such books must always be made with a pen; they must not be made by altering one word or figure into another, but the pen must be drawn through the erroneous words or figures, and the correct ones must be clearly written near or above those struck out or opposite to them in the right-hand margin, and such corrections shall be attested on each side by the initials of the Registering officer.

(*3*) All corrections and interlineations in such books must be attested by the Registering officer's initials, which must be written, not in the middle of the erroneous words or figures, but in a clear space close by.

CHAPTER III.

LANGUAGES TO BE DEEMED TO BE COMMONLY USED IN DIFFERENT DISTRICTS.

Languages to be deemed to be commonly used in different districts.

21. The following languages shall be deemed, for the purposes of section 19, to be those commonly used in the districts respectively mentioned opposite thereto :—

Languages.	Districts.
English, Bengali and Urdu ...	Districts of the Burdwan, Presidency, Dacca, Chittagong and Rajshahi Divisions.
English, Hindi, Urdu and Bengali.	District of Darjeeling.

CHAPTER IV.

TERRITORIAL DIVISIONS.

Territorial divisions.

22. The territorial divisions to be recognized under section 21, sub-section (*3*), shall be—

(*a*) registration districts, sub-districts and thanas;

(*b*) parganas and mauzas, where they exist; and

(*c*) Collectorate districts, if these are different from registration districts.

CHAPTER V.

PROCEDURE PRIOR TO ACCEPTANCE OF DOCUMENTS FOR REGISTRATION.

Conditions of admissibility.

23. On the presentation of a document for registration, the Registering officer shall first satisfy himself—

(*a*) that it has been presented at the proper office (sections 28, 29 and 30);

(*b*) that it bears the proper stamp or is exempted from, or does not require, stamp duty;

(*c*) that it is in a language deemed to be commonly used in the district or is accompanied by a true translation into such a language and a true copy (section 19);

(*d*) that, in the case of any interlineation, blank, erasure or alteration, section 20 and rule 28 have been complied with;

(*e*) that, if the document is non-testamentary and relates to immoveable property, the description is sufficient (section 21);

(*f*) that, if the document is non-testamentary and relates to lands or houses the description of which is governed by a rule made under section 22, sub-section (*1*), the lands or houses are described according to that rule;

(*g*) that, if the document is non-testamentary and contains a map or plan, it is accompanied by the prescribed number of true copies of the map or plan [section 21 sub-section (*4*)];

(*h*) that, if the document is not a will, it has been presented within the proper time (sections 23 to 26); and

(*i*) that the document has been presented by the person authorized in that behalf (section 32 or section 40).

Receiving documents for registration.

24. Documents presented for registration shall be received one at a time ordinarily in the order of presentation, and each shall be examined and endorsed in the same order as far as practicable. No document shall ordinarily be received for registration after the hours fixed for presentation.

Procedure of registration of a document affecting immoveable property situated in an area within jurisdiction of any office at the time of its presentation but separated before registration.

25. A Registering officer having jurisdiction to accept a document affecting immoveable property for registration at the time of its presentation to him shall complete its registration notwithstanding the fact that the village in which the immoveable property affected is situated has been transferred from his jurisdiction subsequent to the presentation of the document, but before the completion of its registration. But a memorandum (Form No. 6, Appendix I) shall be sent, without levy of any fee, to the office to the jurisdiction of which the village has been transferred for the purpose of being filed in that office.

When, however, after refusal to register by a Registering officer the village in question is transferred, whilst the document is on appeal before a Registrar or in a suit before a Civil Court, to the jurisdiction of another Sub-Registrar, the document, if the Registrar or the Court orders that it shall be registered, shall be re-presented for registration to the Registering officer in whose sub-district the village has been transferred.

Procedure in case of unavoidable delay.

26. When a document is presented under section 25, sub-section (*1*), to a Sub-Registrar, he shall, after examining it with regard to the particulars mentioned in rule 23, forward it forthwith to the Registrar of the district with the application referred to in section 25, sub-section (*2*), recording on the document only the endorsement under clause (*a*) of sub-section (*1*) of section 52, and if the Registrar returns the document with an order that it may be accepted for registration, the Sub-Registrar shall deal with it in the same manner as documents presented within the time allowed for registration.

Applications under section 25 (*2*) how dealt with.

27. When an application is made to a Registering officer under section 25 (*2*) for the extension of the prescribed period, he shall examine the person presenting the document to ascertain the cause of delay and forward his statement to the Registrar with his recommendation.

Attestation of interlineations, blanks, erasures and alterations.

28. (*1*) When the executant of any document appears personally, he shall be required to attest all interlineations, blanks, erasures and alterations as prescribed by section 20.

(*2*) When he appears by a representative, the attestation of such representative shall be accepted, if the interlineations, blanks, erasures or alterations are of an unimportant character, or if due cause for such acceptance is shown.

Return of documents presented at wrong office.

29. (*1*) When a document is presented to a Registering officer whose office is not the proper office for its registration, he shall return it to the presentant with the endorsement "Returned for presentation at the proper office."

(*2*) When a document is returned under sub-rule (*1*), no entry shall be made in Register-book No. 2.

Impounding of documents not duly stamped.

30. (*1*) Whenever it appears to a Registering officer that a document presented for registration is not duly stamped, he shall not realize the registration-fee, but shall impound the document at once under section 33 of the Indian Stamp Act II of 1899, and shall enter it without delay in the book for impounded documents (Form No. 7, Appendix I).

(*2*) The headings prescribed in Form No. 8 in Appendix I shall, as far as practicable, be filled up in the receipt granted to the presentant under section 52, clause (*b*), out of a separate book of receipts to be maintained for the purpose, and the words "Document impounded" shall be recorded in *red* ink on the receipt under the Registering officer's signature.

(*3*) Before forwarding the document to the Collector, the Registering officer shall record on it—

(*i*) the endorsement "Impounded and forwarded to Collector under section 38, sub-section (*2*), of the Indian Stamp Act, 1899;"

(*ii*) the endorsement required by section 52; and

(*iii*) if the executant is present, the endorsements required by section 58.

Procedure when impounded document is returned by the Collector.

31. (*1*) When an impounded document is received back from the Collector with his certificate that it is duly stamped or is not chargeable with duty, or that the proper or deficit stamp-duty has been paid, the Registering officer shall send a notice to the presentant requesting him—

(*a*) to appear on or before a fixed date with the receipt which was given to him on presentation of the document;

(*b*) to pay the necessary fees on or before a fixed date; and

(*c*) to take steps for the registration of the document, if the admission of the execution was not recorded before proceeding under rule 30; and on his complying fully with such request, the registration shall be proceeded with.

(*2*) The said fees may be taken either from the presentant, if he appears, or from the person nominated in writing in that behalf on the receipt, and the requisite entries shall then be made in the fee-book and in the receipt.

(*3*) If the presentant, after the receipt of the notice, fails to pay the necessary fees on or before the date fixed, registration may be refused for non-payment of fees.

32. If the stamp-vendor's endorsement on a document is in a language not understood by the Registering officer, and which is not commonly used in the district, the presentant shall be required to file a translation which must be certified to be a true translation and attested by the presentant.

Procedure in other cases when document is inadmissible.

33. If any of the conditions indicated in clauses (*c*) to (*i*) of rule 23 have not been complied with, or if the presentant refuses to pay the proper registration fee, the document must be returned at once to the presentant with the endorsement "Registration refused," an entry being made at the same time in Book No. 2:

Provided that action under this rule may be deferred at the request of the parties, in order to enable them to comply with the requirements of the law; but in such cases an order of refusal shall be passed if the said requirements have not been complied with within the time allowed for presentation (sections 23 to 26).

Procedure on presentation of document in which Registering officer is personally interested.

34. (*1*) If any document in which a Registering officer is personally interested, either directly or indirectly, is presented to him for registration, or if he is asked to authenticate a Power-of-Attorney granted for the registration of any such document, he shall recommend the parties to present the document or power at some other Registration office under the provisions of section 29, section 30 or section 33, clause (*a*), as the case may be.

(*2*) If the parties, after being recommended to present such document or power at some other office, insist on the registration of the document, or the authentication of the Power-of-Attorney, by the said Registering officer, he shall register the document, or authenticate the power, as the case may be, and, if he is not himself a Registrar, shall report the facts to the Registrar to whom he is subordinate.

CHAPTER VI.

VISITS AND COMMISSIONS.

Payments to accompany applications for visits or commissions.

35. All applications for visits under section 31, proviso, section 33, sub-section (*3*), or section 38, sub-section (*2*), or for the issue of commissions under section 33, sub-section (*3*), or section 38, sub-section (*2*), must be accompanied by the amount of the fee or fees chargeable as well as the amount of travelling allowance claimable by the Registering officer or Commissioner, and shall be entered in the register (Form No. 9 in Appendix I) prescribed by rule 7. No visit shall be paid or commission issued until the said fee or fees and travelling allowance have been paid by the applicant.

Receipt for payments for visits under section 31 or section 33.

36. (*1*) When the amounts referred to in rule 35 are paid in respect of a visit under section 31, proviso, or section 33, sub-section (*3*), the Registering officer shall grant a receipt therefor in Form No. 10 in Appendix I.

(*2*) The said receipt must be returned to the Registering officer, and must be filed by him when the document in respect of which the application was made is accepted for registration or authentication, and a receipt is granted therefor under section 52, clause (*b*).

Form and endorsement of commissions.

37. Every commission shall be in Form No. 5, Appendix IV, or (if the commission is to be executed in another district) in Form No. 6 in that Appendix, and shall be endorsed on the document in respect of which it is issued.

Commissions to whom to be issued.

38. (*1*) A Registering officer shall ordinarily issue his commission to some salaried member of his establishment:

Provided that, if the person to be examined be not resident in the district from which a commission is issued, the commission shall be sent to the Registrar of the district in which such person resides, and he shall cause such person to be examined by a Sub-Registrar or by any other officer whom he may appoint for the purpose. Such other officer shall ordinarily be one of the Sub-Registrar's establishment.

(*2*) When a Registering officer sends a commission to the Registrar of another district under the proviso to sub-rule (1), he shall, at the same time, transfer the travelling allowance (if any) paid in respect of the commission, but shall credit the commission fee in his own accounts.

Procedure when person to be examined resides in another sub-district of the district.

39. (*1*) If the person to be examined is resident in another sub-district of the district from which a commission is issued, the commission shall be ordinarily sent to the Registering officer of the sub-district in which such person resides.

(2) The travelling allowance (if any) paid in respect of the commission shall be transferred at the same time to the Registering officer to whom the commission is issued, but the commission fee shall be credited in the accounts of the Registering officer issuing the commission.

Examination of Commissioner by Registering officer

40. A Registering officer may examine a Commissioner personally, in the office of the Registering officer, touching any of the circumstances connected with the discharge of his commission, and, in particular, with reference to the voluntary nature of the admission of execution of a document.

Procedure after execution of commission

41. (1) When any commission has been executed, the Commissioner shall return the document to which it relates to the office from which the commission was issued, with a report in Form No. 7 in Appendix IV endorsed on the said document.

(2) The Registering officer, on receipt of the report, shall make an endorsement below such report in Form No. 8, Appendix IV.

CHAPTER VII.

FINES TO BE IMPOSED UNDER SECTIONS 25 (1) AND 34 (1).

Scale of fines

42. (1) Fines under section 25, sub-section (1), and the proviso to sub-section (1) of section 34 of the Act shall be imposed according to the following scale :—

Period of delay.	*Amount of fine.*
(a) When the delay does not exceed seven days.	A fine equal to twice the amount of the proper registration fee.
(b) When the delay exceeds seven days, but does not exceed one month.	A fine equal to four times the amount of the proper registration fee.
(c) When the delay exceeds one month, but does not exceed four months.	A fine equal to ten times the amount of the proper registration fee.

(2) The said fines shall be inclusive of the registration fees.

Calculation of fine for delay in appearance on second and subsequent occasions

43. The fine for delay in appearance leviable under section 34 of the Act, on the second, third and subsequent occasions in respect of one and the same document shall be the difference, if any, between the total amount leviable up to the second, third and subsequent occasions and the fine or fines previously levied.

Calculation of fines when two or more copies are presented

44. When two or more copies of a document, executed by the same parties, are presented for registration at the same time, the fines imposed under section 25, sub-section (1), or under the proviso to sub-section (1), section 34, shall be calculated as for one document only, irrespective of the number of copies of the document which may be registered.

Remission of fines.

45. (1) Applications for the remission of such fines under section 70 may be filed with the Registering officer, but no such application shall be accepted until the fine has been paid.

(2) When any such application has been accepted, it shall be forwarded to the Inspector-General of Registration, with any remarks which the Registering officer may wish to make.

CHAPTER VIII.

PROCEDURE ON ACCEPTANCE OF DOCUMENTS FOR REGISTRATION.

Endorsement of certificate of admissibility.

46. If the requirements of the law have been complied with in respect of all the particulars indicated in rule 23, a certificate of admissibility in Form No. 1, Appendix IV, shall be endorsed on the face of the document, and shall be signed and dated by the Registering officer.

Documents on more than one sheet of paper.

47. When a document occupies more than one sheet of paper, the seal and signature of the Registering officer shall be attached to every sheet at the time of presentation.

Receipt of fee and fine.

48. (1) After endorsing on a document the certificate of admissibility referred to in rule 46, the Registering officer shall receive the registration fee and fine (if any) payable under section 25, sub-section (1), and shall enter the respective amounts thereof on the document close to the said certificate, and at the same time the requisite entry shall be made in the fee-book.

(2) The amounts of the fee and fine (if any) paid shall be respectively endorsed on the receipt given under section 52, clause (b), in Form No. 8, Appendix I.

Endorsements how to be made.

49. *(1)* The endorsements required by sections 52 and 58 shall be written in Form No. 2 or Form No. 3 in Appendix IV, as the case may be.

(2) All endorsements, whether made under section 52 or section 58 or otherwise, shall be made in *red* ink, except that signatures thereto shall be made in *black* ink.

(3) Every endorsement made by a Registering officer shall be written in his own handwriting, unless he has been specially authorized by the Inspector-General of Registration to use endorsement stamps.

Identification of executants.

50. *(1)* When the Registering officer is not personally acquainted with the executants of a document presented for registration, he shall require them to furnish the best testimony obtainable to establish their identity, such as that of persons known to the Registering officer or that of persons of apparent respectability, for instance, zamindars, Court officials or pleaders.

(2) The Registering officer shall satisfy himself that the identifier is really acquainted with the person or persons whom he proposes to identify, and the identifier shall be asked to state the name of the person to be identified, and also whether such person is really the person who he professes to be.

Signature of illiterate person.

51. When a person who cannot write signs his name by means of a mark or by touching the pen, his name shall be recorded at length and the writer of the name shall also sign his own name in attestation that the mark was affixed or the pen touched in his presence.

Thumb impressions.

52. *(1)* When the executant of a document—

(i) is unable to write, or

(ii) is not personally known to the Registering officer,

he shall, in addition to signing his name (in the manner indicated in rule 51 if he is unable to write), imprint the mark of his left thumb on the document to be registered and also in a book of thumb impressions kept in Form No. 4, Appendix I:

Provided that, if the left thumb of the executant be defective or injured, the right thumb or any other digit may be used, but, in that case or in the case of an executant suffering from small-pox, leprosy or other contagious disease, a note of the fact must be made in the room reserved for impression in the book, and also on the document, mentioning the particular digit used, or explaining why, in the case of contagious disease, no impression could be taken.

(2) The said mark shall be made by a slightly rolled impression of the executant's left thumb (or other digit, as the case may be) taken in printer's ink off a flat piece of tin properly prepared for the purpose.

(3) Against each impression in the book of thumb-impressions the name of the party, the number of the document in Register-Book No. 1, 3 or 4, as the case may be, the date and the name of the officer taking the impressions shall be entered and signed.

(4) Notwithstanding anything hereinbefore contained, a Registering officer may, in his discretion, dispense with the taking of impressions in the case of European ladies and gentlemen and other persons of position, regarding whose identification there can be no doubt or room for suspicion, even if the executant is not personally known to him.

(5) In the case of *pardanashin* ladies, no exemption shall be allowed, and they must in all cases be required to affix thumb (or other digit) impressions either before the Registering officer or in the presence of the person who identifies them.

Thumb impressions.

53. Subject to the provisions of Rule 52 (5) thumb impressions of executants shall be taken in the presence of the Registering officer. They shall be taken in the printed form of book prescribed for this purpose and on one side of the paper only. The serial number of the thumb impression taken in the book shall be quoted against the impression on the back of the deed. A separate book for thumb impressions shall be kept for cases of commission.

Postponement of refusal to register.

54. Before refusing, under section 35, sub-section *(3)*, to register any document, the Registering officer may, at the request of the parties, postpone action in order to enable them to comply with the requirements of the law; but no such postponement shall last more than the period of four months prescribed by the proviso to section 34.

Representatives' denial of execution by some of them.

55. Where some of the representatives of a deceased executant deny execution while others admit it, registration of the document shall be altogether refused, subject to the provisions of section 73 of the Registration Act.

Procedure on failure of the executant to appear within four months from execution of document.

56. (*1*) When a document has been presented to a Sub-Registrar for registration within the period prescribed by section 23, namely, four months from the date of execution, and the executant fails to appear to admit execution within the period, the Sub-Registrar must, immediately after the expiration of the said period, record a formal refusal to register, leaving it to the parties to appeal to the Registrar under section 72 within 30 days, if they think proper:

Provided that the Sub-Registrar shall not record such an order if the person presenting the document has, before the expiration of the said period, initiated proceedings under section 36 to procure the appearance of the executant; but in that case he shall report the matter to the Registrar for orders at the end of the said period.

(*2*) In the case of an appeal under section 72, mentioned in sub-rule (*1*), the Registrar shall not pass an order directing the Sub-Registrar to register the document, unless it is shown, on the appearance of the executant before the Registrar, that his non-appearance before the Sub-Registrar, within the period prescribed by section 23, was due to urgent necessity or unavoidable accident. If the Registrar passes such an order, a fine shall be imposed as provided in the proviso to section 34, sub-section (*1*).

(*3*) In the case referred to in the proviso to sub-rule (*1*)—

(*a*) The Registrar shall, on receipt of the Sub-Registrar's report, direct the document to be kept pending the disposal of the proceedings initiated under section 36, but not for a period exceeding eight months from the date of execution. If the executant refuses or neglects to appear on the legal service of the summons, the Sub-Registrar shall refuse, under section 35, to register the document.

(*b*) If the executant appears on the service of the summons and admits execution, his admission shall be recorded and he shall be called upon to submit an application to the Registrar for a direction under the proviso to sub-section (*1*) of section 34 of the Act, explaining the cause of the delay in his appearance. When such an application is received, the Sub-Registrar shall forward it to the Registrar with any remarks he may wish to make and await orders.

(*c*) The Registrar shall consider the cause shown for the delay in appearance of the executant and may pass an order directing the Sub-Registrar to register the document, on payment of a fine as provided in section 34, sub-section (*1*).

(*d*) If the Registrar is unable to accept the cause shown for the delay, he shall direct the Sub-Registrar to refuse to register the document.

(*e*) If the executant refuses or is unable to show cause for the delay, the Sub-Registrar shall also report the case to the Registrar for orders.

(*f*) The Registrar shall in such cases direct the Sub-Registrar to refuse to register the document.

(*g*) The Sub-Registrar, on receipt of the Registrar's order, under paragraphs (*d*) and (*f*), shall record an order of refusal under section 34 for non-appearance of the executant within the period of four months from the date of execution.

Procedure on failure of the executant to appear after payment of a fine under section 25 within eight months from execution of document.

57. (*1*) If the time for accepting a document for registration has been extended under section 25, and the executant fails to appear to admit execution within the period of eight months from the date of its execution, the Sub-Registrar must, immediately after the expiration of the said period, record a formal refusal to register, leaving it to the parties to appeal to the Registrar under section 72 within thirty days, if they think proper:

Provided that the Sub-Registrar shall not record such an order if the person presenting the document has, before the expiration of the said period, initiated proceedings under section 36 to procure the appearance of the executant; but in that case he shall report the matter for the orders of the Registrar on the expiration of the said period.

(2) In the case of an appeal under section 72, mentioned in sub-rule (1), the Registrar shall not pass an order directing the Sub-Registrar to register the document, unless it is shown, on the appearance of the executant before the Registrar, that his non-appearance before the Sub-Registrar within the period extended under section 25 was due to urgent necessity or unavoidable accident. If the Registrar passes such an order, a fine shall be imposed as provided in the proviso to section 34, sub-section (1), in addition to the fine already imposed under section 25, sub-section (1).

(3) In the case referred to in the proviso to sub-rule (1)—

(a) the Registrar shall, on receipt of the Sub-Registrar's report, direct the document to be kept pending the disposal of the proceedings initiated under section 36, but not for a period exceeding twelve months from the date of execution. If the executant refuses or neglects to appear on the legal service of the summons, the Sub-Registrar shall refuse, under section 35, to register the document.

(b) If the executant appears on the service of the summons and admits execution, his admission shall be recorded and he shall be called upon to submit an application to the Registrar for a direction under the proviso to sub-section (1) of section 34 of the Act, explaining the cause of the delay in his appearance. When such an application is received, the Sub-Registrar shall forward it to the Registrar with any remarks he may wish to make and await orders.

(c) The Registrar, after considering the cause shown for the delay in appearance of the executant, may pass an order directing the Sub-Registrar to register the document, on payment of a fine as provided in section 34, sub-section (1), in addition to the fine already imposed under section 25, sub-section (1).

(d) If the Registrar is unable to accept the cause shown for the delay, he shall direct the Sub-Registrar to refuse to register the document.

(e) If the executant refuses or is unable to show cause for the delay, the Sub-Registrar shall also report the case to the Registrar for orders.

(f) The Registrar shall in such cases direct the Sub-Registrar to refuse to register the document.

(g) The Sub-Registrar, on receipt of the Registrar's order, under paragraphs (d) and (f), shall record an order of refusal under section 34 for non-appearance of the executant within the period of eight months from the date of execution.

Wilful refusal or neglect to attend and admit execution.

58. A Registering officer shall record his refusal to register the document under section 35 as soon as he is satisfied that the summons has been served according to law and the executant has refused or neglected to appear on the appointed date.

Registration of documents executed by several persons.

59. In the case of a document executed by several persons, who all appear before the Registering officer, if any of the executants deny execution, the deed shall be refused registration in respect of him and registered in respect of those who admit. If some of the executants appear and admit execution and others do not appear, though processes have been served upon them according to law, the document shall be registered in respect of those who admit, and registration shall be refused as regards others. If some of the executants appear and others do not appear, and no steps are taken to procure their appearance, the registration of the document shall be wholly refused.

Applications of rule 53 to documents executed out of British India.

60. (1) The procedure prescribed by rule 56 shall apply also in the case of documents referred to in section 26, with this exception only, that the period of four months referred to in that rule and any extended period allowed under the proviso to sub-section (1) of section 34 must be reckoned from the date of the arrival of such documents in British India, and not from the date of their execution.

(2) Such documents shall not, under any circumstances, be admitted to registration more than eight months from the date of their arrival in British India.

Who to register when Registrar decides that a document should be registered more than four months after its execution.

61. (*1*) When a document is presented for registration, or the execution thereof is admitted, more than four months after execution, and the Registrar decides that the document should be admitted to registration, he may either—

(*a*) register the document himself, in which case the extra fee prescribed in article H of the Table of Fees, as well as the penalty imposed under section 25 or the proviso to sub-section (*1*) of section 34, as the case may be, shall be levied; or

(*b*) direct the registration of the document, on payment of the said penalty, by any Sub-Registrar in whose office it could have been registered if presented within the said period of four months.

(*2*) In such cases the date on which application was made to the Registrar for his decision shall be regarded as the date of presentation.

Record of reasons for refusal to register.

62. (*1*) When a Registering officer records, under section 71 or section 76, his reasons for refusing to register a document the record must be made in Book No. 2 with his own hand, and must state the reasons fully and clearly.

(*2*) If the reasons include the fact that one out of several executants declines to comply with the requirements of the law, his name must be given; and if the Registering officer is doubtful as to the identity of a party admitting execution, the grounds of his doubt must be stated.

CHAPTER IX.

ADMINISTRATION AND RECORD OF OATHS.

Oath when to be administered.

63. The discretion reposed in the Registering officer by section 63 to administer an oath shall not be exercised unless he doubts the truth of any verbal statement made to him.

NOTE.—By virtue of section 3 (*36*) of the General Clauses Act, 1897, "Oath" includes affirmation and declaration in the case of persons by law allowed to affirm or declare instead of swearing. As to who may affirm, see section 6 of the Indian Oaths Act, 1873.

Form of oath or affirmation.

64. An oath or affirmation administered by a Registering officer under the provisions of section 63 shall be administered according to the form of oath or affirmation prescribed by the High Court of Judicature at Fort William in Bengal for witnesses under section 7 of the Indian Oaths Act, 1873 (X of 1873), and reproduced in Appendix II.

Oaths to be recorded separately.

65. Statements made on oath shall not be recorded on the document to which they relate, but shall be recorded by the Registering officer in his own hand on a separate piece of paper, and a note to the effect that the statements have been so recorded shall be endorsed on the document itself.

CHAPTER X.

PROCEDURE ON THE ADMISSION OF A DOCUMENT TO REGISTRATION.

Document to be copied after admission of execution.

66. When all the persons executing a document, or their representatives, assigns or agents, have appeared and admitted its execution, the document shall be copied into the appropriate book.

Procedure of registration of documents presented in duplicate, triplicate, etc., copies.

67. When two or more copies of the same document are admitted to registration at the same time, each copy shall be separately numbered in the Fee and Register-books. All endorsements shall be written upon each copy, but it shall not be necessary to copy the document more than once in the register-book. So far as the duplicate or triplicate or other copies are concerned, only the endorsements (including the stamp-vendor's endorsement) on them shall be copied. A note shall, at the same time, be made in the central portion reserved for copy of document in the book, that the serial numbers refer to the duplicate, triplicate, or other copy of the deed copied *in extenso*.

Copies of maps or plans referred to in section 21, sub-section (*4*).

68. The copies of maps or plans which are required by section 21, sub-section (*4*), to accompany documents must be attested as true copies by the signatures of the persons executing such documents, or by the signatures of their agents; and the original maps or plans contained in the documents must, at the time of registration, be signed and sealed by the Registering officer.

Copies of maps or plans contained in a document brought for re-registration.

69. When a document containing a map or plan is presented for re-registration under section 24, the parties need not deposit fresh copies of the map or plan under section 21, sub-section (*4*); but the Registering officer shall certify against the copy of the document made in the register-book on re-registration that the map or plan attached to it is the same as the copy of the map or plan which was filed with the document on its first presentation.

Procedure of re-registration of documents.

70. A document tendered for re-registration shall be treated in all respects as if it was a new document. It shall be recopied in its altered form and full fees levied. If there be insufficient room on the back of the document for the new set of endorsements required, they shall be written or continued on a separate piece of paper as provided in rule 77 ; only the endorsements, including the certificate of admissibility under rule 46 on each registration, shall be copied on the left-hand margin of the book. previous endorsements already made in the document being copied in the body of the copy in the order as they appear on the original deed.

Translations and copies

71. (*1*) The translations and copies of documents required by sections 19 and 62 shall be made upon machine-made medium paper, which may be sold to the public for this purpose by Registering officers at half-an-anna per sheet.

(*2*) Such translations and copies shall be kept in a separate file, a reference being made to the said file, on the right-hand margin of the page on which the translation is copied in the book.

(*3*) The said file shall be bound from time to time when it contains a sufficient number of translations and copies to form a volume.

(*4*) When translations are made, the endorsements referred to in rules 46 and 49, sub-rule (*1*), and section 60, and the entry referred to in rule 48, sub-rule (*1*), shall be copied on the left-hand margin of the page of the Register-book into which the translations are copied.

Copyist and comparer to sign their names in registers.

72. (*1*) The copy of every document in a register-book shall be compared with the original by some person other than the copyist, and the copyist and comparer shall append their signatures in full, with the date below each signature, to the copy in the book, using, respectively, the words "Copied by" and "Compared by;" and the reader and the Sub-Registrar shall likewise put their signatures in the copy with the date.

(*2*) The copyist, reader and comparer of the endorsements shall also be required to sign and date in the left-hand margin ;

Reading and comparing to be done independently of the copyist, if possible.

(*3*) Whenever the staff is sufficient the reading and comparing shall be done independently of the copyist, and the latter shall neither read nor compare what he has copied.

Interlineations, blanks, erasures, alterations and corrections.

73. Interlineations, blanks, erasures and alterations in a document must not be copied as such, but must be noted by the Registering officer as required by section 20, sub-section (*2*), although they may have been incorporated in a duly attested note or *kaifiyat* on the document itself.

Procedure when document is copied in a wrong book.

74. (*1*) When a document is erroneously copied into a wrong book, the register copy of the certificate and endorsements already made on the document shall not be cancelled, but the Registrar may direct, under section 68 of the Act, that a copy of the document with the certificate and endorsements thereon shall be made in the appropriate book without additional charge. A document so copied shall be given the number assigned to the last previous document in the book to which it is transferred with the letter " S " attached.

(*2*) In the circumstances described in sub-rule (*1*), a certificate under section 60 or a final certificate, in the following form, shall be given, if possible, on the left-hand margin of the book in which the document is recopied on the document below the former certificate :—

" Registered again under the orders of the Registrar of
No. , dated 19 , as document No. S. in Book No. .
volume , pages ."

(Seal.)

Signature of the Registering officer

(3) A cross-reference shall, in such a case, also be made on the right-hand margin of the original entry of registration in the wrong book in respect of the copy in the appropriate register.

(4) If the error in copying is discovered after the document has been returned after registration, the same procedure shall be followed, a note being made, in the margin of the copy in the wrong book, of the volume and the page of the appropriate book into which the contents are recopied.

(5) In both of the cases referred to in sub-rules (1) and (4) fresh entries must be made in the appropriate indexes, without cancelling the original entries made in those indexes.

Procedure of correct registration of a document registered in a wrong office in contravention of section 28.

75. (1) When a document relating to immoveable property is registered through inadvertence in contravention of section 28 of the Act, the Registering officer shall instruct the executant of the deed and the claimant thereunder to obtain a direction under section 68 for its re-registration from the Registrar of the district in whose jurisdiction the proper office is situate.

(2) When such direction is received, the Registering officer concerned shall register the document without levy of any fee, and shall refer to the order of the Registrar in the endorsement of presentation.

(3) The Registering officer in whose office the document was originally registered shall follow the procedure prescribed by sections 64 to 66 of the Act and shall forward to the proper office, free of charge, a copy or a memorandum of the document. The receiving officer shall file the copy or memorandum in his file-book No. 1.

Form of final endorsement of registration.

76. When a document has been copied into a book and compared the Registering officer shall make in Form No. 4 in Appendix IV the endorsement thereon required by section 60.

Making endorsements on separate paper.

77. (1) When there is not room on a document for the necessary endorsements, they shall be made on a separate quarter sheet of machine-made medium paper, which shall be supplied by the Registering officer and shall be attached to the document, an explanatory note being at the same time made on the document itself and signed by the Registering officer.

(2) Every piece of paper so added must bear the seal of the Registering officer and must be signed and dated by him.

Printed or lithographed forms for documents in a common form

78. (1) Any person having occasion to register any considerable number of documents in the same form, such as leases, agreements or bonds, may deposit in any Registration office any number, not less than fifty, of printed or lithographed forms of such documents.

(2) Such forms must be printed or lithographed lengthways on machine-made paper of medium size. Blank spaces must be left in the body and at the foot of the form for filling in names, amounts of money, areas, boundaries, and any other required particulars. A margin must be left, of one inch, on the left-hand side for binding. No margin shall be necessary for copying endorsements, as in the case of other registers; but the forms must contain a blank space, of not less than one side of a half sheet of the paper, on which the endorsements are to be copied.

(3) Before use such forms must be bound into volumes and paged in the Registration office and a certificate as to the number of pages contained in a volume must be written on it and signed by the Registering officer. One volume shall be kept for each depositor, and his name shall be noted outside. The volumes shall be numbered and shall be treated in all other respects as volumes of Register-book No. 1 or Register-book No. 4, as the case may be.

(4) On the presentation of a document which is an exact duplicate of any form deposited and is executed by, or in favour of, any one of the depositors, it shall be copied into the volume appropriated to that depositor's forms, that is to say, the blank spaces in the form previously deposited shall be filled up so as to make it an exact copy of such document.

(5) Priority must be given to the registration of documents presented under this rule, and every endeavour must be made to return the document to the presentants thereof before they leave the office.

Supplementary document.

79. When owing to an error or omission in any document which has been registered a supplementary document rectifying such error or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered, in the form "This document has been rectified by document No. of 19 , volume , pages ."

80. (*1*) Documents must be promptly returned, after registration, to the presentants or other persons authorized to receive them, and the receipts returned by the parties must be pasted on to their respective counterfoils.

Prompt return of documents after registration.

(*2*) When receipts are granted under section 52, clause (*b*), to the presentants, they must be informed by the Registering officer of the probable date on which their documents will be ready for return.

(*3*) The said date must be noted on the receipts, and every endeavour must be made to return the documents on such date.

CHAPTER XI.

MEMORANDA AND COPIES OF DOCUMENTS.

81. (*1*) The memoranda required by sections 64 to 67 shall be prepared in Form No. 6 in Appendix I.

Preparation of memoranda and copies of documents.

(*2*) The copies referred to in sections 65 to 67 shall be made on paper of the same size and description as that used for Register-books Nos. 1, 3 and 4.

82. (*1*) When the memoranda required by section 65, 66 or 67 are to be sent by a Registering officer to a sub-district in another district —

Memoranda and copies for other districts.

(*a*) they shall be enclosed to the Registrar of that district, together with the copy required for his own office; and

(*b*) they need not mention any property other than that which is situated in the sub-district to which they are to be sent.

(*2*) When a copy of a document is sent to the Registrar of another district under section 65, 66 or 67, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated under section 7, sub-section (*2*), with that of the Registrar of such district.

(*3*) Where there are joint offices copy of order, certificate and instrument required to be sent under section 89 and copies and memoranda under sections 64 to 67 shall be forwarded to such joint office as the Registrar may direct.

83. When a copy of a Bengali, Urdu or Hindi document is forwarded under section 65 to a Registrar in another province, it shall be accompanied by information, in English, respecting the names and additions of all persons executing and claiming under the document, and by a description (sufficient for its identification) of the property situated in such Registrar's district.

Copies of Bengali, Urdu or Hindi documents for other provinces.

84. The date on which any memorandum or copy of a document is despatched shall be entered on the right-hand margin of the book in which the document has been copied, and the entry shall be initialled by the Registering officer.

Entry of date of despatch of memoranda and copies.

85. (*1*) When a memorandum or a copy of a document is sent under section 64, 65, 66 or 67 from one office to another, it shall be accompanied by a receipt in Form No. 12 in Appendix I, which shall, immediately on receipt, be signed and returned by the receiving officer.

Receipts for memoranda and copies.

(2) If delay occurs in the return of any receipt, the despatching officer shall send a reminder for it, after a reasonable period, making a note of the fact in the column of remarks of the book of copies and memoranda.

(*3*) All such receipts, when returned, shall be filed separately.

(*4*) When a document is registered in duplicate or triplicate, no memorandum or copy shall be forwarded under sections 64 to 67 in respect of the duplicate or triplicate, but the number of copies registered with the original shall be noted in *red* ink in the last column of the memorandum prepared from the original.

CHAPTER XII.

INDEXES.

86. (*1*) The Indexes Nos. I, II, III and IV, prescribed by section 55, shall, respectively, be prepared in Forms Nos. 13, 14, 15 and 16 in Appendix I.

Forms of Indexes Nos. I, II, III and IV.

(*2*) The page of each index shall be numbered serially as soon as it is completed.

Indexes to be kept in English.

87. *(1)* Each of the said indexes shall be kept in the English language.

Entries to be made in alphabetical order.

(2) All entries in the said indexes must be made in alphabetical order.

(3) Names of persons or places must be indexed according to the first vowel of the word when it begins with a consonant and according to the second vowel when it begins with a vowel.

Spelling

88. *(1)* If the documents to be indexed are written or executed in the English language, the names of persons and places shall be spelt in the index in the same way in which they are written in the documents.

(2) If the documents are written or executed in a vernacular language, the names of persons and places shall be spelt in the index according to Sir W. W. Hunter's system of transliteration.

Indexing of names.

89. *(1)* In the case of European names, the surname shall be taken as the index word

(2) Indian names shall be indexed according to their first letters as they stand in the document, except that appellations, such as *Saiyed*, *Shaik*, *etc.*, if appearing at the beginning of the name, shall be shown in the index at the end of the name, and shall be transliterated in the same form as that in which they are written in the document.

Indexing of names of persons for whom executants are representatives or guardians.

90. When a document is executed by the representative or guardian of another person, the name of such other person, as well as that of the representative or guardian, shall be indexed.

Different coloured inks for certain names in Index No. III

91. *(1)* The name of the depositor of a sealed cover shall be entered in Index No. III in *black* ink.

(2) The name and addition of persons claiming under a will or authority to adopt, which, as prescribed by section 55, sub-section *(4)*, are not to be indexed unless the testator or donor is dead, shall be entered therein in *red* ink.

Separate entry of each executant or claimant of property.

92. *(1)* When there are two or more executants of or claimants under a document, their names shall be separately entered in Index No. I, III or IV, as the case may be, *e.g.*, when there are three executants A, B and C, there will be three entries, viz., "A and two others," "B and two others" and "C and two others."

(2) When two or more properties are conveyed by a single document, they shall be separately entered in Index No. II, *e.g.*, when there are three mauzas A, B and C there will be three entries, viz., "A and two others" "B and two others" and "C and two others":

Provided that no Sub-Registrar need enter in his Index No. II any property which does not lie in his own sub-district, except in the case of registration under section 30, sub-section *(1)*, in which case, although the property may be situate in a different jurisdiction, index entries shall be made under section 54.

(3) In indexing the name of an executant or claimant known by an *alias* as well as by the real name, index entries shall be made both of the real name and of the *alias* each under its proper alphabetical order.

Indexing of copies, memoranda and sale certificates

93. *(1)* Copies and memoranda of documents and the copies of sale-certificates and instruments and orders which are referred to in rule 6 shall be indexed in the same way as original documents, but the entries relating to them shall be made in *red* ink.

(2) In Index No. I the names of the decree-holder, auction purchaser and judgment-debtor shall be indexed from sale-certificates, and the names of the parties shall be indexed from memoranda.

Binding of indexes and copies for use in Sub-Registrars offices

94. In all Sub-Registrars' offices the original Indexes Nos. I, II and III shall be made, for office use, in bound volumes, a copy being sent to the Registrar's office under rule 10.

CHAPTER XIII.

SPECIAL PROVISIONS AS TO POWERS-OF-ATTORNEY.

Recognition and authentication of Power-of-Attorney.

95. *(1)* A Power-of-Attorney shall not be recognized as authorizing an agent to act on behalf of a principal under the Act unless it contains an express or implied authority in that behalf.

(2) Powers-of-Attorney which do not contain or imply an authority to appear in a Registration office to present documents for registration (section 32) or to admit the execution of documents (section 34) shall not be authenticated under section 33, clause (a).

Note to be made of interlineations, etc.

96. (1) All interlineations, blanks, erasures and alterations in Powers-of-Attorney authenticated by a Registering officer under section 33, clause (a), must at the time of authentication be detailed in a footnote signed by the Registering officer.

(2) When there are no interlineations, blanks, erasures or alterations in such a Power-of-Attorney, the fact must be mentioned in a footnote signed by the Registering officer.

(3) The said footnotes must be copied in every case into the book of Powers-of-Attorney kept in Form No 17 in Appendix I.

Authentication of Powers of Attorney

97. The authentication of Powers-of-Attorney shall be made—

(i) in Form No. 9 (a) in Appendix IV when the principal executing the power appears at the Registration office;

(ii) in Form No. 9 (b) in Appendix IV when the principal being exempted from appearance, the Registering officer examines the principal on a visit under section 33, sub-section (3); and

(iii) in Form No. 8 in Appendix IV when the principal is examined on commission.

Translation of Power of-Attorney to be filed in certain cases.

98. The presentant of a Power-of-Attorney which is presented for attestation, or of an attested Power-of-Attorney produced by him as agent with, or in connection with, a document presented for registration, shall, if the Power-of-Attorney is written or authenticated, or both written and authenticated, in a language not commonly used in the district, be required to file a translation in English of the Power-of-Attorney or the endorsement of authentication or of the Power-of-Attorney with its authentication, as the case may be, such translation being certified to be true translation and attested by the presentant.

Endorsement when a special Power of-Attorney is used.

99. (1) Whenever a special Power-of-Attorney is used in a Registration office for the purposes of section 32 or section 34, an endorsement shall be made upon it in Form No. 10 in Appendix IV, and it shall be returned forthwith to the party by whom it was presented.

(2) In the case of general Powers-of-Attorney no such endorsement shall be required, and they shall be returned, after inspection, to the parties by whom they were presented.

CHAPTER XIV.

PROCEDURE WITH REGARD TO WILLS.

Deposit of wills.

100. (1) A will shall not be received for deposit otherwise than is prescribed by section 42, and any will received through the Post office shall be returned to the sender in an unstamped envelope.

(2) The headings in Form No. 8 in Appendix I shall, as far as practicable, be filled up in the receipt granted under section 52, clause (b). For any will deposited under section 42 a note shall be entered on the receipt stating that the will is received for deposit under section 42.

(3) The Registrar shall explain to every person depositing a will that no steps will be taken by the Government to ascertain the date of the testator's death or to communicate with the beneficiaries after his death.

Entries in Book No. 5.

101. Every entry made in Register-book No. 5 under the provisions of section 43 shall be signed in full and dated by the Registrar.

Withdrawal of sealed cover containing will.

102. When a sealed cover containing a will is withdrawn under section 44, the fact shall be noted in Register-book No. 5 and the entry shall be signed by the person by whom the cover is withdrawn as well as by the Registrar, and the receipt referred to in rule 100 (2) shall be returned by such person and filed in the Registrar's office.

Opening of sealed cover containing will

103. (*1*) When a sealed cover containing a will is opened under section 45, the fact shall be noted in Register-book No. 5 and the note shall be signed by the Registrar.

(*2*) If a cover is opened under an order of a Civil Court, the fact shall be mentioned in the said note.

Documents to accompany wills forwarded to a Court.

104. When a will is forwarded to any Court under section 46, it shall be accompanied by—

(*a*) a memorandum of the fee for opening the cover and the charges (if any) for copying the will into Register-book No. 3; and

(*b*) a letter requesting such Court to levy such fee and charges and to remit them to the Registrar by whom the will is forwarded.

Monthly examination of sealed covers containing wills

105. Sealed covers containing wills deposited with a Registrar under section 42 shall be examined monthly, and their condition on such examination shall be noted in such manner as the Inspector-General of Registration may direct.

Revocation of will and authority to adopt shall be registered in Book No. 3.

106. A revocation or cancellation of a will or an authority to adopt shall be registered in Register-book No. 3.

Wills registered or refused shall not be destroyed but forwarded to Sadar office for safe custody

107. Wills registered or refused registration in a Sub-Registry office which remain unclaimed for a period exceeding two years, shall be forwarded to the Registrar's office for safe custody, a note to that effect being entered against the original entry in the fee-book. All documents so transferred shall be entered in the register (Form No. 5 in Appendix I) prescribed by rule 8.

CHAPTER XV

SUMMONSES.

Summonses under section 75 sub-section (4)

108. Summonses under section 75, sub-section (*4*), shall be issued direct by the Registrar, who shall follow the procedure prescribed in the orders V and XVI in the first schedule to the Code of Civil Procedure, 1908, so far as it is applicable.

Application for summonses under section 37

109. (*1*) Every application to a Registering officer to procure the issue of a summons under section 37 must be accompanied by the sum required for the payment of the expenses of the person whose appearance is desired, and the peon's fee as fixed by the rules governing the officer or Court who is to issue the summons.

(*2*) When calling upon such officer or Court to issue a summons the Registering officer shall forward a draft summons, in duplicate, for the signature of such officer or Court, together with the sum received under sub-rule (*1*).

Summonses when to be accompanied by translations

110. Whenever any summons referred to in this part is to be served in an area in which is spoken a vernacular different from that spoken in the area in which the summons is issued, the summons must be accompanied by a translation in English.

Attendance on summons issued under section 37.

111. (*1*) If a summons issued under section 37 be addressed to a person, who is alleged to be the executant of a document, it shall require him to attend either in person or by a duly authorized agent.

(*2*) If such a summons be addressed to a person whose evidence is required to prove any other fact, it shall require him to attend in person.

112. (*1*) If any person upon whom a summons issued under section 37 has been duly served fails to appear, or if any summons issued under that section cannot be served, the Registering officer may (if he is a Sub-Registrar, with the previous sanction of the Registrar) request the officer or Court who issued the summons to take such further action, under the law for the time being in force, as the Registering officer may consider necessary for securing the attendance of such person.

Procedure in case of non-appearance on such summons.

(*2*) Every such requisition must be accompanied by the proper fee.

CHAPTER XVI.

SUPPLY OF INFORMATION FROM BOOKS OR COPIES OF DOCUMENTS.

113. (*1*) An application to make a search in any book in a Registration office, or to obtain a copy of a document recorded in such an office, or to carry out both these objects, shall be made in writing, and the Registering officer shall record his order thereon. If the application is granted the prescribed fees shall be paid, and a receipt for the fees paid shall be granted in the form (No. 19, Appendix I) prescribed by rule 7.

Applications for searches and copies.

(*2*) All such applications shall be preserved in a separate file and entered in the register (Form No. 18, Appendix I) prescribed by rule 7.

(*3*) Applications made through Sub-Registrars for copies from books deposited in the Registrar's office shall be made in writing and shall be transmitted without delay to the Registrar for necessary action.

(*4*) When an application for a copy is forwarded to the Registrar under sub-rule (*3*), the necessary copying fee or an acknowledgment of its receipt shall accompany it.

(*5*) Registrars shall permit searches of, and shall grant copies of entries in, books kept previous to the first day of January 1909 in the same manner as in the case of books kept under the Act.

114. (*1*) A call for information from any Court or Revenue officer must, if it necessitates a search in the books or the preparation of a copy of any document by officials of the Registration office, be accompanied by the fee prescribed for these purposes.

Information required by officials.

(*2*) Officers of the Government may make searches in indexes and inspect register-books for *bonâ fide* public purposes, subject to the restrictions contained in section 57 as to the persons by whom certain searches may be made.

115. If the production of a register-book in any Court is required, it shall be so produced by an officer of the Registration establishment deputed for that purpose.

Production of register in Court.

CHAPTER XVII.

SEALS.

116. (*1*) The seals prescribed by section 15 shall remain in the personal custody of the Registering officers for whose use they are respectively provided.

Custody and destruction of seals.

(*2*) Seals which have become unfit for use and are replaced by new ones and the seals of offices which have been permanently closed shall be destroyed in the presence of the District Sub-Registrar, who shall make a note of the destruction in the stock-book of furniture kept in Form No. 24 in Appendix I.

117. Should a Registering officer find himself temporarily unprovided with the prescribed seal, registration shall nevertheless proceed as usual, and such documents as have been transcribed shall remain in his custody until the seal can be affixed to the registration certificate.

Procedure to meet difficulties for temporary non-receipt of seals.

CHAPTER XVIII.

OFFICE PROCEDURE.

Hours of presentation of documents.

118. In district head-quarters offices documents shall ordinarily be accepted for registration on all days of the week from 11 A.M. to 2 P.M., and in Sub-Registry offices, including joint offices at Sadar stations, from 11 A.M. to 3 P.M. The hours during which documents may be so presented shall be made known to the public by a notice in some conspicuous place in the Registration office.

Daily notice of completion of documents.

119. The serial number of the last document completed and ready for return shall be daily exhibited in Form No. 20 in Appendix I in some conspicuous place outside every Registration office.

Receipt and return of documents.

120. Registering officers shall t receive documents which are tendered for registration, and when they are registered, shall return them with their own hands.

Comparison of books with catalogue.

121. Wherever there is a permanent change in the charge of a Registration office, the officer receiving the charge shall compare the books in the office with the catalogue kept up in Form No. 21 in Appendix I, and shall note on the catalogue whether or not he finds the books to be complete.

Fees to be entered in the fee and cash books and paid into treasury promptly.

122. (1) All fees, including fines realized, shall be entered in the fee-book. All cash, including fees, fines and travelling allowance, shall be entered in the cash-book. Except travelling allowance, all fees and fines shall be paid, without unnecessary delay, into the nearest treasury or sub-treasury. Registering officers shall be held personally responsible for the safe custody of the fees until they are paid into the treasury or sub-treasury, as the case may be.

(2) The fees shall be remitted daily to the treasury or sub-treasury from the District and Subdivisional Offices by means of chalans.

(3) The fees from other offices shall be remitted to the treasury or sub-treasury by money-order, addressed to the District Registrar, every week, or at such shorter intervals as the Registrar may direct. The details of the fees remitted shall be carefully given in the money-order coupons.

Holidays.

123 The holidays to be observed in Registration offices shall be those specified in paragraphs 2 and 7 of the Government Resolution No. 1624 T.- F., dated the 31st October 1901, which are reproduced in Appendix III.

HOLIDAYS.

(See Rule 129.)

Paragraphs 2 and 7 of Government Resolution No. 1624T.—F., dated the 31st October 1901.

2. The holidays given in public offices are divided by the Government of India into four classes:—

(*i*) Those prescribed by section 25 of the Negotiable Instruments Act, 1881 (XXVI of 1881).

(*ii*) Those declared by the local Government by notification under section 25 of the Negotiable Instruments Act to be public holidays

(*iii*) Holidays announced by the local Government to take effect in Government offices, either in respect of all classes of Government servants or in respect of the class who observe the fast or festival on account of which the holiday is announced.

(*iv*) Local holidays not announced by the local Government, but given at the discretion of the district authorities on the occasion of a local fair or festival or for some other reason.

7. With regard to local holidays given at the discretion of the district authorities and included in class (iv) separate orders will be issued hereafter. Apart, however, from the holidays which may be allowed under those orders, and irrespective of any limit which may be fixed to their number, the head of any office may, subject to the control of his superior officers, give a holiday to his subordinates on the last Saturday of the month, provided that the state of the work admits of it This holiday on the last Saturday of the month, and the holidays given on account of local festivals, should be allowed to all establishments, subject to the condition laid down in the case of public holidays under the Negotiable Instruments Act.

No. 2883P.D.—The 15th September 1916.—In exercise of the powers conferred by sub-sections (1) and (2) of section 4 of the Defence of India (Criminal Law Amendment) Act, 1915 (IV of 1915), the Governor in Council is pleased to appoint the following persons to be Commissioners for the trial, under the said Act, of Sisir Kumar Roy, son of Sarat Chandra Roy, who is charged with the offences specified in this Government Order No. 2884P.D., dated the 15th September 1916, namely :—

(1) Mr. M. Smither, I.C.S.,

(2) Diwan Bahadur Hari Nath Ray, and

(3) the Hon'ble Mr. Provash Chandra Mitter.

2. The Governor in Council is also pleased, in exercise of the power conferred by rule 2 (*a*) of the rules made under section 10 of the same Act (published under Notification No. 11..8-P.D., dated the 2nd June 1915), to nominate the said Mr. M. Smither, I.C.S., to be the President of the aforesaid Commissioners.

No. 2884P.D.—The 15th September 1916.—In exercise of the power conferred by sub-section (1) of section 3 of the Defence of India (Criminal Law Amendment) Act, 1915 (IV of 1915), the Governor in Council directs that the following person, namely, Sisir Kumar Roy, son of Sarat Chandra Roy, who is accused of offences punishable under section 412 of the Indian Penal Code (Act XLV of 1860), and section 120-B of the Indian Penal Code, shall be tried by Commissioners appointed under the said Act IV of 1915.

No. 11629P.—The 19th September 1916.—In exercise of the powers conferred by section 12, sub-section (*1*), of the Indian Press Act, 1910 (I of 1910), the Governor in Council hereby declares to be forfeited to His Majesty all copies, wherever found, of a leaflet printed in Bengali entitled "*Swadhin Bharat.* Arise, awake, and, going to those who know, be enlightened", beginning with the words "Deputi Suparintendent Basanta Chattopadhyayer hatya byapar laiya" (over the matter of the murder of Basanta Chatarji, Deputy Superintendent). And ending with the words 'Bande Mataram" (I salute the Mother) and all copies of all other documents containing the matter of the said leaflet, on the ground that the said leaflet contains exhortations to rebel against the British Government and to commit murder, and therefore appears to the Governor in Council to contain words which have a tendency to incite to acts of violence and are of the nature described in section 4, sub-section (*1*), clause (*a*), of the said Act.

CALCUTTA, *the 2nd September 1916.*

ALTERATION OF IMPROVEMENT SCHEME No. I (SURTIBAGAN).

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above scheme so as to make Tarachand Dutt Street 84 feet wide instead of 45 feet wide for a length of about 440 feet east of Chitpore Road. This will involve the acquisition of the following additional properties:—

Chitpore Road, Lower	...	63, 64, 64/1, 64/2, 65, 65/7, 65/8.
Ram Prosad Shah Lane	...	6, 7, 9, 10, 23/1, 24, 25, 27.
Tarachand Dutt Street	...	45, 48 and 49.

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours.

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite Tarachand Dutt Street. The branch road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No. IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82, Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No. IV had been adopted.

The estimated cost of the proposed alteration is—

Land Gross	...	...	...	...	4¾ lakhs.
Recovery	...	...	...	...	4¼ "
Net	...	...	...	...	½ lakh.

The Engineering estimate is Rs 55,847, being Rs. 26,867 in excess of the original estimate already sanctioned.

C. H. BOMPAS, *Chairman*

1st September 1916.

ALTERATION OF IMPROVEMENT SCHEME No. IA.

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above Scheme so as to make the Road 84 feet wide instead of 40 feet wide. This will involve the acquisition of the following additional properties:—

Kasi Nath Mullick Lane.

Nos. 5, 5/1, 17, 17/1, 17/1/1 (portion), 18, 19, and 20, 20/1, 20/2, 20/3, 20/4 and 21 (portion).

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite Tarachand Dutt Street. The Branch Road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No. IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82, Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No IV had been adopted.

The estimated cost of acquiring the additional land is—

Gross	...	...	...	... 6¼ lakhs.
Net	...	...	...	... ½ lakh.

The Engineering estimates amount to Rs. 32,655 against Rs 11,179, the estimated cost of the narrower Road.

Tottie Lane ...	...	1.
Free School Street	...	33, 34, 56, 56-1.
Marquis Lane ...	...	15, 16.
Collin Street ...	...	47, 48, 48-1, 48-2, 49, 50, 53, 54, 109-1, 109-2
Wellesley Street ...	...	26, 26-1.

The plan of the Proposed Public Street and the particulars of the land through which the Proposed Public Street will pass may be inspected at the Offices of the Trust, 5 Clive Street, on week days between the hours of 11 A.M. and 4 P.M.; Saturdays 11 A.M. and 2 P.M.

Copies of this notice may be obtained on payment of a fee of two annas per copy, and of the plan at a fee of eight annas per sheet.

Objections to the said plan may be submitted on or before the 30th of November 1916.

The following Acts, issued by the Government of India in the Legislative Department, published in the *Gazette of India*, dated the 9th September 1916, are republished for general information.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 5th September, 1916, and is hereby promulgated for general information :—

ACT NO. X OF 1916.

An Act to prohibit or control trading by hostile foreigners and hostile firms and for other purposes.

WHEREAS it is expedient to take powers further to prohibit or control trading by hostile foreigners and hostile firms and for other purposes; It is hereby enacted as follows :—

Short title and duration.

1. (*1*) This Act may be called the Enemy Trading Act, 1916.

(*2*) It shall remain in force during the continuance of the present war, and for a period of six months thereafter.

Definitions.

2. In this Act,—

"company" means any company, firm or association, or body of individuals whether incorporated or not;

"hostile foreigner" means a subject of a State for the time being at war with His Majesty, and includes any company constituted according to the laws of such State, and the ruler or Government of any such State; and

"hostile firm" means any of the following, namely :—

(*a*) any hostile foreigner who has, or at any date subsequent to the 3rd day of August, 1914, had, an office, agency or place of business in British India;

(*b*) any company of which any member or officer is a hostile foreigner, or of which a hostile foreigner was a member or officer on the 3rd day of August, 1914, and which has or has had since that date an office, agency or place of business in British India;

(*c*) any person, or company who or which has, at any time since the 3rd day of August, 1914, carried on business in British India, and whose business is, or was, in the opinion of the Governor General in Council, either by reason of its nature or of the persons who carry or carried it on, or for any other cause whatsoever, carried on either under the control whether direct or indirect of any hostile foreigner, or carried on wholly or mainly for the benefit of hostile foreigners generally, or any class of hostile foreigners or any individual hostile foreigner.

Power to appoint Inspectors

3. (*1*) The Governor General in Council may, by general or special order, appoint Inspectors for the purpose of determining whether any business is or was carried on by a hostile firm within the meaning of this Act.

(*2*) The Inspector may summon before him any person whom he believes to be capable of giving information concerning the trade, dealings, affairs or property of such business, and of the antecedents and nationality of those by whom it is or was carried on or controlled.

(*3*) The Inspector may examine such person on oath concerning the same, and may reduce his answers to writing, and require him to sign them.

(*4*) The Inspector may require such person to produce any documents in his custody or power in any way relating to such business or to the persons by whom it is or was carried on or controlled.

(*5*) If any person so summoned refuses to come before the Inspector at the time appointed, the Inspector may cause him to be apprehended and brought before him for examination.

(*6*) If any person refuses to answer any question or to produce any document which under this section the Inspector is empowered to ask or require production of, such person shall be punishable with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

Power to prohibit or restrict, or wind up hostile firms

4. (*1*) The Governor General in Council may make an order either—

(*a*) prohibiting any hostile firm from carrying on business, except for the purposes and subject to the conditions, if any, specified in the order: or

(*b*) requiring the business of such firm to be wound up; and may in any case, where he has made an order prohibiting or limiting the carrying on of the business, at any time, if he thinks it expedient, substitute for that order an order requiring the business to be wound up.

(*2*) Every order made under sub-section (*1*) shall be published by notification in the Gazette of India.

(*3*) If any person contravenes the provisions of any order made under this section, he shall be punishable with imprisonment which may extend to one year, and shall also be liable to fine.

(*4*) An order made under this section shall continue in force, notwithstanding the termination of the present war, until determined by order of the Governor General in Council.

Winding up order

5. (*1*) Where the Governor General in Council makes an order under this Act requiring a business to be wound up, the order shall, on notification in the Gazette of India, have effect as if it were a winding up order made by a Court under the Indian Companies Act, 1913, and the provisions of that Act relating to winding up by the Court and the rules made thereunder subject to such exceptions, restrictions, extensions, modifications and adaptations as the Governor General in Council may, by general or special order, prescribe, or such other rules as may be prescribed by him, shall apply to the winding up of the business:

VII of 1913

Provided that, for the purposes of any winding up order under this Act, all powers exercisable by the Court under the said Indian Companies Act shall be exercisable by the Governor General in Council, or by such other authority as he may appoint either generally or specially in that behalf:

VII of 1913

Provided also that the assets of the business and any money resulting from the realization of any part thereof shall be dealt with in accordance with such rules as the Governor General in Council may make in that behalf.

(*2*) Where an order has been made under this Act directing the winding up of the business of a hostile firm, the hostile firm shall not, nor shall any other person, commence or initiate, whilst that order remains in force, any other proceedings of a like nature or calculated in any way to interfere with the carrying out of such order.

Contracts or transfers against the public interest

6. (*1*) Where it appears to the Governor General in Council that a contract entered into before or during the war, or a transfer of property, moveable or immoveable, made during the war, with or by a hostile foreigner or a hostile firm is injurious to the public interest, or was made with the object of evading any provision of the law, the Governor General in Council may by order cancel or determine such contract, either unconditionally or upon such conditions as he thinks fit, or declare such transfer to be void either in whole or in part, or may impose such conditions on the transferee as he thinks fit.

(*2*) The powers conferred by sub-section (*1*) in respect of transfers of property shall be exercisable also in respect of any subsequent transfer or sub-transfer which, in the opinion of the

Governor General, is injurious to the public interest or was made with the object of evading the law.

(3) On the making of an order under this section declaring any transfer or subsequent transfer or sub-transfer to be void, all property, the transfer of which is declared void by such order, shall, with effect from the date of the order, be deemed to be re-vested in the original transferor, or, if a winding up order has been made under section 4 (1) (b), in the liquidator.

Power of the Governor General in Council to vest property in Custodian under the Enemy Trading Act, 1915

7. (1) The Governor General in Council, in any case where it appears to him to be expedient to do so, may by order vest in any Custodian appointed under the Enemy Trading Act, 1915, any property, moveable or immoveable, belonging to, or deemed to be vested in, or managed or held whether in trust or otherwise, for, or on behalf of, a hostile foreigner, a hostile firm, or any person or company residing in, or carrying on business in the dominions of, a State at war with His Majesty, or the right to transfer that property, and may by any such order or any subsequent order confer on the Custodian such powers of selling, managing and otherwise dealing with the property as to the Governor General in Council may seem proper.

XIV of 1915

(2) A vesting order under this section shall, notwithstanding the provisions of any other law to the contrary, be sufficient to vest in the Custodian any property or the right to transfer any property as provided by the order without the necessity of any further document.

(3) Where, in the exercise of the powers conferred on him by the Governor General in Council, the Custodian proposes to sell any shares or stock forming part of the capital of any company or any securities issued by the company in respect of which a vesting order under this Act has been made, the company may, with the consent of the Governor General in Council, purchase the shares, stock or securities, notwithstanding anything to the contrary in any law or in any regulation of the company, and any shares, stock or securities so purchased may, from time to time, be re-issued by the company.

(4) The transfer by the Custodian of any property shall be conclusive evidence in favour of the transferee and of the Custodian that the requirements of this section have been complied with.

(5) All property vested in the Custodian under this section and the proceeds of the sale of, or money arising from, any such property, shall be dealt with by him in accordance with such directions as he may receive from the Governor General in Council; and no such property or money shall be liable to be attached or otherwise taken in execution.

Validity of vesting orders.

8. Where a vesting order has been made under this Act as respects any property belonging to, or held or managed for, or on behalf of a person who appeared to the Governor General in Council to be a person to whom the provisions of section 7 were applicable, the order shall not, nor shall any proceedings thereunder or in consequence thereof be invalidated or affected by reason only of such person having, prior to the date of the order, died or ceased to be a person to whom the said provisions were applicable, or subsequently dying or ceasing to be such a person or by reason of its being subsequently ascertained that he was not such a person, as the case may be.

Registration of transfer without production of certificates, etc

9. Where the Custodian executes a transfer of any shares, stock or securities which he is empowered to transfer by a vesting order made under this Act, the company in whose books the shares, stock or securities are registered shall, upon the receipt of the transfer so executed by the Custodian, and upon being required by him so to do, register the shares, stock or securities in the name of the Custodian or other transferee, notwithstanding any regulation or stipulation of the company, and notwithstanding that the Custodian is not in possession of the certificate, scrip or other document of title relating to the shares, stock or securities transferred; but such registration shall be without prejudice to any lien or charge in favour of the company or to any other lien or charge of which the Custodian has express notice.

Power to make rules

10. (1) The Governor General in Council may make rules for all or any of the following purposes, namely :—

(a) providing for the distribution or disposal of any assets, or any money resulting from the realization of any part thereof, of any business in respect of which a winding up order has been made under this Act;

(b) prescribing that hostile foreigners and hostile firms or any class of hostile foreigners or hostile firms shall, when required by the Custodian, furnish to him such particulars as he may require of all or

any moveable or immoveable property in their possession, or under their control whether direct or indirect ;

(c) requiring persons in British India to furnish to the Custodian such particulars as he may require of all or any class of debts or other property due by them to any person to whom the provisions of section 7 are or may be applicable ;

(d) prescribing the remuneration payable to the Custodian in respect of his duties under this Act, the fund from which it shall be paid, and the method of collecting the same ; and

(e) generally for carrying out the purposes of this Act.

(2) In making any rule under this section, the Governor General in Council may direct that a breach of it shall be punishable with imprisonment which may extend to a term not exceeding six months, or with fine which may extend to one thousand rupees, or with both.

Certain licenses under the Hostile Foreigners (Trading) Order to be deemed to be orders issued under section 4 (1) (a)

11. Every license for the time being in force granted under the Hostile Foreigners (Trading) Order permitting the licensee to trade or carry on business subject to conditions or restrictions shall be deemed to be an order made under section 4 (1) (a), and this Act shall have effect accordingly.

Power to deal with non-trading companies

12. (1) The Governor General in Council may, by notification in the *Gazette of India*, declare that the powers conferred by section 7 in regard to the property, moveable or immoveable, of the persons referred to therein shall extend to the property, moveable or immoveable, in British India, of any company specified in such notification of which any member is a hostile foreigner, or of which a hostile foreigner was a member or officer on the 3rd day of August, 1914, notwithstanding that such company is not a company trading in British India.

(2) On the publication of a notification under sub-section (1), the company shall be deemed to be a person referred to in section 7 of this Act, and this Act shall have effect accordingly.

Validation of past action

13. Any act done after the 3rd day of August, 1914, by, or under the orders of, any officer of Government in respect of the property, moveable or immoveable, of any hostile foreigner or hostile firm which, if this Act had been in force, could have been validly done in the exercise of the powers conferred thereby, or which could have been conferred thereunder, is hereby validated.

Repeal of Ordinance V of 1916

14. The Enemy Trading Ordinance, 1916, is hereby repealed. V of 1916

A. P. MUDDIMAN,

Secy. to the Govt. of India.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 5th September, 1916, and is hereby promulgated for general information :—

ACT NO. XI OF 1916.

An Act to provide further power to prohibit or restrict the import and export of goods to and from British India.

WHEREAS it is expedient to provide further power to prohibit or restrict the import and export of goods to and from British India; it is hereby enacted as follows :—

Short title, extent and duration

1. (1) This Act may be called the Import and Export of Goods Act, 1916 ;

(2) It extends to the whole of British India ; and

(3) It shall remain in force during the continuance of the present war, and for a period of six months thereafter.

Definitions

2. In this Act—

"export" means the taking by sea or land out of British India ;

"import" means the bringing by sea or land into British India.

Power to prohibit or restrict import or export of goods from or to any country or place or any person or class of persons

3. The Governor General in Council may by notification in the Gazette of India, prohibit or restrict in any way he may specify in such notification the import or export of all or any goods or any class of goods from or to any country or place, or from or to any person or class of persons.

Application of the provisions of Act VIII of 1878

4. Where, by a notification issued under section 3, the import or export of any goods is prohibited or restricted, such goods shall be deemed

to be goods of which the import or export has been prohibited or restricted under section 19 of the Sea Customs Act, 1878, and the provisions of the said Act shall have effect accordingly:

VIII of 1878

Provided that, in any proceedings for the adjudication of confiscation of any goods to which the provisions of any notification under this Act are alleged to apply, the goods shall be deemed to be goods of which the import or export has been so prohibited or restricted, as the case may be, unless the contrary is proved.

Summary procedure for recovery of penalty of bond

5. (*1*) Where any bond has been executed for the due performance of any condition imposed in the exercise or by virtue of the power of restriction conferred by section 3, the officer in whose favour the bond has been executed or his successor in office may, if he is satisfied that such bond has been forfeited, call upon the person bound thereby to pay the penalty to show cause why it should not be paid by him.

(*2*) If, in the opinion of such officer, sufficient cause is not shown and the penalty is not paid, he may, in addition to all other legal remedies, proceed to recover the same as if it were an arrear of land-revenue, and shall, for that purpose, have all the powers conferred upon the Collector by any enactment relating to land-revenue for the time being in force in any part of the province in which the bond was executed.

Certain notifications under Act VIII of 1878 to be deemed to be issued under this Act

6. All notifications under section 19 of the Sea Customs Act, 1878, issued after the 3rd day of August, 1914, and in force at the commencement of this Act, shall be deemed to have been issued under the provisions of section 3, and any action taken after the said date which, if this Act had been in force, could have been validly taken, is hereby validated.

The following Bills, issued by the Government of India in the Legislative Department, published in the *Gazette of India*, dated the 9th September 1916, are republished for general information.

J. H. KERR,

Chief Secy. to the Govt. of Bengal.

The following Bill was introduced in the Indian Legislative Council on the 5th day of September 1916:—

NO. 8 OF 1916.

A Bill to make provision in connection with the present war with respect to Bills of Exchange payable outside British India.

WHEREAS it is expedient to make provision in connection with the present war with respect to bills of exchange payable outside British India; It is hereby enacted as follows:—

Short title and duration

1. (*1*) This Act may be called the Indian Bills of Exchange Act, 1916.

(*2*) It shall be in force during the continuance of the present war and for a period of six months thereafter.

Delay in presentment of a bill for payment due to war.

XXVI of 1881

2. Notwithstanding anything contained in the Negotiable Instruments Act, 1881, or in any other enactment for the time being in force, delay in the presentment for payment of a bill of exchange, where the proper place for payment is outside British India, is excused if the delay is, or has been, due either directly or indirectly to circumstances arising out of the present war, or to the impracticability, owing to similar circumstances, of transmitting the bill to the place of payment with reasonable safety.

Bills lost owing to the war

3. Where, in any suit or other proceeding founded upon a bill of exchange payable outside British India, there is reason to believe that the bill has been lost, and that the loss can reasonably be presumed to be due either directly or indirectly to circumstances arising out of the present war, the Court may allow proof of the bill to be given by means of a copy thereof certified by a notary public, or by means of such other evidence as the Court thinks reasonable under the circumstances, and may pass a decree thereon notwithstanding any rule of law of the place where the bill is made payable:

Provided that such indemnity be given against the claims of other persons as the Court may require.

STATEMENT OF OBJECTS AND REASONS.

The Government of India have received representations from the Exchange Banks in this country praying for protection from loss in connection with bills of exchange arising out of the position created by the present war. Prior to the outbreak of the war, these Banks had become holders of a large number of bills of exchange which had been drawn in India and made payable at a specified period after date or sight thereof in countries which have now become enemy countries or countries occupied by the enemy. Shortly before the war some of these bills were sent forward for presentment, but it has not been possible to ascertain whether they have been presented to the acceptors or not, or whether they have been lost; while, as regards such bills as could not be so sent forward for presentment, it was impossible, and indeed illegal, to present them for payment to the acceptors thereof. Under Sections 64 and 66 of the Negotiable Instruments Act, 1881, bills of exchange made payable at a specified period after date or sight thereof must be presented at maturity, and if such presentment is not made, the drawers of the bills are discharged from liability to the holders. The consequence is that the Banks, who are the holders, have no right of action against the drawers. Nor have they any remedy against the acceptors for the existing law would not validate presentment of bills for payment after the war. It is reasonable, therefore, that the Banks should be protected from loss. The present Bill follows the lines of the British Bills of Exchange Act, 1914 (4 & 5 Geo. V, Chap. 82).

The 28th August 1916. G. S. BARNES.

A. P. MUDDIMAN,
Secy. to the Govt. of India.

The following Bill was introduced in the Indian Legislative Council on the 5th day of September 1916:—

No. 9 OF 1916.

A Bill to amend the Indian Lunacy Act, 1912.

IV of 1912

WHEREAS it is expedient to amend the Indian Lunacy Act, 1912; It is hereby enacted as follows:—

Short title

1. This Act may be called the Indian Lunacy (Amendment) Act, 191 .

IV of 1912

Insertion of new section 11A in Act IV, 1912

2. After section 11 of the Indian Lunacy Act, 1912, the following section shall be inserted, namely:—

Reception order in case of lunatics from foreign States in India

"11-A. (*1*) When an arrangement has been made with any foreign European State with respect to the reception of lunatics in asylums in British India, the Governor General in Council may, by notification in the Gazette of India, direct that reception orders may be made under this Act in the case of any lunatic or class of lunatics residing in the territories in India of such foreign European State, and shall in such notification specify the province or provinces within which such reception orders may be made.

(*2*) On publication of a notification under sub-section (*1*), the provisions of this Act as to the making of reception orders on petition and for temporary detention in suitable custody shall apply in the case of such lunatics, with the following modifications, namely:—

(*a*) an application for a reception order may be made by petition presented by such officer or agent of the foreign State in which the alleged lunatic ordinarily resides, as may by general or special order be approved by the Local Government in this behalf;

(*b*) the functions of the Magistrate shall be performed by such officer as the Local Government may, by general or special order, appoint in this behalf, and such officer shall be deemed to be the Magistrate having jurisdiction over the alleged lunatic for all the purposes of the said provisions;

(*c*) for the purposes of sections 5 and 18(*1*), the expressions "medical officer" and "medical practitioner" shall include such person or class of persons as the Local Government may specify in this behalf;

(*d*) the Magistrate may in his discretion extend the period prescribed by section 19 within which the alleged lunatic must have been medically examined; and

(e) sections 6(1), (2), (3), 11 and 34 of the Act shall not apply,

and with such other modifications, restrictions or adaptations as the Governor General in Council may, by notification in the Gazette of India, direct for the purpose of facilitating the application of the said provisions.

(3) A reception order made under this section shall be deemed to be a reception order made under section 7 or section 10, as the case may be."

STATEMENT OF OBJECTS AND REASONS.

It is proposed that power should be taken to provide for the reception into asylums in British India of lunatics residing in the territories in India of European Foreign States, in cases where such States have entered into an arrangement in this behalf. The French Government are anxious to obtain these facilities, and as a matter of international comity, it is desired to meet their wishes. This is not possible under section 98 of the Indian Lunacy Act, 1912, as the Courts in foreign territories do not of course exercise jurisdiction conferred by His Majesty or the Governor General in Council. It is not proposed to recognise the findings of foreign Courts in lunacy proceedings, but to permit proceedings for a reception order in such a case by authorities in British India. The Bill, which provides for the insertion of a new section after section 11 of the Indian Lunacy Act, 1912, is designed to effect the object in view. The procedure of the Act for the making of reception orders on petition will be applied to such cases with certain modifications specified in the Bill. Power is taken to make further modifications if necessity arises. The provisions of the Bill will in no case apply to criminal lunatics.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

Jessore.

No. 459T.M.—The 11th September 1916.—The following draft of by-laws which have been framed by the Commissioners of the Jessore Municipality, under section 350 of the Bengal Municipal Act (Bengal Act III of 1884), and which the Governor in Council proposes to confirm under section 351 of the Act, is published for the information of persons affected thereby.

The draft will be taken into consideration on the 1st November 1916, and any objection or suggestion received by the undersigned through the District Magistrate before that date will be duly considered.

DEFINITIONS.

1. In these by-laws—

(1) "Carriage" includes also a motor-car, and

(2) "Cattle' means cattle as defined in section 3 of the Cattle-trespass Act, 1871 (I of 1871).

GENERAL EXCEPTION.

2. In areas in which section 34 of the Police Act, 1861 (V of 1861), is in force, no act which constitutes an offence under that section shall be punishable under bye-law 22, 40 or 53.

PENALTIES.

3. The penalty for the infringement of any of these bye-laws shall be—

(*a*) a fine not exceeding the sum stated at the foot of the bye-laws,

(*b*) in the case of a second or subsequent conviction for a similar offence, a fine not exceeding the sum (if any) stated in that behalf at the foot of the bye-law, and

(*c*) in the case of a continuing offence, a further fine, not exceeding the sum (if any) stated at the foot of the bye-law as the daily fine, which daily fine may be imposed for each day after written notice of the offence from the Commissioners.

REGULATION OF TRAFFIC ON ROADS.

4. No owner of any carriage or cart shall allow it to be driven on any road by a driver under fourteen years of age.

Fine, Rs. 10.

5. No driver shall drive or have in his charge on any road more than one carriage or cart except in the case of two carts the hinder one of which is securely fastened to the preceding cart.

Fine, Rs. 10.

6. Any person driving a carriage or cart, or riding a bicycle, or driving or riding an animal, or carrying a palanquin, on any road, shall, when passing any vehicle coming from the opposite direction, keep to his left and shall, when overtaking any vehicle, keep to his right.

Fine. Rs. 10.

7. No person shall drive any of the undermentioned vehicles or animals, or convey any palanquin, on any road, between half-an-hour after sunset and half-an-hour before sunrise, unless lights are provided as follows:—

(*a*) every carriage must carry two conspicuous lights one on each side,

(*b*) every cart must carry one conspicuous light,

(*c*) every elephant, camel or palanquin must be accompanied by one conspicuous light,

(*d*) every cycle must carry one conspicuous light in front:

Provided that this bye-law shall not apply on nights of full moon, or on the four nights before and after full moon, if and when the moon is clearly visible.

Fine, Rs. 50.

OFFICE MEMORANDUM BY THE INSPECTOR OF SCHOOLS, BURDWAN DIVISION.

University Matriculation Examination, 1917.

PRIVATE STUDENTS.

1. Private students are those who have not attended any recognized or unrecognized High English schools for at least one year previous to the examination. The term "private students" includes school-masters.

2. Private students must appear at the Test Examination to be held on Monday, the 18th December 1916, and the following days at the Hooghly Collegiate School.

Each private student will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 9th November 1916, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstances will the admission fee be refunded.* No private student will be admitted to the Test Examination unless he is accompanied, for the purpose of identification, by some person known in the office of the Inspector of Schools, Burdwan Division.

3. Applications must be submitted through the head-master of the school in which the applicant last read. The head-master, in forwarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The application of no candidate is to be forwarded who did not leave school from the first class, or who had not been declared fit for promotion to that class. The information to be given and the documents to be appended (in original) are the following:—

(*a*) The name of the school in which the candidate last studied

(*b*) The transfor certificate (in original) granted to the candidate by the head-master of the school in which he last read ; or

(*c*) In the case of a candidate who previously appeared at the Entrance Examination, the Registrar's receipt (in original) for the fee paid.

(*d*) The age of the candidate is not required in cases (*b*) and (*c*). No candidate who has not completed the age of sixteen years on the first day of the Matriculation Examination is eligible.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary or proprietor of the school in which the candidate is serving.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1916. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(*g*) The names of subjects in which the candidate wishes to be examined.

4. *The fee for the Matriculation Examination has NOT to be sent to this office.* It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

5. The address of each private student should be supplied to this office.

6. The Matriculation Examination in 1917 will be held on the 1st March 1917 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 17th January 1917.

T. O. D. DUNN,
Inspector of Schools, Burdwan Division.

CHINSURA,
The 4th September 1916.

Intermediate and B. A. Examinations.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* masters of English schools, who have served as such for the full period of three academical years preceding the examination, will be admitted to the abovementioned examinations,

2. Candidates for the Intermediate and B. A. Examinations must produce certificates of character and length of service from the secretaries of their respective schools. Candidates for the B. A Examination must forward with their applications their F. A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B. A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required under section 9, chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 12th January 1917, together with other papers, as mentioned in rules 2 and 3, after which no application will be received.

5. The Intermediate Examination of 1917 will be held on the 12th March 1917 and following days. The B. A. Examination of 1917 will be held on the 22nd March 1917 and following days. The applications and fees for admission to the Intermediate Examination must reach the office of the Registrar on or before the 26th January 1917, and those for the B. A. Examination on or before the 6th February 1917.

T. O. D. DUNN,
Inspector of Schools, Burdwan Division.

CHINSURA,

DACCA DIVISION.

Rules for the admission of private candidates to the University Matriculation Examination, 1917.

1. A student who has not attended any school, recognised or unrecognised, for at least one year previous to the examination will be treated as a private candidate. Teachers of schools are also considered as private candidates.

2. Private candidates desirous of sitting at the ensuing University Matriculation Examination must appear at the test examination of one of the undermentioned schools to be held on the 4th December 1916 and the following days :—

(1) Dacca Collegiate School.
(2) Mymensingh Zilla School.
(3) Faridpur Zilla School.
(4) Barisal Zilla School.

3. Every private candidate must submit his application for admission to the test examination on or before the 1st November 1916 to the head master of one of the schools named above where he intends to appear,

producing a certificate from a respectable gentleman to the effect (1) that he has not attended any school, recognised or unrecognised, for at least one year previous to the examination, (2) that his conduct and character have been good, (3) that he has diligently and regularly prosecuted his studies and has been subject to proper discipline.

A student who failed to pass the annual examination for promotion to class X at the end of the session 1915 and then left the school should not be allowed to sit at the examination.

4. He should also forward with his application his transfer certificate from the school (if any) in which he last read, or the Registrar's receipt (if he appeared at any previous Entrance Examination), or a certificate from a respectable person with personal knowledge of the facts of the case that he has never been to any school.

5. No one will be admitted to the test examination unless he shall produce satisfactory evidence that he will have completed the age of sixteen years on the 1st day of March 1917. For the purpose of this rule the age as recorded in a transfer certificate from a recognised school or in the Registrar's receipt (in case of those who appeared at any previous examination) will be accepted. Those who have never read in any school must produce either their horoscope or an affidavit sworn by their parents or guardians before a competent Magistrate declaring their age.

6. Every private candidate shall state in his application his name, father's name, date of birth, residence, postal address and the following particulars :—

(1) Whether he appeared at the Entrance Examination in any previous year.

(2) Language in which (besides English) he is to be examined.

(3) Vernacular language for composition.

(4) Vernacular language from which translation is to be made into English in the 1st English paper.

(5) Which of the following subjects taken up—

(a) Additional Mathematics.	(c) History
(b) Additional paper in classical language.	(d) Geography.
	(e) Elementary Mechanics

7. Every private candidate must pay a fee of Rs. 2 to the head master of the school at which he appears for examination. The head master must deposit the amount of fees realised into the treasury, the expenditure incurred in this connection being met from the amount to be allotted in the Education budget.

8. On the first date of examination, he must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, otherwise he will not be admitted to the test examination.

9. The head masters of the schools named above should send to this office for orders a statement in duplicate showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination. The application forms of candidates who are declared eligible should be forwarded to this office for countersignature duly filled in and signed and accompanied by the documentary evidence referred to in paragraphs 3, 4 and 5.

10. Private candidates should arrange to remit their examination fees, together with the countersigned application forms, direct to the Registrar, so as to reach him on or before the 17th January 1917. The fee payable by each candidate for the examination is Rs. 12.

11. The Matriculation Examination for 1917 will be held on the 1st March and the following days.

A Report of the Calcutta Advisory Food Committee for the period ending 31st July 1916.

OWING to the rise in the prices of food-stuffs on the outbreak of hostilities in Europe, an Advisory Food Committee for Calcutta was appointed by this Government in Resolution No. 7[illegible], dated the 22nd August 1914, with the Hon'ble Mr. F. J. Monahan, I.C.S., as President, for the purpose of warning Government of any unusual movement in the food market and of dealing direct with the Corporation, the owners of markets and the purveyors and manufacturers of food-stuffs in Calcutta. The Committee has now submitted a report on its working for the period from its appointment in 1914 to the 31st July 1916, which is reproduced below.

The Governor in Council is much indebted to the President, the Hon'ble Mr. Monahan, and to the members of the Committee for the time and labour spent by them on this [illegible] and [illegible] interesting report.

ORDER—Ordered that copies of the Resolution be forwarded to the President and members of the Food Committee.

By order of the Governor in Council,

L. BIRLEY,
Secy. to the Govt. of Bengal.

REPORT OF THE CALCUTTA ADVISORY FOOD COMMITTEE FOR THE PERIOD ENDING 31ST JULY, 1916.

1. In view of the rise in the prices of certain food-stuffs on the outbreak of hostilities in Europe, the Government of Bengal, by their Resolution No. 7043P., dated the 22nd August 1914, appointed an Advisory Food Committee for Calcutta with the Hon'ble Mr. F. J. Monahan, I.C.S., as President, and the Hon'ble Mr. C. F. Payne, I.C.S., Chairman of the Corporation of Calcutta, the Hon'ble Raja Rishi Kesh Laha, C.I.E., Mr. J. P. Wyness, President of the Markets Committee of the Corporation of Calcutta, Mr. Abdul Rahim and Babu Ramtaran Banerjee, Municipal Commissioners, and Babu Ramdeo Chukhani, Secretary, Marwari Association, as members, the duties of the Committee being "to warn Government of any unusual movement in the food market and to take action itself in dealing direct with the Corporation, the owners of markets and the purveyors and manufacturers of food-stuffs in Calcutta." Mr. G. Findlay Shirras, Director of Statistics, Government of India, was subsequently appointed a member of the Committee.

2. Before the appointment of the Committee, certain action had been taken by the Calcutta Corporation and the Commissioner of Police, in consequence of a sudden rise in the retail prices of food-stuffs during the week following the outbreak of war. The Corporation had employed their staff of License and Collection Inspectors in making enquiries. About 1,000 shops were visited by them, and information collected, and dealers were warned that, if prices were raised unjustifiably, there would probably be some legal regulation of prices. In addition to this, the Corporation fixed the maximum prices, at which articles could be sold at the Sir Stuart Hogg Market. Under instructions issued by the Commissioner of Police, the officers in charge of Calcutta Police Divisions warned the owners, lessees, and managers of all important private markets that action would be taken to prevent any unnecessary and wrongful inflation of the prices of articles of food that had no connection with the war in Europe.

The above measures were effectual in putting a stop to the artificial raising of prices, which had immediately followed the outbreak of war, and, by the date of the Committee's appointment, the prices of articles of food in Calcutta generally had returned to a level, which might be justified by economic reasons. The price of rice showed a slight seasonal rise since the date of the outbreak of war, but was lower than at the corresponding date of the preceding year, 1913. The price of wheat was the same as at the outbreak of war. That of Patna gram had risen, but it appeared that it had ruled high throughout the summer of 1914, owing to a poor harvest in the producing districts. The retail price of salt had fluctuated, rising in the first week after the outbreak of war from 9½ pies to 1½ anna a seer. By the end of August the retail price was 1 anna a seer, the increase as compared with the date of the outbreak of war being, to some extent, accounted for by shortness of supplies, owing to want of tonnage. Refined sugar showed a very considerable rise in price, due to the diversion of supplies of Java sugar to Europe, and *gur* had risen in sympathy with refined sugar.

3. The Committee thought that the first step, which they should take, was to arrange for regular and accurate returns of wholesale and retail market prices current of articles of food. Fortnightly returns of average wholesale and retail prices of certain descriptions of food-grains, salt, and some other articles are published in the *Calcutta Gazette*, the information as regards Calcutta being furnished by the Calcutta Police. The Committee found the Gazette list of articles not quite suitable for their purpose, and they accordingly drew up a list, which, with certain additions made subsequently, comprised six kinds of rice, three of wheat, one of gram, seven kinds of *dal*, salt, sugar, two kinds of *gur*, milk, mustard oil, country flour, *atta*, *suji*, potatoes, three kinds of vegetables (onions, *patal* and brinjal), *rahu* fish, three qualities of *ghee*, and one quality each of beef and mutton.

Arrangements were made for recording prices daily at five wholesale markets (namely, Posta, Chetla, Ramkistopur, Sealdah Fish, and Sealdah Milk), and seven retail markets (Orphanganj, Nutan, Sobha, Raja Babu's, Bow, Kareya, and Jogu Babu's), besides which weekly price lists of articles sold at the Sir Stuart Hogg Market were obtained from the Corporation. For the Orphanganj Market, which belongs to Government, daily prices current have been furnished by the Superintendent, and at the other markets mentioned above prices have been recorded by Income-tax Assessors under the supervision of a Deputy Collector of the Income-Tax Department, Babu Satish Chandra Roy.

On the basis of the records so obtained, which are compared with statements of wholesale prices current issued by the Chamber of Commerce and published in different newspapers, and with information obtainable from other sources, the Committee prepare a weekly statement of wholesale and retail prices current for the week ending Saturday, which is issued to the Press, and published in the *Calcutta Gazette.*

4. The weekly price current returns have been regularly considered at meetings of the Committee, and their correctness tested by enquiries made by the Deputy Collector above referred to, and by members of the Committee personally. When unusual fluctuations have come to notice, special enquiries have been instituted to ascertain the cause. In considering whether any direct action should be taken to keep down prices, the Committee have kept in view the object of preventing any enhancement of the prices of food-stuffs, for which there is no economic justification, but which might be brought about by unscrupulous dealers for the purpose of securing an illegitimate profit. At the same time, they have recognized that any attempt to prevent artificially the rise in the prices of certain articles, which is the inevitable result of economic causes connected with the war, would be most mischievous as well as useless.

Acting on these principles, which have been fully endorsed by Government, the Committee have, so far, not found it necessary to take themselves, or recommend any direct action towards regulating prices, but they believe that the systematic enquiries, which they have been making, have tended to prevent the raising of prices improperly, by showing the dealers and the public that prices are being closely watched, and that any unusual enhancement will be promptly reported, and enquired into, and steps taken to put a stop to it, if found to be without justification. The Committee's weekly price current statements have served as a rough guide to the public, and are believed to have been specially useful to purchasers and sellers in places at a distance from Calcutta, as, while prices in Calcutta affect a very wide area, shop-keepers and purchasers in remote localities are not in immediate touch with the fluctuations of Calcutta market prices. As an instance, it may be mentioned that, on the 25th August 1914, the Deputy Commissioner of Lakhimpur in Assam wrote to the Collector of Calcutta asking to be furnished with Calcutta prices current of certain articles, for the guidance of a committee appointed in connection with prices at Dibrughar, and the Committee's weekly price current statements have since been furnished to him.

The following review of fluctuations in the wholesale prices of certain important articles of food in Calcutta since the outbreak of war may be of interest.

5. The Committee have aimed at recording prices of the principal articles, which form the food of the poorer classes, including the poorer section of the middle class in Calcutta. The following explanations with reference to different articles in the list seem called for.

Rice is divided into two broad classes distinguished by the way in which the husk is removed. That rice which is husked after it has been boiled once or twice is known as *siddha* or *ushna* while the rice from which the husk is removed without boiling is called *atap* or *alo*. In Calcutta, as in Bengal generally, the consumption of unboiled (*atap* or *alo*) rice is relatively small. It is eaten by certain classes of people, but the bulk of the population use boiled (*siddha* or *ushna*) rice only. The Committee have, accordingly, recorded prices of different kinds of boiled rice only.

For the purposes of the returns, it did not suffice to record prices of the cheapest kinds of rice only. One of the cheapest kinds of rice in the market is Burma rice husked in Rangoon mills, without boiling, but very little of it is sold by retail or consumed in Calcutta. Again, the cheapest kind of boiled rice, *kaila*, which is eaten by coolies, is not an article of food for any other class of people. In the great retail markets of the north of Calcutta, where the Bengali population of the town mostly reside, *kaila* rice is not sold at all. This is not merely a question of taste. The coarsest kinds of rice are not easily digestible, and *kaila* rice cannot be eaten by persons not accustomed to it without injury to health. It is necessary, therefore, to record also the price of other kinds of rice ordinarily consumed by poor people other than coolies.

On the other hand, the names of certain kinds of rice, of which prices are recorded, indicate the place from which the rice comes, rather than any definite quality, and include some exceptionally fine qualities, which fetch a high price. The Committee, therefore, confine their record to the coarse and medium qualities of the kinds bearing these names, and, in order to ensure that prices of qualities above medium are not included in the returns, samples of each kind have been adopted for the guidance of the recorders. This applies also to the different kinds of *dal*.

Gram.—The returns do not include the inferior quality, which is used only as food for cattle and horses.

Salt.—The price of Liverpool Panga salt is recorded, that description being taken as a standard.

Mustard oil.—The mustard oil ordinarily sold is much adulterated, and higher prices than those shown in the Committee's returns are paid for pure mustard oil. It has been thought sufficient to record the price of what is ordinarily sold as mustard oil, although it is not pure.

Rahu fish.—Fish is a very important article of food, but it is not practicable to obtain prices current of all the different kinds of fish commonly sold and some are not sold by weight. *Rahu* has been adopted as the standard.

Ghee.—It has been found necessary to show a somewhat wide range of prices for this article, even limiting our returns to ordinary qualities. Much higher prices than the maxima shown by us, up to and over Rs. 60 a maund are paid for special qualities guaranteed pure.

The Committee decided not to attempt any calculation of average prices, which must always be a matter of uncertainty, and to aim rather at obtaining a record of facts. The agents, by whom the daily returns of prices are furnished to the Committee, have been instructed to put down the prices, at which transactions are observed to occur each day; and the range of prices shown against each article in our weekly statement indicates the lowest and highest price at which sales have been noted during the week. The range of price shown in the returns is, necessarily, a somewhat wide one, as some of the descriptions of articles included cover several qualities, limited, though they are, to ordinary qualities, and the price of the same quality of an article may be different in different markets on the same day. Prices in retail markets vary according to their situation, their distance from the wholesale markets, which supply them and the class of customers who resort to them. Retail prices are generally highest at the Sir Stuart Hogg Market, which is resorted to by Europeans, and where the accommodation and sanitary arrangements are better than at the other markets. On the other hand, the retail prices at which articles are sold in very small quantities to the poorest classes of the population work out higher than the prices charged to the more well-to-do, who purchase larger quantities.

6. **Balam rice.**—In the week ending 7th August 1914, the average price of *balam* rice was about the same as in the corresponding period of 1913, viz., Rs. 6 a maund. During the months of September, October and November 1914, the price fell steadily, keeping well below the prices for the same months of 1913, the fall being probably connected with a falling off in exports, owing to difficulties of tonnage. About the end of November 1914, the price began to rise, and it continued rising through December and January, but in February and March it fell again, coming below the price for the same

period of 1914. In April 1915 it rose somewhat rapidly, and from May to November 1915 inclusive, it remained without much fluctuation at a somewhat high level—Rs. 6-8 to Rs. 7 a maund. In October and November 1915 the price ranged from Rs. 6-12 to Rs. 7 a maund, as compared with Rs. 5-8 to Rs. 6 in 1914, and Rs. 5-12 to Rs. 6-12 in 1913. In December 1915 and January 1916 the price fell rapidly, coming down to Rs. 5-8 a maund by the middle of January 1916. There was then a slight rise, but, throughout the months February to May 1916 inclusive, the price has been, on the whole, well below that of either 1914 or 1915. In June there was again a slight rise, and throughout July the price, Rs. 6 a maund, has been about the same as in 1914, but well below that of 1915.

7. **Kajla rice.**—Throughout August, September and October 1914 the price (Rs. 4-4 to 4-8 a maund) was lower than in the corresponding months of the preceding year. In November there was a slight rise, but in December 1914 and January 1915 the price fell again to Rs. 4 a maund. During January, February, March, and the first half of April 1915 it fluctuated between Rs. 4 and Rs. 4-4 a maund, but from the middle of April it rose steadily, reaching Rs. 5 a maund in July 1915. In the latter part of that month there was a slight fall, but during August and September it again rose to Rs. 5-12. In the last week of September 1915, the price began to fall, and it fell rapidly throughout October and November, coming down to Rs. 4-8 by the end of the latter month. During December 1915 and January and the first half of February 1916, the price fluctuated between Rs. 4-6 and Rs. 4-8 a maund, but in the second half of February it came down to Rs. 4-4, at about which level it remained throughout March and April. During May the price rose to Rs. 4-8, and it has remained about the same since. According to a return published by the Department of Statistics, the index number of the wholesale price of rice in Calcutta was, at the end of July 1915, 14 per cent., at the end of November 1915, 24 per cent., and at the end of July 1916, 20 per cent. above that of July 1914.

Since the outbreak of war, the shortness and high cost of freights have, by impeding export, tended to keep the price of rice in Calcutta low. The Customs returns show that only 1,508,068 cwt. of rice were exported from Calcutta by sea in 1915-16, as compared with 3,404,028 cwt. in 1914-15, and 6,518,752 cwt. in 1913-14, and an average of 6,767,209 cwt. for the five years ending 1912-13. The rise of price in the middle of 1915 was mainly due to the poor harvest of the season 1914-15, and, as the result of a better crop in the following season, prices have ruled lower during 1916.

8. **Wheat.**—In the price current returns issued by the Committee, prices have been quoted for three classes of wheat, *dudhia gangajoli*, and *jamali*, these being descriptions commonly sold in the Calcutta market for local consumption. For purposes of comparison, however, it is better to take a quality, Club No. 2, for which quotations are given in the price current statements of the Chamber of Commerce and in different publications of the Department of Statistics.

At the end of July 1914, the wholesale price of Club No. 2 wheat in Calcutta was Rs. 4-6 a maund. By the end of August it had risen to Rs. 4-10. In the first half of September it came down to Rs. 4-7, but, from that date, it rose continuously till the middle of February 1915, when it reached the figure of Rs. 6-10 a maund After that date the price declined pretty steadily, owing, in part, to the action taken by Government to control wheat exports till the middle of May 1915, when it stood at Rs. 4-4 a maund. Subsequently, there were fluctuations of price, with a gradual rise on the whole, till the end of the first week of March 1916, when the price of Rs. 5-6 a maund was reached. There was then a continuous and rather rapid decline till the middle of April, when it stood at Rs. 4-2. Since that date the price has varied between Rs. 4-2 and Rs. 4-4. The figures published by the Director of Statistics show the index number of the wholesale price of wheat in Calcutta at the end of July 1915 as 10 per cent. and at the end of November 1915 as 20 per cent. above, and at the end of July 1916 as 4 per cent. below that of July 1914.

There can be no doubt that the fluctuations in the price of wheat in Calcutta since the outbreak of war have been determined mainly by causes affecting the world's wheat supply. The following is quoted from the memorandum of the Director of Statistics on prices and freights in India from the outbreak of war till the end of July 1915 :—

"In dealing with the rise of wheat prices it is necessary to disentangle the causes which would still have been in operation if there had been no war from those which have been brought into existence by war and its consequences. Had there even been no war, the fact that (1) Australia had a bad crop and could export no wheat, (2) the Argentine crop, owing to extraordinary bad conditions of weather and internal transport, was delayed at least by three weeks in moving to the coast for export to Europe, and (3) the previous year's crop in India was short and Indian stocks were, therefore, much below normal, would have been sufficient, other things being equal, to result in a rise in wheat prices. In addition to these causes, independent of the war, were others, arising directly from the war. The outbreak of hostilities contributed to the diminution of the effective available supply of wheat. The price of wheat rose 10 per cent. in India when the Dardanelles were closed towards the end of October. The Russian authorities, it will be remembered, on account of Turkey's closing the Dardanelles, suspended on the 30th October steamship services to and from the grain port, Odessa, and the probability of Russia coming at any moment on the market as a seller of wheat was then no longer possible. The effect of the stoppage of Russian supplies to the wheat market of the world—Mark Lane—at the time when the Russian crop ordinarily predominates, was immediately felt not only in Mark Lane but in Karachi, and then in up-country districts. The closing of the Dardanelles shut off some 10 or 15 million quarters of wheat. This is obviously a very considerable quantity and was a most important factor in the shortage of supplies. Another circumstance due to the war has been a reduction of the wheat crop in Belgium, Northern France and elsewhere which resulted in France this year competing with other importing countries for wheat.

With the diminished supply of wheat there was also a question of increased demand owing to the largely increased consumption by armies in the field. Armies as compared with the same individuals when in civil life consume very large quantities of wheat. Foreign countries also have purchased wheat to an extent which is quite outside ordinary experience. The Trade Returns, for example, of Italy and Holland show this to be so. With these increased sources of demand, there has been, as one might *a priori* have expected from the high prices of wheat, no corresponding diminution in the demand for wheat by consumers in England who are demanding as much flour as they did before the war began. This is perhaps not surprising in view of the fact that, as Sir Robert Giffen seems to have been the first to observe, a rise in the price of wheat still leaves bread the cheapest food, which English people will consent to eat in any quantity ; so that, when they have to curtail their purchases of more expensive foods, they buy not less bread than they would usually have done, but more. Another cause of the rise of wheat prices, as will be discussed in connection with freights, is the difficulty of transport and the consequent rise of freights which has lead to some extent to a rise in the price in England and, therefore, in India. In the case of wheat, freights have been as stated on page 18 an important though by no means the chief factor in the rise of prices."

The prices of wheat products—*flour*, *atta* and *suji*—have followed, on the whole, the fluctuations in the price of wheat, except during the first week of August 1914, when the price of flour rose to Rs. 7-8 a maund from Rs. 5-8 a maund at the end of July. The price reached at the beginning of August seems to have been artificial, and, at the end of the month, it had come down to Rs. 6-8 a maund. A memorial submitted to Government on the 19th August, 1914, by the managing agents of certain flour mills, complaining that, owing to the action taken by the Calcutta Corporation officials, and the police to keep down prices, the retail dealers had ceased purchasing flour, was referred to the Committee by Government. The Committee met representatives of the agents and made an enquiry, and came to the conclusions that there had been no improper interference with the trade in flour by the Corporation officials or the police, and that the rise in the price of flour, which had occurred at the beginning of August 1914, was not justified by any rise in the price of wheat that had taken place.

9. **Gram.**—The gram offered for sale in the Calcutta market belongs mainly to three classes, viz., *Patna*, which comes from different districts in Behar, the United Provinces, and the Central Provinces, *Shaharia*, from Murshidabad and the Sonthal Parganas, and *Deshi*, from Murshidabad and Nadia. Of these three classes, Patna gram commands the highest price, while Shaharia is inferior and Deshi is the lowest and cheapest class. The better quality of gram is used for human food, and the inferior quality for

horses and cattle, but the line between these two qualities is not quite sharply drawn, so that any increase in the demand for, or shortness in the supply of, gram for human food affects the price of gram required for fodder, and *vice versa*. The Committee's returns show prices of Patna gram, which is generally used for human food.

At the end of July 1914, before the outbreak of war, Patna gram was selling in Calcutta wholesale at Rs. 4-6 a maund, as compared with Rs. 3 a maund at the same date in the preceding year, the rise being due mainly to the crop of 1913-14 in the producing districts having been a poor one. During August and September 1914, the price rose somewhat rapidly, and, by the end of September, it had reached Rs. 5-4 a maund. A representation addressed to Government in September by the Trades Association, on the subject of the high price of gram and oats in which it was suggested that the rise in those articles might be due to cornering in the producing districts, was forwarded to the Committee for enquiry. The Committee caused enquiries to be made locally, and also addressed by letter the Collectors of Nadia, Murshidabad, Malda, Bhagalpur, Monghyr, Gaya, Patna, Shahabad, Muzaffarpur, Champaran and Banda and the Deputy Commissioners of the Sonthal Parganas and Hoshangabad. From the District Officers' replies it appeared that there was no reason for supposing that the rise in the price of gram was due to cornering, and that it was accounted for by the poor yield of the last harvest, and also by a general failure of *rabi* crops in some of the districts of the United Provinces. In Banda, one of the principal producing districts, the sharp rise of price in August, was attributed to the approach of the sowing season.

During the months of October, November and December 1914, and January and February 1915, the wholesale price of Patna gram in Calcutta ranged between Rs. 5 and Rs. 5-8 a maund. In the first week of March a fall began, and, for that week, the range of prices recorded was Rs. 4-12 to Rs 5-4. The fall continued during the spring and summer of 1915, and by the end of June the price was Rs. 3-8 to Rs. 4-4, which continued almost steadily throughout July. The price then began to rise; by the end of August, it had reached Rs. 4-8, and by the end of September Rs. 4-14. In October the price fell somewhat, and at the end of that month it was quoted as Rs. 3-11 to Rs. 4-8. This price continued without much change throughout November and December 1915 and January and February 1916. In the first week of March last the price began to fall, and by the end of March it was quoted at Rs. 2-10 to Rs. 3-10. At the end of June the price quoted was Rs. 3-4 to Rs 4, and at the end of July, Rs. 2-14 to Rs. 4. A certain amount of gram is exported to Europe for fodder purposes. The Customs returns show that the export of pulses (including gram) by sea from Calcutta in 1915-16 amounted to 607,453 cwt. as compared with 837,989 cwt. in 1914-15, and 1,513,539 cwt. in 1913-14, and an average of 2,270,803 cwt. for the five years ending 1912-13.

10. **Sugar.**—The most remarkabte fluctuations of bazar prices since the outbreak of war have been in the case of Java sugar. On the 30th July 1914, the wholesale price quoted for brown Java sugar was Rs. 5-12 to Rs. 5-14 a maund. On August 6th it had risen to Rs. 7-6, and it continued rising, with some fluctuations, till the end of May 1915, when it reached Rs. 11-13 a maund, or more than double its price before the outbreak of war. During June 1915, the price fell, and it was Rs. 10-12 at the end of that month, but it rose again in July, reaching Rs. 11-11 in the first week of August. During August, September and October, the price fell, and, by the middle of October, it stood at Rs. 10-2 a maund, at which it remained till the middle of November 1915. Since the latter date the price has risen steadily with a few variations, and, at the end of July 1916, it stood at Rs. 12-5 a maund.

In considering these figures it has to be borne in mind that during 1914, up to the outbreak of war, the price of Java sugar in Calcutta was unusually low, owing to the accumulation of stocks in the import season (July to December) of 1913. At the end of July 1914 the price was Rs. 5-12 to Rs. 5-14, as compared with Rs. 6-4 a maund in the corresponding period of 1913.

The great increase in the price of sugar is undoubtedly connected with the stoppage of supplies of beet sugar from different countries in Europe, and the consequent diversion of cane sugar from Java and Mauritius to the United Kingdom. The quantity of refined sugar imported into Calcutta from Java was 3,439,063 cwt. in 1914-15, and 4,076,107 cwt. in 1915-16, as compared with 6,866,922 cwt. in 1913-14, and an average of 4,294,783 cwt. for the five years, 1908-09 to 1912-13 inclusive. On the other hand, the imports of sugar (refined and unrefined together) from Java to the United Kingdom were 1,979 cwt., 8,104,312 cwt., and 7,951,792 cwt. in 1913, 1914 and 1915, respectively. From Mauritius, the United Kingdom imported 979,507 cwt. in 1914 and 2·23 million cwt. in 1915.

The increase of the import duty on sugar to 10 per cent. with effect from the 1st March 1916 has tended to further increase the price.

When the price of refined sugar rises in Calcutta, the poorer section of the inhabitants have the alternative of falling back on *gur*. In fact, the general use of refined sugar among the people of Bengal is comparatively new. How recent and how rapid has been the development of the taste for refined sugar is illustrated by the figures of imports of such sugar by sea to Calcutta, which show that, while in 1885-86 they amounted to 83,347 cwt. and in 1890-91 to 5,11,796 cwt., for the five years 1908-09 to 1912-13 they averaged 4·67 million cwt. a year, and in 1913-14 they amounted to 6·87 million cwt.

The great rise in the price of refined sugar since the outbreak of war has probably resulted in decreased consumption of that article, and increased consumption of *gur* in Calcutta, which is reflected in a rise in the local price of *gur*. The wholesale price of "Bheli" ("Valley") *gur* on the 30th July 1914 was quoted in *Capital* as Rs. 5 to Rs. 5-8 a maund. For the week ending 31st July 1915, the price, according to the Committee's returns, ranged from Rs. 6-8 to Rs. 7-8 and for the week ending 31st July 1916 from Rs. 6 to Rs. 9 a maund. Thus, while the increase in the price of *gur* since the outbreak of war has been appreciable, it has not been nearly so great, proportionately, as the increase in the price of refined sugar.

The rise in the price of sugar might be expected to stimulate the production of cane sugar, but it is not clear that it has had this result in Bengal. In the forecast of the Agricultural Department, the area planted with sugarcane in the Presidency for 1915-16 was estimated at 233,500 acres against 233,400 acres in 1914-15. In the preliminary forecast for 1916-17 the area is given as 223,300 acres. In the whole of British India, the outturn of cane sugar in 1915-16 is returned as 2·63 million tons against 2·46 million tons in 1914-15. In view of the probable curtailment of supplies of Java sugar, the Collectors of the chief date sugar producing districts (Jessore, Khulna, Nadia, Faridpur, Bakargnj, Hooghly and Howrah) were addressed by Government on the 18th August 1914, and instructed to get into touch with the local refiners and other persons of influence connected with the sugar industry in their respective districts, explain to them that there would probably be an unusually large demand for sugar during the next few months, and consult with them as to the possibility of increasing the outturn of date sugar during the ensuing cold season. The districts referred to were also visited by the Agricultural Chemist to the Government of Bengal, who gave advice to cultivators and others on the subject of increasing the production of date sugar. These measures are believed to have had some good effect. In the Agricultural Department forecasts, the outturn of date sugar in Bengal in 1915-16 is estimated at 1,983,800 cwt. as compared with 1,930,000 cwt. in 1914-15 and 1,947,000 cwts. in 1913-14.

11. **Salt.**—Since the outbreak of war there have been some remarkable fluctuations, with a great rise on the whole, in the price of salt "ex-gola" duty free. At the end of July 1914, the price of Liverpool salt ex-gola for 100 maunds was Rs. 55, at which price it had stood for the previous three months. On the outbreak of war the price rose rapidly, and, by the last week of August, it had reached Rs. 90. During September and October the price fell, and, by the end of October 1914, it was back at Rs. 55, the pre-war figure. In the four months following, it rose rapidly, reaching Rs. 147 at the

end of February 1915. In the latter part of March, it fell to Rs. 93, but almost immediately rose again to Rs. 134, at which price it remained nearly steadily through April, May and June 1915. In July the price began to fall again, and towards the end of September it was at Rs. 97. During October, November and December 1915 and January 1916, the price rose rapidly, and almost continuously, reaching Rs. 157 in the third week of January and Rs. 225 at the end of the month. During February and March 1916, there were few sales of Liverpool salt ex-gola, but there were transactions at Rs. 226 in the last week of February, and at Rs. 200 in the last week of March. In April, the price fell to Rs. 175, and by the middle of May to Rs. 140, but it rose again to Rs. 156 in June. These fluctuations, which were the result of freight difficulties, apprehensions of an increase of duty, and the actual increase of duty, which took effect from the 1st March 1916, have been only in part reflected by the bazar wholesale price per maund of duty-paid salt. On the 31st July 1914, the bazar wholesale price of Liverpool salt was Rs. 1-11 per maund. By the 15th August it had risen to Rs. 2-4. From the beginning of September the price began to fall again, and at the end of October it was back at Rs. 1-11, the pre-war price. The price then rose gradually, reaching Rs. 2 at the beginning of January 1915 and Rs. 2-8 by the middle of that month. During the remainder of January and February there was no wholesale transaction in Liverpool salt in the bazar; in the first week of March, the price was Rs. 2-11, and at the end of that month Rs. 2-3 to Rs. 2-4. At the end of June 1915, it was Rs. 2-5 to Rs. 2-6, which price continued throughout July. During August, September and October 1915, there were slight fluctuations, with a downward tendency on the whole, and at the end of October the price was Rs. 2-4. During November and December 1915, the price rose slowly; in the beginning of January 1916 it was Rs. 2-8, and at the end of that month Rs. 2-12. At the end of February it was Rs. 2-14 and at the end of March Rs. 3-1 to Rs. 3-6. In the week ending 1st July it was Rs. 2-14-6, and, in the week ending 31st July, Rs. 2-12 to Rs. 2-13. Charts illustrating fluctuations of wholesale prices of rice, wheat, gram, sugar, and salt in Calcutta since the outbreak of war are annexed.

12. **Retail prices.**—Retail prices of food have followed fairly closely the fluctuations of wholesale prices since the outbreak of war. The retail price of Liverpool salt on the 31st July 1914 was 9½ pies a seer. In the first week after the outbreak of war, the price rose to 1½ anna a seer, but it quickly dropped to 1 anna, and from the middle of August 1914 to the end of January 1916 it fluctuated between 1 anna and 1 anna and 6 pies, according to variations in the wholesale price. During February 1916, it rose at times to 1 anna 9 pies and 2 annas, and during March it ranged between 1 anna 6 pies and 2 annas. Since the 1st April 1916 it has ranged between 1 anna 3 pies and 1 anna 6 pies.

A return issued by the Department of Statistics shows that the index number of retail prices of food-stuffs in Calcutta on the whole at the end of July 1916 was 10 per cent. in excess of the index number at the end of July 1914. The rise in retail food prices in the United Kingdom on the 1st July 1916 was 61 per cent. as compared with prices in July 1914.

REPORT ON FAMINE IN THE DISTRICT OF BANKURA FOR THE WEEK ENDING THE 9TH SEPTEMBER 1916.

IN **Bankura district** the distress in the affected areas is generally unchanged. Prospects of standing crops are good. The harvesting of maize, *til* and paddy crops continues. The relief measures are adequate. The condition of people on the relief works is generally good. Advances are being made to weavers. Cloths are being distributed to indigent persons. The prices have slightly risen. The price of rice was 8½ seers per rupee. The number of persons on the relief works was 11,805 and in receipt of gratuitous relief, 20,083, total 31,888. The gradual increase in the number of persons on the relief works was due to small demand for labour owing to the completion of transplantation. One thousand eight hundred and seventy-eight persons were relieved on private works.

DARJEELING, *the 13th September 1916.*

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 18th September 1916.

Summary.—During the week under review, the rainfall has been generally moderate throughout the province except in parts of the Rajshahi Division where the fall has been slightly excessive. Transplantation of winter rice is still going on in places, and weeding is proceeding briskly. Harvesting of autumn rice has been nearly finished in the eastern and northern districts and is still going on in some places in the western districts. Cutting, steeping and washing of jute are going on briskly throughout the province. Cattle-disease is reported to be prevalent in four districts only. Fodder is reported to be scarce in parts of Jessore. The average price of common rice for the province is almost stationary, with a slight tendency to rise, as compared with that of the previous week.

No. 2029S.R.—The 19th September 1916.—In exercise of the powers delegated by the Government of India, under section 38 of the Indian Income-tax Act, 1886 (II of 1886), by their notification in the Finance Department, No. 723F., dated the 16th May 1916, the Governor in Council is pleased to make the following rules prescribing the procedure to be followed on applications for refund of the tax chargeable under the said Act.

J. DONALD,
Secy. to the Govt. of Bengal.

INCOME-TAX REFUND RULES.

I.—Promissory notes, debentures, stock or other securities of the Government of India.

1. (*1*) In the case of a promissory note, debenture, stock or other security of the Government of India, the owner of the security claiming total exemption from taxation, abatement or a refund, shall present to the Collector an application in Form I, truly stating therein his income from all sources (including agriculture) in the income-tax year last preceding that in which the interest is to be or has been drawn, and the declaration contained in the form duly signed by him before the Collector or any officer appointed in this behalf or attested by a Justice of the Peace or a Magistrate.

(*2*) The securities of the Government of India held by him shall also be shown in detail in Form II.

2. On receipt of the application the Collector may, after making such enquiries as he may deem necessary in order to ascertain the total income of the applicant, issue a certificate in Form C (1), if he is satisfied that the applicant is liable to tax at less than one anna in the rupee or entitled to exemption, as the case may be.

3. The applicant or a person duly authorized by him in this behalf shall receive the certificate from the Collector, which may then be presented to the Bank for the purpose of drawing interest and obtaining the abatement or refund due (if any).

4. Subject to the provisions of section 39 A of the Act, applications for refunds may be made annually or half-yearly according to the convenience of security-holders. No claim for refund can be made after the lapse of one year from the end of the year to which the claim relates.

II.—Debenture or other securities for money issued by or on behalf of a local authority or a company.

5. (*1*) In the case of a debenture or other security for money issued by or on behalf of a local authority or company, the owner of the security claiming a refund shall present to the Collector an application in Form I, together with details of his securities shown in Form II. The Collector may, after making the necessary enquiries regarding the applicant's sources of income, and after verifying from his own records that the tax has been paid into the treasury, issue a refund order in Form EE if he is satisfied that the applicant is entitled to a refund.

(*2*) The applicant or a person duly authorized by him to receive the refund on his behalf may present the certificate (order of refund) at the treasury and obtain the amount due.

(*3*) The Treasury Officer shall show the amounts so refunded in his daily advice list sent to the Collector.

(*4*) Subject to the provisions of section 39A of the Act, applications for refunds may be made annually or half-yearly, according to the convenience of security-holders. No claim for refund can be made after the lapse of one year from the end of the year to which the claim relates.

III.—Dividends paid to shareholders out of the profits of the companies taxable under Part II.

6. A person claiming a refund in respect of a dividend paid to him out of the profits of a company shall present to the Collector an application in Form I, showing all particulars regarding his shares and dividends in Form II and shall also forward the counterpart of the dividend warrant issued by the managing agent of the company or other proof by way

of a certificate issued by the managing agent, showing the number of shares he holds in the company and the total amount of dividend paid to him and the period for which such dividend has been paid. The Collector may, after making necessary enquiries as to the total income of the applicant, issue a certificate of refund on the treasury in Form EE, if he is satisfied that the applicant is liable to tax at less than one anna in the rupee.

7. Refunds shall be admissible only in respect of dividends paid out of the profits of a company on which tax has been realized.

IV.—General rules applicable to all refunds.

8. (*1*) A refund shall not be paid, except at the place where the tax in respect of which the refund is claimed has been received.

(*2*) If any person claiming a refund is not a resident of the place where the tax has been received, he may apply to the Collector of the place where he resides or carries on his business for a certificate in Form III showing his income from all sources and send it, together with a declaration in Form I and a statement of all particulars regarding his securities and shares in Form II, to the Collector of the place where the tax has been received and who is empowered to grant the refund, and on receipt of such certificate and application the latter officer shall proceed as prescribed in the foregoing rules.

9. When a declaration of income in Form I has been received, the Collector may issue certificates in Form EE at any time during the financial year in which such declaration has been received without requiring a fresh declaration of income.

10. The Collector shall keep on record all applications in Form I received by him and copies of certificates of refund in Form EE issued by him for a period of five years from the end of the financial year in which such applications have been received.

11. Refunds may, if so desired by an applicant, be remitted by post at his cost.

FORM I.

[SEE RULES 1, 5, 6 AND 9(1).]

ALTERATION OF IMPROVEMENT SCHEME No. I (SURTIBAGAN).

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above scheme so as to make Tarachand Dutt Street 84 feet wide instead of 45 feet wide for a length of about 440 feet east of Chitpore Road. This will involve the acquisition of the following additional properties:—

Chitpore Road, Lower	...	63, 64, 64/1, 64/2, 65, 65/7, 65/8.
Ram Prosad Shah Lane	...	6, 7, 9, 10, 23/1, 24, 25, 27.
Tarachand Dutt Street	...	45, 48 and 49.

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours.

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite Tarachand Dutt Street. The branch road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No. IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82, Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No. IV had been adopted.

The estimated cost of the proposed alteration is—

Land Gross	...	...	...	...	4¾ lakhs.
Recovery	...	...	...	...	4¼ „
Net	...	...	...	...	½ lakh.

The Engineering estimate is Rs. 55,847, being Rs. 26,867 in excess of the original estimate already sanctioned

ALTERATION OF IMPROVEMENT SCHEME No. IA.

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above Scheme so as to make the Road 84 feet wide instead of 40 feet wide. This will involve the acquisition of the following additional properties:—

Kasi Nath Mullick Lane.

Nos. 5, 5/1, 17, 17/1, 17/1/1 (portion), 18, 19, and 20, 20/1, 20/2, 20/3, 20/4 and 21 (portion).

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours.

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite Tarachand Dutt Street. The Branch Road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No. IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82, Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No IV had been adopted.

The estimated cost of acquiring the additional land is—

Gross	...	...	...	... 6¼ lakhs.
Net	...	...	...	... ½ lakh.

The Engineering estimates amount to Rs. 32,655 against Rs. 11,179, the estimated cost of the narrower Road.

OFFICE MEMORANDUM BY THE INSPECTOR OF SCHOOLS, BURDWAN DIVISION.

University Matriculation Examination, 1917.

PRIVATE STUDENTS.

1. Private students are those who have not attended any recognized or unrecognized High English schools for at least one year previous to the examination. The term "private students" includes school-masters.

2. Private students must appear at the Test Examination to be held on Monday, the 18th December 1916, and the following days at the Hooghly Collegiate School.

Each private student will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 9th November 1916, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstances will the admission fee be refunded.* No private student will be admitted to the Test Examination unless he is accompanied, for the purpose of identification, by some person known in the office of the Inspector of Schools, Burdwan Division.

3. Applications must be submitted through the head-master of the school in which the applicant last read. The head-master, in forwarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The application of no candidate is to be forwarded who did not leave school from the first class, or who had not been declared fit for promotion to that

class. The information to be given and the documents to be appended (in original) are the following:—

(*a*) The name of the school in which the candidate last studied.

(*b*) The transfer certificate (in original) granted to the candidate by the head-master of the school in which he last read; or

(*c*) In the case of a candidate who previously appeared at the Entrance Examination, the Registrar's receipt (in original) for the fee paid.

(*d*) The age of the candidate is not required in cases (*b*) and (*c*). No candidate who has not completed the age of sixteen years on the first day of the Matriculation Examination is eligible.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary or proprietor of the school in which the candidate is serving.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1916. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(*g*) The names of subjects in which the candidate wishes to be examined.

4. *The fee for the Matriculation Examination has NOT to be sent to this office.* It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

5. The address of each private student should be supplied to this office.

6. The Matriculation Examination in 1917 will be held on the 1st March 1917 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 17th January 1917.

T. O. D. DUNN,
Inspector of Schools, Burdwan Division.

CHINSURA,
The 4th September 1916.

Intermediate and B. A. Examinations.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* masters of English schools, who have served as such for the full period of three academical years preceding the examination, will be admitted to the abovementioned examinations.

2. Candidates for the Intermediate and B. A. Examinations must produce certificates of character and length of service from the secretaries of their respective schools. Candidates for the B. A. Examination must forward with their applications their F. A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B. A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required under section 9, chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 12th January 1917, together with other papers as mentioned in rules 2 and 3, after which no application will be received.

5. The Intermediate Examination of 1917 will be held on the 12th March 1917 and following days. The B. A. Examination of 1917 will be held on the 22nd March 1917 and following days. The applications and fees for admission to the Intermediate Examination must reach the office of the Registrar on or before the 26th January 1917, and those for the B. A. Examination on or before the 6th February 1917.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, Dacca Section, in the district of Mymensingh, will be put up to sale, on 30th October 1916.

The purchasers of the several plots of land will be subject to the following conditions :—

1st—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

2nd—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th—The plots of land will be sold revenue-free to the highest bidders.

5th—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

STARRED QUESTIONS.

Municipal Administration of Howrah.

By the Hon'ble MR. J. MACKENZIE :—

* 1. (*a*) Has the attention of Government been drawn to the insanitary condition of Howrah, also to the inadequacy of water-supply and the defective state of roads in that town?

(*b*) Are the Government aware that there is a definite opinion prevailing among the public that the municipal administration of Howrah is far from satisfactory?

(*c*) Are the Government considering the advisability of instituting an inquiry into the working of the Howrah municipal administration?

(*d*) Have the Government under consideration any scheme to annex Howrah to Calcutta and to place its affairs under the management of the Calcutta Corporation?

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—

(*a*) The answer is in the affirmative. Owing to the war and the impossibility of obtaining loans, the Commissioners have had to postpone all capital expenditure except that to which they were actually committed, and various projects for the sanitary improvement of the town have had to be kept in abeyance. It is anticipated that, as soon as normal financial conditions are restored, systematic action will be taken to remove the defects referred to by the Hon'ble Member.

(*b*) Government have no information on the subject.

(*c*) & (*d*) The answer is in the negative."

By the Hon'ble BABU AMBIKA CHARAN MAZUMDAR :—

Municipal disenfranchisement of certain graduates under the Bengal Municipal Act.

* 2. (*a*) Did the Government issue a circular (Municipal Department No. 11 M.), dated the 24th February, 1916, based upon an opinion of the late Advocate-General of Bengal, which has the effect of disenfranchising certain graduates and undergraduates living with their parents or guardians in a holding within a municipal town in respect of which the requisite rates are not paid by such graduates and undergraduates but by their parents or guardians?

(*b*) Are the Government aware that the general opinion is that the interpretation given by the Advocate-General to clause (*iii*) of the proviso to section 15 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), as regards such graduates and undergraduates is inconsistent with the express provision of the law and the spirit of the policy of Government which made this special provision in favour of the educated community?

(*c*) Does the circular in question apply to all such graduates and undergraduates, who may be living with their parents or guardians or simply to such of them as may be students *in statu pupilari* only?

(*d*) How does the opinion of the Advocate-General differentiate the cases of the medical licentiates, pleaders, mukhtears and revenue agents mentioned in the same clause (*iii*) of the proviso to section 15? And how does the circular distinguish the case of a third-year or fourth-year student of a college from that of an I.A. or I.Sc., who has given up his studies and is living with his parents or guardian without settling down in life?

(*e*) Are the Government aware of the public feeling that exists that the circular is not clear and that it is inconsistent with both the letter and the spirit of the law?

(*f*) Are the Government considering the desirability of reconsidering this circular with a view either to withdraw or modify it?

Answer by the Hon'ble MR. DONALD :—

" (*a*), (*c*) & (*d*) A copy of the circular referred to by the Hon'ble Member is laid on the table.

(*b*), (*e*) & (*f*) The answer is in the negative."

Circular referred to in the answer by the Hon'ble MR. DONALD *to question No. 2 (starred) asked by the* Hon'ble BABU AMBIKA CHARAN MAZUMDAR *at the Council Meeting of the 4th September, 1916.*

Circular No. 11M., dated Calcutta, the 24th February 1916.

From—THE HON'BLE MR. K. C. DE, C.I.E., I.C.S., Offg. Secretary to the Government of Bengal, Municipal Department,

To—All Commissioners of Divisions.

THE attention of Government has recently been drawn to the fact that some students in *statu pupilari* vote at municipal elections on an incorrect

Questions and Answers.

construction of section 15 of the Bengal Municipal Act, 1884. The legal position is this: Under sections 14 and 15 of the Act a student who has passed the Intermediate or any higher examination of an Indian University. and who has attained 21 years of age. is entitled to vote, provided—

(*a*) that he has been resident within the limits of the municipality for not less than 12 months immediately preceding the election, and

(*b*) that he occupies a holding or part of a holding in respect of which there have been paid during the year aforesaid certain prescribed rates and taxes, although he may not have paid them himself.

A superficial examination may lead to the inference that the requisite qualification as occupier of a holding or a part thereof would be conferred on a person otherwise entitled to the franchise on the grounds specified if he lives with his parents or guardians in the house of such parents or guardians or in a hostel or mess, when the specified rates have been paid in respect of the tenement in which he resides, even though the payment has not been made by himself.

The Hon'ble the Advocate-General of Bengal, who was consulted by Government on the subject, has expressed the opinion that a student living with his parents or guardians, who does not pay for the rooms or portion of rooms in which he lives, and has no right to the exclusive occupation of the premises, any room or a portion of a room, but is merely allowed to live there, does not "occupy" a holding or part of a holding within the meaning of section 15, proviso (*iii*) of the Bengal Municipal Act, III (B.C.) of 1884, as amended by Act II (B. C.) of 1896. As regards a student who lives in a hostel, in which he resides during terms only and has no right to reside during vacations, he cannot be said to occupy the holding or part of the holding within the meaning of the provisions cited. Moreover, the condition of residence within the municipality for the twelve months preceding will be infringed ordinarily in such a case. Government are further advised that having regard to the University Regulations, although the control over hostels is stricter than that over messes, the control in the latter case also is sufficient to negative legal occupation required by the law as an essential qualification of a municipal voter. It is thus apparent that students who reside either in a mess or in a hostel, or live with their parents or guardians in the houses of such parents or guardians, are not entitled to vote at municipal elections under the existing law.

I am therefore to suggest that the above interpretation of the law may be communicated to municipalities in your division. with a request that they may correct their voters' lists accordingly.

By the Hon'ble BABU AMBIKA CHARAN MAZUMDAR :—

Internments under the Defence of India Act.

* 3. (*a*) Will the Government be pleased to state whether, in the case of persons interned under the Defence of India Act, it is the practice to inform the accused person of the nature of the charge brought against him so that he may be given an opportunity to meet the charge before an order of internment is passed?

(*b*) Will the Government be pleased to enunciate the principle in accordance with which the allowances of interned persons are determined?

(*c*) Have the Government received any complaints from interned persons that their allowances are insufficient?

(*d*) If so, what action (if any) has been taken in each case to remedy the grievance complained of?

(*e*) Is any provision made for the families of interned persons as is done in the cases of persons deported under Bengal Regulation III of 1818?

(*f*) If not, will the Government be pleased to explain the reason for the difference of treatment accorded in the case of interned persons?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

" (*a*) In the case of each suspect who is interned under the Defence of India Rules he is informed generally as to the allegations made against him, and is asked to state what he has to say in answer to them.

(*b*) All persons whose movements are restrained in Bengal and who are unable in consequence of the orders to maintain themselves, receive allowances from Government to enable them to obtain an ample supply of the food and other necessaries to which they are accustomed in their own homes. They are also, when domiciled away from their homes, provided with free accommodation at the cost of Government, and with their travelling expenses to their place of detention.

(*c*) & (*d*) Several complaints have been received; and have been made the subject of inquiry. If any complaint is found frivolous, it is rejected. When reasonable grounds are shown that the allowance is insufficient, it is increased.

(*e*) & (*f*) The policy adopted by Government is that they are prepared in each case to consider what the previous earnings of a *détenu* were and what resources are left to the family. When the absence of the *détenu* has rendered his family unable to obtain the necessaries of life, Government are prepared to consider the question of contributing to the maintenance of the family."

By the Hon'ble KUMAR SHIB SHEKHARESWAR RAY :—

Alleged grievances of Rajshahi in the matter of appointments in the Provincial Judicial Service.

* 4. (*a*) Is it a fact that the appointments in the Provincial Judicial Service are made exclusively by the High Court?

(*b*) Is it a fact that the appointments in the above Service held by the inhabitants of the Rajshahi Division do not exceed four per cent. of the total strength?

(*c*) Is it a fact that na appointment in the above Service is held by the inhabitants of the districts of Rajshahi, Dinajpur, Rangpur or Malda?

(*d*) If the answers to clauses (*b*) and (*c*) are in the affirmative, will the Government be pleased to state what steps (if any) are being taken by them to remove the grievances of the inhabitants of the Rajshahi Division in this respect?

Answer by the Hon'ble MR. KERR :—

" (*a*) The Hon'ble Member is referred to section 7 of the Bengal, Agra and Assam Civil Courts Act, 1887 (XII of 1887), which provides that the Local Government shall appoint such persons to vacancies in the Provincial Judicial Service as may be nominated by the High Court.

(*b*) The answer is in the affirmative.

(*c*) One officiating Munsif, whose home is in Dinajpur, has recently been appointed. No persons belonging to the other districts hold appointments in the Provincial Judicial Service.

(*d*) Recruitment for the Provincial Judicial Service could not conveniently be made on a divisional basis, and Government are unable to interfere with the discretion of the High Court in the matter. This question and answer will, however, be brought to the notice of the High Court."

By the Hon'ble KUMAR SHIB SHEKHARESWAR RAY :—

Recovery of rent under section 158A of the Bengal Tenancy Act.

* 5. (*a*) Will the Government be pleased to state the total area, and gross rental, of estates in respect of which a record-of-rights has been prepared and finally published, and such record is maintained for the purposes of making the proprietors of such estates eligible to apply under section 158 A of the Bengal Tenancy Act of 1885 (Act VIII of 1885) for recovery of rents?

(*b*) What steps, if any, have been taken by the Government to encourage the zamindars to apply under section 158 A for recovery of rents in the above area?

(*c*) Has any application been made to the Government for recovery of rent under section 158 A? If so, with what results?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

"(*a*) Government are advised that for the purpose of section 158 A of the Bengal Tenancy Act the "maintenance" of a record-of-rights means the revision of that record, either annually or periodically, by Revenue Officers working under the supervision of Government. In this sense, the record-of-rights is not being "maintained" in any private estate in this province.

(*b*) It is open to any zamindar to apply for the introduction of section 158 A in his estate, but Government cannot take any special steps either to encourage or to discourage such applications.

(*c*) Several applications have been received by Government, but have been rejected owing to the absence of a scheme for maintenance such as is explained in clause (*a*) above. In a recent case, however, the Nawab Bahadur of Murshidabad has made an application in which he has undertaken to bear the cost of initial revision as well as the cost of subsequent maintenance in his Fateh Sing estate. The initial revision is now in progress. It is hoped that a satisfactory scheme of maintenance will soon be sanctioned and that the first experiment will be made in the working of section 158 A."

By the Hon'ble KUMAR SHIB SHEKHARESWAR RAY :—

Education of minors who are under the management of the Court of Wards.

* 6. Will the Government be pleased to state the names and ages of the minor wards under the management of the Court of Wards, and also the names of the institutions where they are being educated and what progress in education has been made by them?

Answer by the Hon'ble MR. KERR :—

"A statement showing the names and ages of the minor wards is laid on the table. As regards the progress of their education, the Hon'ble Member is referred to the paragraph on this subject which appears every year in the Board's report on wards' estates."

Statement referred to in the Answer by the Hon'ble MR. KERR *to Question No. 6 (starred) asked by the* Hon'ble KUMAR SHIB SHEKHARESWAR RAY *at the Council Meeting of the 4th September, 1916, showing the names and ages of the minor wards.*

Cost of settlement operations in Rajshahi.

* 8. (*a*) Is it a fact that the cost of settlement operations in the district of Rajshahi, under various heads, is much in excess of that in the districts of Mymensingh, Dacca and Midnapore?

(*b*) If so, will the Government be pleased to state what steps, if any, have been taken by them to check the apparent excessive expenditure in Rajshahi?

Answer by the Hon'ble MR. KERR :—

" (*a*) The cost of settlement operations per square mile in Rajshahi district is expected to be higher than in Mymensingh and Midnapore and lower than in Dacca.

(*b*) Variations in the cost of settlement operations depend chiefly on the number of plots and the number of interests per square mile and on the extent of coparcenary among the owners of the various interests. In view of the conditions prevailing in Rajshahi district Government do not consider the estimated cost excessive. Government are satisfied that the Director of Land Records and the Settlement Officer have due regard to economy and Government do not propose to take any special measures in Rajshahi district."

By the Hon'ble KUMAR SHIB SHEKHARESWAR RAY :—

Excess recording of *khatians* in the district of Rajshahi.

* 9. (*a*) Is it a fact that the number of *khatians* recorded in the name of the Government in the district of Rajshahi is proportionately far in excess of that in any other district undergoing settlement operations?

(*b*) If so, will the Government be pleased to state the cause of this excess in Rajshahi?

Answer by the Hon'ble MR. KERR :—

" (*a*) Government are not prepared to compile the statistics which would be necessary in order to give a reply to this question on the ground that their utility would not be commensurate with the labour thereby involved.

(*b*) If the *khatians* recorded in the name of Government are numerous in Rajshahi the reason is that the interests of Government are numerous."

Infantile mortality in Calcutta and suburbs.

* 10. (*a*) Will the Government be pleased to lay on the table a statement showing the general birth-rate and death-rate, and also the rate of infantile mortality in the town of Calcutta for the last five years?

(*b*) What are the corresponding figures—

(i) for Howrah;
(ii) for Cossipur-Chitpur, Maniktolla and other suburban areas; and
(iii) for the rest of the Province?

(*c*) What are the causes to which this abnormal infantile mortality in Calcutta is ordinarily ascribed?

(*d*) Are the Government considering the desirability of appointing a committee of experts, both officials and non-officials, to investigate the matter.

Answer by the Hon'ble MR. DONALD :—

" (*a*) & (*b*) A statement is laid on the table.

(*c*) The chief causes of infantile mortality in Calcutta are, respiratory diseases, debility at birth, premature birth and tetanus neonatorum. For a full analysis of the causes the Hon'ble Member is referred to the annual reports of the Health Department of the Calcutta Corporation.

(*d*) The answer is in the negative."

Sanitary improvement in the suburbs of Calcutta.

* 12. (*a*) Has any general scheme for improving the drainage of the suburban areas round Calcutta and also for the supply of filtered water to the residents of these areas been prepared?

(*b*) If no general scheme has been prepared, has any scheme for any particular area been prepared or is any such scheme under preparation?

(*c*) If so, is the execution of such scheme to be taken up at an early date?

(*d*) If no scheme is ready, or in contemplation, will the Government kindly state what recommendations for the supply of pure drinking water to these areas have been made by the Sanitary Conference that met at Darjeeling in the year 1913 and what effect has been given to them?

(*e*) Will the Government be pleased to state what steps have been taken to improve the sanitary condition of the above areas during the last five years?

Answer by the Hon'ble MR. DONALD :—

"(*a*) No general scheme of improvement of the drainage of the suburban areas outside the Calcutta municipal boundary has been prepared.

A general scheme for the water-supply of the Municipalities between Calcutta and Kanchrapara has been prepared and is under the consideration of Government.

Questions and Answers.

(*b*) The following schemes have been prepared for particular areas :—

Water-supply.

Garden Reach	...	... (Improvement) sketch project.

Sewerage and Drainage.

Manicktollah	...	... Sketch project.
Cossipur-Chitpur	...	... Sketch project with details for certain areas.

Regulation of traffic in Calcutta streets.

* 13. (*a*) Are the Government aware that great inconvenience is caused to the public for want of proper traffic regulation in some of the crowded thoroughfares in the town of Calcutta, specially in the area bounded on the north by Sova Bazar Street, on the south by Harrison Road, on the west by Strand Road and on the east by Chitpur Road?

(*b*) What steps (if any) have the Government in contemplation to remove the inconvenience complained of?

Answer by the Hon'ble MR. KERR :—

" (*a*) & (*b*) Government are aware that the staff at the disposal of the Commissioner of Police is inadequate to secure a completely satisfactory regulation of the traffic in the Northern part of Calcutta. The Commissioner of Police is now working out a scheme for an increase in the Traffic Police establishment, and additions will be made to the staff as soon as financial conditions permit."

(*b*) What steps (if any) are the Government taking in this matter?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

"(a) & (b) The question of the stabling of carts and bullocks in the Barabazar and Jorabagan sections has for some time been under the consideration of the Commissioner of Police in consultation with the Corporation and the Port Commissioners. Pending a final settlement, instructions have been issued to the patrol police to prevent the inconvenience and obstruction to traffic so far as possible."

(b) Is the person reported against offered an opportunity of giving an explanation of the charges made against him?

(c) In suspected cases, is a previous warning issued to parents or guardians?

(d) In cases, where the bread-winner of the family is interned, is any provision made by Government for the maintenance of the family?

Answer by the Hon'ble MR. KERR :—

"(a) Full inquiries are made in the case of each suspect by gazetted police officers. The order of internment is passed under the authority of Government, over the signature of a Secretary to Government.

(b) The reply is in the affirmative.

(c) The reply is in the negative.

(d) Whenever applications are received, they are examined. The policy followed by Government is to consider in each case what the earnings of a *détenu* were and what resources are left to the family. When the absence of the *détenu* has rendered his family unable to obtain the necessaries of life, Government are prepared to consider the question of contributing to the maintenance of the family."

Strike of students in the Sibpur Engineering College

* 16. (a) Will the Government be pleased to lay on the table a statement detailing the circumstances which led to the recent strike of students in the Sibpur Engineering College and the order of expulsion passed upon them by the College authorities?

(b) Are the Government considering the desirability of appointing a committee to inquire into the matter?

Answer by the Hon'ble MR. HORNELL :—

"(a) The Hon'ble Member is referred to the communication made by the Principal of the College to the Press on the 27th July last. A copy of that communication is laid on the table.

(b) The answer is in the negative."

Communication referred to in the answer by the Hon'ble MR. HORNELL *to Question No. 16 (starred) asked by the* Hon'ble RAI RADHA CHARAN PAL BAHADUR *at the Council meeting of the 4th September, 1916.*

Owing to a general strike of students in the Engineering and Apprentice Departments of the Sibpur Civil Engineering College, the College has been practically closed. There are 73 students on the roll in the Civil Engineering Department, of whom three are Europeans and one Muhammadan, who have not joined the strike. In the Apprentice Department, the students number 160, of whom 40 are Europeans and Muhammadans, who have held aloof from the strike.

Questions and Answers.

The trouble started on Saturday, the 22nd July, when Babu Surendra Nath Dass, Lecturer in Su-veying and Superintendent of the Hindu Students' Mess, informed Mr. B. Heaton, Principal of the College, that while he was out paying surprise visits to the students' quarters he was pelted with stones. The Superintendent, it is reported, on calling the roll, found that four students were missing from their seats, though they had not left the barracks. On Sunday morning the four students in question were informed that they had been rusticated for the remainder of the session, and were ordered to leave the College compound by the same evening. The four students were each given ten rupees, and left the College at noon. On Sunday afternoon the remaining Hindu students in the Engineering and Apprentice Departments put in a petition to the Principal, protesting against the order of explusion, from which the following extracts are taken :—

> "We, the students of the Apprentice and Engineering Departments, beg most respectfully to place before you the following facts for your favourable consideration. It appears that four students of the Apprentice Department have been rusticated for this session owing, it is alleged, to their absence at the surprise roll-call at 2 A.M. on July 21.
>
> It will be clear from what is stated below that under the circumstances they were in no way guilty and did not deserve the punishment awarded to them.
>
> Narendra Lal Guha Ray, one of the four students, had gone out of the room for a few minutes before the Superintendent visited it, and came back within a few minutes of his leaving. He was suffering from dysentery.
>
> Profulla Kumar Das Gupta had gone to witness the dramatic rehearsal, and slept in the library room where he was found by the Superintendent. The students never dreamt that they were going against rules as they were keeping within the barracks.
>
> Debendranath Chatterji had gone to bed at 11 P.M., as usual and got up a few minutes before the Superintendent visited his room.
>
> Susthri Kumar Bose attended the dramatic rehearsal, and after reciting his part, slept in the rehearsal room.
>
> We have laid out the case before you and beg to point out that none of the four students was given any chance of meeting the charge against him.
>
> Our firm conviction is that the students are innocent and that you will be pleased to consider their case not merely from the Superintendent's point of view. We consider you as our guardian, and so we have approached you with the application.
>
> The relations between the Superintendent and the students are not very cordial, and he is trying his level best to punish the students for the most trifling of offences. He is given to threatening students with punishment in season and out of season."

The same night the Principal intimated to the students, through the Superintendent, that he might reconsider the case if the names if the culprits who actually threw the stones were made known to him. but on Monday morning the monitors informed the Superintendent that the students had been unable to find the alleged culprits, and being thus unable to comply with the Principal's suggestion they had declared a general strike. The following orders were then issued by the Principal :—

> "The third and fourth year engineers and those of the second year engineers who are exempted from the smith shop test must leave the barrack at once.

Questions and Answers.

"Those students of the Apprentice and first and second year Engineering Departments who do not join the works at 8 A.M. to-morrow will cease to be members of this College."

The following notice was issued on the 25th July :—

"No meals will be served in the Hindu students' mess after mid-day to-day without my permission."

B. HEATON,
Principal.

The Governing Body of the College met on the 25th July at Writers' Buildings and subsequently the following notices were issued :—

"The Governing Body view with grave disfavour the action of the Hindu students in abstaining in a body from classes and shops and in disobeying the Principal's orders.

They order that no readmissions be made to the College before November 1916, and then only with their permission. Individual applications addressed to the Secretary of the Governing Body at the Civil Engineering College will be received at any time from the guardians of the students desiring readmission. In deciding such applications their present and future behaviour will be taken into account.

Scholarships and reduced fee-ships are forfeited."

B. HEATON,
Secretary, Governing Body.

Students will be informed by letter what refund will be given to each after deducting all College dues and laboratory and other breakages.

Those that leave to-day (Tuesday) will be granted a refund of the balance of their July mess and for August and September.

Students that live in Calcutta and neighbourhood must leave as directed.

I await applications from those living at a distance for permission to remain.

B. HEATON,
Principal.

Most of the students referred to left Calcutta for their homes on Tuesday afternoon.

Passenger traffic between Sara and Ishurdi.

* 18. With reference to the reply given to my Question No. II (unstarred) at the Council Meeting of the 7th August last, will the Government be pleased to state whether they are considering the desirability of utilizing the existing line between Sara and Ishurdi for passenger traffic, in addition to the goods traffic which is already going on?

Answer by the Hon'ble MR. GREEN :—

"It has been ascertained that at present the Steamer Companies are unable to establish a regular steamer service between Rampore-Boalia and Sara, owing to a large number of their steamers having been taken for Government service in connection with the war. It would, therefore, be useless at present to establish a train service for passengers between Sara and Ishurdi. Both the Steamer Companies and the Eastern Bengal Railway will be willing to consider the proposal favourably as soon as normal conditions are restored."

Railway communication in Pabna.

* 19. With reference to the reply given to my Question No. III (unstarred) at the Council Meeting of the 7th August last, will the Government be pleased to state whether it is not a fact that a line has already been sanctioned which will pass through Pabna, and, if so, is there any chance of its being completed in the near future?

Answer by the Hon'ble MR. GREEN :—

"The Railway Board have sanctioned a detailed survey being carried out by the Eastern Bengal Railway for a line of railway from Ishurdi on the Eastern Bengal Railway to Sadhuganj *via* Pabna. The final decision of the Railway Board is awaited."

Famine in Bankura

IV. (*a*) Will the Government be pleased to state the amount of money spent by Government on gratuitous relief, agricultural loans and test relief works in the present famine in the district of Bankura up to last June?

(*b*) Will the Government be pleased to state in how many unions the Government have opened relief works, what is the total population of these unions and how many persons are now employed on test works?

(*c*) Will the Government be pleased to state what is the nature of these test works, and what are the rates of wages given at these works?

(*d*) Will the Government be pleased to state whether the Government or the District Board dug any wells or tanks in the course of relief operations? If so, how many and in what places?

(*e*) Will the Government be pleased to state what are the classes of people most affected by the famine and what are their occupations, if any?

(*f*) Are the Government considering the desirability of introducing handicrafts, which are natural to the district, in places where they do not exist, as a second means of livelihood for the people?

(*g*) Will the Government be pleased to state whether there are any private organizations still engaged in relief work?

(*h*) Are the Government in a position to state the prospects of agriculture in Bankura this year?

Answer by the Hon'ble MR. KERR :—

"(*a*) The following expenditure has been incurred in Bankura district from the beginning of the period of distress until the end of June, 1916 :—

	Rs.
Gratuitous relief	2,64,000
Relief works	3,91,000
Loans under the Agriculturists Loans Act ...	8,34,777
Loans under the Land Improvement Loans Act ...	2,17,744

(*b*) Relief works were opened in 116 unions, the total population of these unions being 600,292. Eight thousand one hundred and seventy-one people were employed on relief works during the week ending August 19, 1916.

(*c*) The relief works consist mainly of the construction and repair of roads, and the construction and reconstruction of tanks and irrigation channels. The rates of wages are from 3 to 4 annas per 100 cubic feet for earthwork on roads according to the nature of the soil, and from 3 to 9 annas per 100 cubic feet for earthwork in tanks and channels according to the lead and lift.

(*d*) In the course of the relief operations 62 tanks have been excavated or re-excavated; 45 masonry wells and about 200 temporary wells have been

Questions and Answers.

sunk; and 32½ miles of irrigation channels have been constructed or reconstructed. These works were carried out partly by Government direct and partly by the District Board from Government grants. The works are situated in all parts of the district.

(*e*) The classes of people most affected by the famine are cultivators, weavers, agricultural labourers and beggars; also poor people who are not accustomed to manual labour or will not resort to relief works owing to caste prejudices.

(*f*) Government have not before them any proposal to introduce handicrafts in parts of Bankura where they do not exist. Weavers and other artisans are, however, being relieved in their own trades. Mr. Tindall's Committee has found continuous work for more than 2,000 families of weavers and has already obtained orders for their outturn to the extent of nearly a lakh of rupees. It is hoped that the weavers will profit in future by the new markets which have been opened to them.

(*g*) The following private organizations are still engaged in relief work:—

(1) Bankura Wesleyan College.
(2) Social Service League.
(3) Ram Krishna Mission.
(4) Bankura Sanmilani.
(5) Nursing Brotherhood.
(6) Marwari Samiti.
(7) Bama Mission.

(*h*) The agricultural prospects this year in Bankura are most satisfactory."

Alleged insanitary condition of Midnapore.

VI. (*a*) Are the Government aware that Midnapore was considered a sanatorium about twenty years ago and that for the last ten years the district has been subject to the ravages of cholera, malaria, small-pox, dysentery and other virulent diseases?

(*b*) What action (if any) are the Government taking to improve the sanitation of the town and the various subdivisions?

Answer by the Hon'ble MR. DONALD :—

" (*a*) A comparison of the death-rate for the years 1885 to 1895 with that for the years 1905 to 1915, details of which are laid on the table, tends to show that there has been an improvement in the health of the town of Midnapore. As regards the district of Midnapore, the mortality both in 1915 and in the preceding quinquennium was below the provincial average, while an increase of population was recorded at the census of 1911.

(*b*) No special action has been taken by Government, as the health of both the town and district compares favourably with that of many others. A water-supply scheme for the town has been under consideration for some time, and a drainage scheme has been prepared."

Amount spent on the construction of public buildings in Bengal.

By the Hon'ble MR. K. B. DUTT :—

VII. Is it a fact that Government have spent a large sum of money in the construction of public buildings in various districts in Bengal since August, 1914? If so, will the Government be pleased to state the amount spent?

Answer by the Hon'ble MR. GREEN :—

" A sum of Rs. 56,35,159 has been spent under the head ' Civil buildings, Original works,' from August, 1914, to end of June, 1916, the latest date up to which accounts have been completed. A large portion of this expenditure was incurred on works which were already in progress when the war began."

Lodgings for Munsifs in the subdivisions of Eastern Bengal.

By the Hon'ble MR. K. B. DUTT :—

VIII. Is it a fact that Munsifs find considerable difficulty in obtaining lodgings for themselves in the subdivisions of Eastern Bengal, and, if so, are the Government taking any steps to provide them with suitable lodgings as is done in the case of Subdivisional Officers?

Answer by the Hon'ble MR. KERR :—

" Government are aware that difficulty is experienced by Munsifs in securing suitable residences in many stations in Eastern Bengal as well as in other parts of the Province. For some years past, Government have been building quarters for Munsifs at places where they are unable to obtain

suitable houses. The number of quarters already built is 104, and a comprehensive building programme has been drawn up and is being carried out as rapidly as is possible with the funds available."

Organization of Union Committees

IX. Will the Government be pleased to state—

(*i*) What progress has been made to give effect to the report of the District Administration Committee of 1913-14 regarding the organization of Union Committees?

(*ii*) What steps have been taken by them to give effect to the recommendations of the Royal Commission upon Decentralization in India and the District Administration Committee regarding the duties and powers of these Union Panchayats with special reference to village sanitation?

Answer by the Hon'ble MR. DONALD:—

"(*i*) & (*ii*) The Hon'ble Member is referred to paragraph 1 of the Resolution of this Government, No. 2993 L.S.-G., dated the 29th December, 1915, reviewing the working of District Boards during the year 1914-15, and to the answer given to Question No. XXIV at the Council Meeting held on the 7th August, 1916.

X. Are the Government considering the desirability of asking the District Boards to explain their reasons for not utilising a substantial portion of the Public Works Cess transferred to them for the sanitation of villages and small towns, for the improvement of water-supply and for anti-malarial operations?

Answer by the Hon'ble MR. DONALD:—

"The question is engaging the attention of Government."

Sanitation in, and the proposed partition of, the Halisahar Municipality.

XI. (*a*) Will the Government be pleased to lay on the table a copy of the Sanitary Inspection Report of the Halisahar Municipality in the district of the 24-Parganas by Captain A. M. Jukes, M.D., D.P.H., I.M.S., Deputy Sanitary Commissioner, Presidency Circle?

(*b*) Are the Government contemplating the postponement of the partition of the said Municipality for the present?

Answer by the Hon'ble MR. DONALD:—

"(*a*) A copy is laid on the table.

(*b*) No proposals for the partition of the Municipality have been submitted to Government."

Questions and Answers.

Copy of the Sanitary Inspection Report referred to by the Hon'ble MR. DONALD *in his answer to question No. XI (unstarred) asked by the* Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR *at the Council Meeting of the 4th September, 1916.*

Sanitary Inspection Report of the Halishahar Municipality by the Deputy Sanitary Commissioner, Presidency Circle.

I VISITED Halishahar on 8th July 1914, and was met at the station by the Vice-Chairman and one of the Commissioners who both accompanied me throughout my inspection.

The municipality was last inspected by a Deputy Sanitary Commissioner about three years ago, and the report then written would only require amending in a few minor details to make it completely applicable to the condition of affairs as I found it in the course of my inspection. That report was on the whole adverse, and I regret to report that there has been little or no progress or improvement in the interval. It is difficult to say whether the blame for this can be attached to anyone or whether it is mainly due to adverse circumstances : I am inclined to think the truth probably lies between these two extremes. The town shows evidences of a past prosperity now departed ; there are many large *pucca* houses now falling into ruins and overgrown with jungle.

The inspection booklet had again been only very partially filled up before my arrival, thereby causing a good deal of waste of time in asking questions the answers to which should have been ready for me.

The area of the municipality is about 8 square miles.

The population is given as 13,423 of whom 5,052 are females, and 8,371 males, the disproportion being apparently due to the presence in the municipality of the Loco. and Carriage works of Eastern Bengal State Railway and the Naihati Jute Mill.

The income is given as Rs. 17,966 : this, however, is much larger than normal, and is accounted for by the Government acquiring a piece of land at a cost of Rs. 4,771.

The opening balance was Rs. 3,633.

The expenditure on sanitation is given as Rs. 5,985, accounted for as follows :—

	Rs.		Rs.
Road cleaning	2,315	Water-supply	220
Public latrines	256	Disposal of dead	8
Private „	2,970	Vaccination	104
Drainage	60	All other sanitary expenses ...	62

In addition to these sums Rs. 955 were contributed to the dispensary, and Rs. 4,230 were spent on road construction and repairs, which, if added to the previous items, makes a total of Rs. 11,170. The large expenditure on roads is accounted for by an annual contribution of about Rs. 500 to the District Board for the upkeep of certain roads within the municipality, and because in the year under review the municipality handed over to the District Board another road and paid a lump sum of Rs. 2,500 for its upkeep in future.

Roads.—There are 13 miles of metalled and 16 miles of unmetalled roads in the municipality. Those that I saw were in good order, with the exception of that leading south from Mondal Market which needed repairs badly.

Water-suply.—The paragraph relating to water-supply in the last sanitary report might be copied out verbatim here, and would be true in every detail. There has been no improvement or progress during the last three years, or as that report shows during the previous five years. Part of Ward I receives a filtered supply of water from the Naihati Jute Mill, part of Ward IV from the railway workshops, but the remainder of these

Questions and Answers.

two wards and the whole of Wards II and III depend on the river Hooghly, and perhaps some tanks. There is a reserved tank in Ward II, but it is practically unused, being too far from the inhabited portions of the town. If the scheme for the supply of filtered water to all the reparian municipalities comes into effect Halishahar will presumably be included in the scheme, so I do not now advise anything to be done which will involve a large expenditure. It is a pity, however, that the Commissioners have shown so little appreciation of the value of a good water-supply that they have taken no steps to carry out the recommendations made three years ago. Much may be done to improve the condition of many insanitary tanks, and notices should be served on their owners to compel them to keep them clean and free from weeds.

Drainage.—As one of the Commissioners said to me "the condition of the drains is deplorable." Some of the mill coolie-lines and parts of the railway property are provided with *pucca* drains; in the rest of the town drains are non-existent, or consist of irregular stretches of weed-choked ditches. Here again the remarks in the last report would apply almost without alteration. I understand that the whole municipality has been surveyed, and that a complete drainage scheme is under preparation in the Sanitary Engineer's office. From what I saw of the condition of the town, I much fear that the cost of this scheme will prove to be very great; if it does at first sight appear to be prohibitive, I hope the Commissioners will not on that account simply put it on one side as impossible. They should seriously consider whether some portion of it cannot be carried out, leaving the less important parts till a later date. Some of the *khals* into which the drainage is supposed to run need attention, but no doubt they will be dealt with in the Sanitary Engineer's scheme. The bottom of the culvert where the Komar Khal runs out to the river is higher than parts of the bed of the *khal* higher up. The Bager Khal also is said to have a very poor flow.

Conservancy.—Here again the last report would apply quite well now, with some important additions. There are still only two municipal latrines, both situated in Ward IV. One is masonry and apparently little used, presumably partly because it is in wet weather situated in the middle of a marsh, and partly because the railway septic tanks are at no great distance. In any case its pattern is bad. The other is situated in the neighbourhood of the municipal market, and the surroundings were kept by no means clean.

Near-by the railway authorities are erecting a new iron latrine. I cannot approve of its situation. It is being built on a *pucca* foundation which at this point forms one of the retaining walls of a large drain, which throughout most of its course is *kutcha* and through which there is a considerable flow of water. The temptation for mehtars to empty buckets into the drain will be great, and in any case washings and liquids are bound to find their way into the drain. Unfortunately building regulations are not in force in the municipality, so the Commissioners are helpless, and cannot take steps to have the latrine removed or to prevent the occurrence of similar events in future.

The Naihati Jute Mill has come to an arrangement with the municipality by which it pays no latrine-tax, but manages its own conservancy arrangements. I visited one of its coolie-lines which had obviously been built some years, but there was no latrine accommodation as far as I could see in these particular lines. There was plenty of jungle about, so presumably the coolies used the jungle instead. This is most unsatisfactory. I understand that the municipal authorities have recently acquired an iron latrine and propose to erect it close to these lines. This is about the only attempt they have made to carry out the recommendations made in the last report, viz., that latrines should be provided in Wards II and III, and even in this case the latrine is not yet in evidence. I also visited the mill trenching-ground; it was in a most unsatisfactory condition. There were a number of trenches of varying ages, all of which were full to the brim with night-soil, without any attempt having been made apparently to cover it with

Questions and Answers.

earth. I would suggest that the Municipal Overseer should inspect the mill trenching-ground at intervals of about a week, though not always on the same day, and should draw the attention of the Chairman to any irregularities. If the mill authorities cannot manage and supervise their conservancy arrangements satisfactorily, it would be much better that they should hand them over to the municipality, and pay latrine-fees in the ordinary way.

The municipality is divided into two circles for conservancy purposes, each of which has its own trenching-ground. One circle consists of Wards I and II, and the trenching-ground was in fairly good order, some of the trenches, however, had certainly been filled too full. Three inches of night-soil is ample in the wet weather in a trench 12 inches deep, and the other dimensions of the trench should be such that one cart-load will not fill the trench to a greater depth than 3 inches: it should then be immediately filled in with earth. The other trenching-ground for Circle II (Wards III and IV) was not in nearly such good order. There was a tiny patch of ground cleared in the middle of dense jungle, all the trenches had been filled far too full, and were breeding immense numbers of flies. It is quite time this plot was given up; some of the adjoining jungle should be cleared and trenching carried out on the cleared patch, the present plot being at the same time placed under cultivation. I was given to understand that a piece of land is leased for trenching and when it is used up a new site is leased, and the first one returned to the owner for cultivation. This may be the case in Circle I trenching-ground, as the neighbourhood is open and cultivable, but there is no evidence of cultivation at the Circle II trenching-ground, the whole place being densely covered with jungle.

Scavenging.—There are now a number of dustbins in various parts of the town, but there seemed to be still no system in the disposal of the rubbish collected. Rubbish seemed to be dumped down anywhere and everywhere, quite irrespective of whether there were hollows to be filled up or not, *e.g.*, I saw numerous collections of rubbish which had been dumped near the river side, though at some distance from the water's edge. It thus remained by the road side to breed flies. If rubbish is going to be disposed of by dumping into hollows some hollow should be selected which requires filling, and all rubbish should be deposited into this hollow till it is full, each day's rubbish being covered with earth or ashes, and a final layer of earth, if possible, or failing that, ashes should be placed over the whole. A commencement should then be made on another hollow.

Markets.—The remarks made three years ago still apply absolutely. The one *pucca* market, a private one near the jute mill, is quite a good building but is still very dirty, especially at the eastern end which, I understand, is used as a cowshed. The result is that the floor is covered with mud and filth. I had considerable difficulty in assuring myself that the market possessed drains at all, but I did at last find that there had been *pucca* drains which were completely filled and covered with mud and rubbish. The whole market and the drains should be cleaned and then kept clean by being thoroughly washed down with water after every market day. The remaining markets, three private and one municipal, all have *kutcha* floors; the latter has a corrugated-iron roof. No effort seems to have been made to improve the floors of any of these markets during the last eight years.

The Mondal Market, a private one, is *kutcha*, and the meat on sale was swarming with flies. Meat and fish sellers in all markets should be compelled to keep their wares covered with muslin if not with some more permanent protection. The hydrant close to this market was converting the adjoining land into a marsh. The waste water from hydrants should always be led, preferably by a *pucca* channel, into the nearest drain.

Disposal of dead.—There does not seem to be any regular burning ghât, but every bathing ghât is used for that purpose. It would be much better, if possible, to have one or more authorized burning ghâts, and arrange to have information given at the municipal office of all cremations. This

Questions and Answers.

would enable a check to be kept on the vital statistics. Some Muhammadans are said to bury their dead in their own compounds ; this custom should be strictly prohibited, and legal proceedings should be taken against any who break any regulations drawn up on the subject. The use of the authorized burial grounds should be insisted on.

Vital statistics.—The registration of births and deaths is almost certainly incomplete. I found a record of two children under one year old registered as deaths, of whose birth I could find no record during the previous twelve months' birth registers. In view of the large floating population, this does not necessarily indicate a failure to register in these particular instances, but the birth and death rates show that there must be many omissions. A death-rate of 24 per 1,000 and a birth-rate of 18 per 1,000 are far too low even taking into consideration the small proportion of females in the population. I should think the actual births and deaths approach much more nearly to about 27 and 30—35 per 1,000, respectively. Energetic steps should be taken to secure more accurate returns.

Jungle.—The whole town is overgrown with thick jungle except some of the less inhabited parts near the railway, and the more or less densely populated part near the railway works. Owners of land should be compelled, by legal methods, if necessary, to keep their property clear of jungle, and the Municipal Commissioners should set a good example both in regard to municipal and private property.

I was given to understand that the inhabitants of Bijpur, chiefly railway employés, are agitating to have Ward IV or part of it separated from the rest of the municipality, and formed into a new municipality. No doubt this would be better from their point of view, as they would then be comparatively wealthy, and with a very small area to be looked after. It would be very hard lines, however, on the rest of the municipality which would be left completely poverty-stricken and helpless. I am not at all sure that this separation would be wise step, especially as the present Commissioners from Ward IV do not seem to exercise much supervision over matters now within their jurisdiction, *e.g.*, in the matter of the trenching-ground in Circle II, the market latrine near the municipal market, and the unsatisfactory position of the new latrine being erected near-by, and there is no proof that they would work any better if they had a new municipality of their own.

Questions and Answers.

(*b*) If so, will the Government be pleased to state whether it has been modified in favour of students living with their guardians in private messes and boarding-houses?

Answer by the Hon'ble MR. HORNELL:—

"(*a*) The attention of Government has been drawn to Circular No. M-18, dated the 1st June, 1916. Government know nothing of a circular dated 1st July, 1916.

(*b*) The Government of Bengal have no status in the matter except in so far as Government Colleges are concerned and they have no knowledge as to whether or not any modification has been made."

Tramway accidents near schools.

XIV. (*a*) Are the Government aware of the facts relating to the death of a young student while crossing the tram-car lines near the Scottish Churches Collegiate School in Calcutta.

(*b*) Are the Government taking any steps with a view to regulate the speed of tram-cars while passing schools and colleges at the end of the school hours, and to place traffic-police constables at these places to prevent a recurrence of such accidents?

Answer by the Hon'ble MR. KERR:—

"(*a*) The Commissioner of Police reports that no incident of the kind occurred, but that on the 15th July a boy of 12 years of age was knocked down by a motor-car in Cornwallis Street and was caught on the guard of a tram-car which was passing at the time. The injuries received by the boy were slight and he has now completely recovered. The usual inquiry was held and showed that the occurrence was a pure accident. It did not take place in front of or near any school or college.

(*b*) Government do not think it necessary to take any action of the nature suggested."

Prevention of the adulteration of food.

XV. Will the Government be pleased to state what action they have taken to prevent adulteration of articles of human consumption, as referred to in the Annual Report of the Chemical Examiner's Department, Bengal, for 1915?

Answer by the Hon'ble MR. DONALD:—

"The question of the adequacy of the present provisions of the law to prevent the adulteration of food and drugs has been under the consideration of Government for some time. It is proposed to deal with the question, so far as municipal areas are concerned, when the Calcutta Municipal Act and the Bengal Municipal Act are amended. Health Officers and Sanitary Inspectors have been appointed in municipal towns, one of whose duties is the systematic inspection of food supplies. A copy of the revised rules on the subject is laid on the table."

Inundation of the Kadua math.

XVI. (*a*) Are the Government aware that the Kadua math, in the Amta basin, in the district of Howrah, which covers an area of about 112½ square miles, is under water almost every year?

(*b*) Are the Government aware that this results in a scarcity of crops in the locality?

(*c*) Is it a fact that this inundation is due to the silting-up of the Kana Damodar, the Banspati khal, the Poorana khal, Nabin Babu's khal and such other canals as used to drain the maths formerly?

(*d*) What action (if any) are the Government taking for the effective drainage of this tract of land?

Answer by the Hon'ble MR. GREEN :—

" (*a*) & (*b*) The area of the Amta drainage basin is estimated to cover about 128 square miles. It is understood that the Hon'ble Member refers specially to a portion of the central sub-basin. That sub-basin covers an area of about 67 square miles.

The Hon'ble Member is referred to sections (*i*) and (*ii*) of the answer given by the Hon'ble Mr. Finnimore to Question No. 12 asked by the Hon'ble Babu Mahendra Nath Ray at the meeting of this Council on the 13th January, 1914.

(*c*) The answer is in the affirmative.

(*d*) A scheme for the drainage of the Amta basin, including the area referred to by the Hon'ble Member, has been worked out and is estimated to cost Rs. 9,80,302.

(*b*) Is it a fact that the person was run over while crossing the railway lines to fetch water?

(*c*) Is it a fact that he was not able to get any water at the Krishnagar City station?

(*d*) Have Government caused an inquiry to be made into the matter by the local authorities?

(*e*) If so, will the Government be pleased to lay on the table the report showing the result of the investigation?

Questions and Answers.

Answer by the Hon'ble MR. GREEN :—

"(*a*) Yes. On 17th July, at Krishnagar City station, a woman named Sarup Bibi fell in front of a train and was seriously injured. Her husband, Ahmed Ali Malik, was killed by the train while trying to save her. The unfortunate woman was in an advanced state of pregnancy. She had never travelled in a train before. Seeing the engine, she became confused and fell in front of it.

(*b*) No.

(*c*) There is an ample supply of water on the platform where the woman was standing, and there is nothing except jungle on the other side of the line.

(*d*) An inquiry was held by the Railway authorities. A Deputy Magistrate, deputed by the District Magistrate, was present at the inquiry.

(*e*) A copy of the finding of the Committee of joint inquiry is laid on the table."

Finding of Committee of Joint inquiry referred to in the answer by the Hon'ble MR. GREEN *to question No. XVII* (*unstarred*) *asked by the* Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR *at the Council Meeting of the 4th September, 1916.*

WE, the undersigned, having carefully considered all the evidence, do find that the woman being in a delicate state of health and never having travelled in a train before that day became confused and giddy and fell off the platform immediately in front of engine and had her legs run over. Her husband jumped off the platform in the endeavour to save her and was run over and killed.

We find that this was a pure accident and that no one was to blame.

We find also that the driver had his train under proper control and that he could not have averted the accident.

"It will be found that there are altogether 745 students, and all of them are accounted for by the figures given. I think therefore it follows that all are living either with their parents or authorised guardians or in recognised hostels and messes."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My information is that the number is 1,127 and not 745, and I will therefore follow the matter up with a further question : Is it not a fact that there are at least 4 Muhammadan students living in a hide godown at No. 31, Upper Circular Road, and living in the midst of strangers?"

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA said :—

"I would ask for notice of that question."

Unrecognised High Schools in Bengal.

XXI. Will the Government be pleased to state, district by district,—

(*i*) the number of existing high schools which have failed to obtain recognition by the University, and

(*ii*) the reason or reasons for the refusing or withholding of such recognition?

Answer by the Hon'ble MR. HORNELL :—

"(*i*) As stated in the reply given to Question No. 3 in the Council Meeting of 6th March, 1916, there are 99 High schools in the districts of Bengal which are not recognized by the University. It is not known how many of these schools have actually applied to the University for recognition. Information is not at present available as to the number of such schools in each district.

(*ii*) The recognition of high schools is a matter which is altogether within the power of the University, and the Bengal Government have no information on the subject."

Primary education in Bengal.

XXII. (*a*) Is it a fact that two officers of the Education Department were deputed about two years ago by the Hon'ble the Director of Public Instruction to study the problem of primary education and to work out a complete scheme of primary education in Bengal?

(*b*) If so, will the Government be pleased to state what was the scheme recommended by them?

(*c*) Was that scheme approved by the Government?

(*d*) Will the Government be pleased to lay on the table the report submitted by the two officers?

(*e*) Was that report considered by a conference of the inspecting officers of the Presidency?

Questions and Answers.

(*f*) If so, will the Government be pleased to state what were the recommendations of the conference?

(*g*) Will the Government be pleased to lay on the table the report of the said conference, if any?

(*h*) Has any scheme been formulated by the Government with regard to primary education in Bengal, including a curriculum and syllabuses on the basis or in consequence of such report and recommendations (if any)?

(*i*) If so, will the Government be pleased to state the nature of the scheme and to lay on the table all such papers as may be sufficient to explain the scheme?

(*j*) Has any step been taken by the Government to give effect to such scheme?

Answer by the Hon'ble MR. HORNELL :—

" An officer of the Education Department was deputed by the Director of Public Instruction, Bengal, in the year 1915 to prepare a scheme for the reorganization of primary education in Bengal. This officer worked in combination with one of the Inspectors of Schools. The proposals made by these two officers were considered by a conference of educational officers in November, 1915. Their report and the proceedings of the conference are under the consideration of the Director of Public Instruction, Bengal, and have not yet been submitted to Government."

Lack of waiting rooms at Brahmanbaria station.

XXIII. (*a*) Are the Government aware that there is no waiting-room for the 1st and 2nd class passengers of Brahmanbaria station on the Assam-Bengal Railway line?

(*b*) Has the attention of the Government been drawn to the fact that *pardanashin* Indian ladies suffer great inconvenience for want of a waiting-room for them at the Brahmanbaria station?

(*c*) Are the Government aware that the attention of the Railway authorities has repeatedly been drawn to these matters but without any effect?

(*d*) What steps (if any) are the Government taking to remove the grievances complained of?

Answer by the Hon'ble MR. GREEN :—

" (*a*) Yes.

(*b*) & (*c*) The question was considered by the Railway authorities in 1913, but it was found then that the number of 1st and 2nd class passengers at Brahmanbaria did not warrant the provision of special accommodation.

(*d*) The Local Government do not feel justified in moving in the matter."

Waiting-rooms at Laksham and Akhaura stations.

XXIV. (*a*) Are the Government aware that there are separate waiting-rooms for Europeans and Indians on the Assam-Bengal Railway, *e.g.*, at Laksham and Akhaura?

(*b*) Are the Government aware that the waiting-rooms for Indians are very much worse than those for Europeans in situation, size, bath-room, furniture, cleanliness?

(*c*) Are the Government aware that this distinction is very much resented by Indians?

(*d*) Are the Government contemplating taking any steps to remove this distinction?

Answer by the Hon'ble MR. GREEN :—

" (*a*) Yes.

(*b*), (*c*) & (*d*) No complaints regarding the Indian waiting-rooms have been received by this Government."

Questions and Answers.

Lack of accommodation for intermediate and 3rd class passengers on the Assam-Bengal Railway.

XXV. (*a*) Are the Government aware that accommodation for intermediate and 3rd class passengers is extremely inadequate on the Assam-Bengal Railway and that this causes great inconvenience to the passengers?

(*b*) Are the Government aware that there is no compartment for female passengers in the intermediate class on the Assam-Bengal Railway except only in the mail trains?

(*c*) Are the Government aware that, in view of the social custom of Hindus and Muhammadans, this causes great inconvenience to the female passengers?

(*d*) Are the Government taking any steps for the removal of this grievance?

Answer by the Hon'ble MR. GREEN :—

" (*a*), (*b*), (*c*) & (*d*) The Local Government are aware of the demands for increase and improvement in intermediate and 3rd class accommodation. Much has already been done to meet these demands, but further provision has been unavoidably postponed owing to the war."

Internments under the Defence of India Act.

XXVI. (*a*) Will the Government be pleased to make a statement as to the number of persons in Bengal, since December, 1915, who have been dealt with under the provisions of Rule 3 of the Defence of India (Consolidation) Rules, 1915?

(*b*) What are the circumstances that generally determine as to whether in a particular instance action is to be taken under the Defence of India Rules?

(*c*) What are the main differences in the treatment accorded to a person dealt with under Bengal Regulation III of 1819 and under the Defence of India Rules?

(*d*) Is any inquiry made into the allegations in each particular instance before any action is taken by Government; if so, what is the character and process of such inquiry, and by whom and at what stage is it made?

(*e*) Are the charges or grounds of suspicion brought to the notice of the individual concerned, and is any opportunity given to him for explanation at any time?

(*f*) In how many instances were persons arrested and detained in custody, before being actually interned or deported?

(*g*) For what periods were they so detained?

(*h*) How many persons were let off after arrest?

Answer by the Hon'ble MR. KERR :—

" (*a*) (*i*) From the time that the Defence of India Act was passed up till the 31st August, 1916, 321 persons have been dealt with under section 3; of these 257 since December, 1915. These numbers include absconders, persons subsequently dealt with under the ordinary law, and some who eventually became State prisoners.

(*ii*) In the same period 54 persons, of whom 3 have since been released, have been dealt with under Regulation III of 1818; of these 48 since December, 1915.

(*b*) The circumstances which decide Government are in the terms of Rule 3 of the Defence of India Rules—" Where in the opinion of the Local Government there are reasonable grounds for believing that any person has acted, is acting or is about to act in a manner prejudicial to the public safety or the Defence of British India."

(*c*) The main difference is that persons dealt with under Regulation III of 1818 are confined in jail, whereas persons dealt with under the Defence of India Rules are domiciled in selected areas.

Questions and Answers.

(*d*) Full inquiries are made in the case of each suspect by gazetted officers of the police. The inquiry is of an executive character. Orders of internment are not passed by Government until the papers of each case and all representations, if any, made by, or on behalf of, the suspect have been considered.

(*e*) The reply is in the affirmative.

(*f*) & (*g*) In practically all cases.

(*h*) Exclusive of Oraons, whose cases are quite separate, 18 persons have been released. Of these 1 was subsequently expelled from the Province."

Statistics relating to persons discharged and re-arrested and dealt with under the Defence of India Rules or Bengal Regulation III of 1818.

XXVII. In how many instances were persons arrested either under section 54 of the Code of Criminal Procedure, or on any specific charge of criminal offence ultimately dealt with under—

(*i*) Rule 3 of the Defence of India Rules, or,

(*ii*) Bengal Regulation III of 1818,

either without being charged with any offence, or having been acquitted or discharged by any court of justice?

Answer by the Hon'ble MR. KERR :—

"There were 87 such cases under the Defence of India Rules and 7 under Regulation III of 1818."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Arrests under Rule 12 A of the Defence of India Rules.

XXVIII. (*a*) In how many instances were arrests made under the provisions of Rule 12 A of the Defence of India Rules?

(*b*) Who were the officers in Bengal authorised under Rule 12 A of the Defence of India Rules to make arrests without warrant?

(*c*) In how many instances were orders passed under Rule 3, clauses (*a*) and (*b*), of the Defence of India Rules without actual arrests being made?

Answer by the Hon'ble MR. KERR :—

"(*a*) Up to the 31st August, 1916, 286 arrests were made under Rule 12 A of the Defence of India Rules.

(*b*) The Hon'ble Member is referred to Bengal Government Notification No. 15077 P., dated the 28th December, 1915, which was published in the *Calcutta Gazette* of the 29th December, 1915.

(*c*) In 166 cases orders were issued under Rule 3 (*a*) and (*b*) of the Defence of India Rules without prior arrests under Rule 12 A."

Confinement under the Defence of India Rules and Bengal Regulation III of 1818

XXIX. (*a*) Is any person, against whom steps were taken under Rule 3 (*a*) and (*b*), or Rule 12 A of the Defence of India Rules at present confined in jail?

(*b*) If so, is such confinement under any of the Defence of India Rules or under Bengal Regulation III of 1818?

(*c*) In the case of persons dealt with under Rule 3, clauses (*a*) and (*b*), of the Defence of India Rules, are they allowed to enjoy limited freedom in their enforced domicile? Are they allowed to hold interviews and communications with relations? If so, on what terms?

(*d*) Are relations allowed to have interviews and communications on similar terms with those confined in jail either under Bengal Regulation III of 1818 or under the Defence of India Rules?

Questions and Answers.

(*e*) How many instances are there, if any, in which persons—

(*i*) serving out their sentences of imprisonment upon—

(1) conviction of any criminal offence, or

(2) failure to furnish security for good behaviour under the Code of Criminal Procedure,

(*ii*) confined as under-trial prisoners and eventually acquitted or discharged by any court of law,

have been detained in custody under Bengal Regulation III of 1818 or the Defence of India Rules, after their original confinement had come to an end?

(*f*) In each of the cases mentioned in the foregoing clause, when did the original confinement begin?

(*g*) Was there any regular discharge from prison before any such person was served with orders under the Defence of India Rules or Bengal Regulation III of 1818?

(*h*) Does the treatment accorded to such persons as political *détenus* in jail materially differ from that accorded to them either as convicts or under-trial prisoners? If so, in what respects?

Answer by the Hon'ble MR. KERR :—

"(*a*) & (*b*) No person is detained in jail under the provisions of Rule 3. Ninety persons are at present detained under the provisions of Rule 12 A. The number actually detained at present under Regulation III of 1818 is 51.

(*c*) Limited freedom is allowed to persons who are domiciled. They are permitted to have interviews with their relatives by permission of the District Magistrate or such other officer designated by him. They are also allowed to communicate with their relatives, provided their letters are first scrutinized by the Superintendent of Police of the district in which the *détenu* is domiciled.

(*d*) The reply is in the affirmative.

(*e*) & (*f*) There are 24 such cases. The original confinement began on the following dates:—One in March, 1912, one in June, 1914, twenty in 1915, and one in January and one in March, 1916.

(*g*) In all cases when orders under the Defence of India Rules directing domicile in a selected area are issued, a regular discharge from detention in prison is first made, but in the case of persons dealt with under Regulation III of 1818, they continue in prison.

(*h*) Persons detained in a jail under Rule 12 A of the Defence of India Rules enjoy privileges superior to those of under-trial prisoners. They are permitted to wear their own clothing, and a cot and bedding are provided. They are also provided with the ordinary food of persons of their class, and they are permitted to read books and magazines."

Interviews with, and transference of, interned persons

XXX. (*a*) Are there any instances on record in which applications from relations for an interview with persons detained in custody, under either Bengal Regulation III of 1818 or the Defence of India Rules, have been refused? If so, on what grounds?

(*b*) How many persons were or have been interned in their own native homes in the midst of their family?

(*c*) Is there any instance on record in which a person originally interned as indicated here was subsequently transferred elsewhere? If so, what were the grounds for such action?

Answer by the Hon'ble MR. KERR :—

"(*a*) Yes, there have been some such instances. In all these cases Government had reasons for the refusal, but do not consider it desirable in the interests of the State to make them public.

(*b*) Thirty-four persons are at present interned in their homes or with their relatives.

Questions and Answers.

(*c*) Yes; there have been several such cases. The chief grounds which have influenced Government in the transfers have been—

(1) considerations of the health of the *détenus*;
(2) the evasion of rules by the *détenus*;
(3) the danger of the *détenus* getting into touch with undesirable persons."

Confinement under rule 12A of the Defence of India Rules.

XXXI. In how many instances were persons kept in confinement for over 15 days under Rule 12 A of the Defence of India Rules, and for what reasons?

Answer by the Hon'ble MR. KERR :—

" Up to the 31st August, 1916, the number of persons who were kept in custody in jail under Rule 12 A of the Defence of India Rules beyond the period of 15 days was 256. The reason was that the inquiries into their cases had not been completed."

Interned persons and the grant to them of maintenance allowances.

XXXII. (*a*) How many persons dealt with under rule 3, clauses (*a*) and (*b*), of the Defence of India Rules are being given allowance for their maintenance during detention; and at what rates?

(*b*) In the case of a bread-winner of a family being detained, is any allowance given towards the maintenance of the family?

(*c*) If so, in how many cases, and at what rates is such allowance being given at the present moment?

Answer by the Hon'ble MR. KERR :—

" (*a*) (*i*) One hundred and seventy-three persons dealt with under the Defence of India Rules are in receipt of personal maintenance allowances at rates ranging from Rs. 8 per mensem to Rs. 87-12 per mensem.

(*b*) Whenever applications are received, they are considered. The policy followed is to consider in each case what the previous earnings of a *détenu* were and what resources are left to the family. When the absence of the *détenu* has rendered his family unable to obtain the necessaries of life, Government are prepared to consider the question of contributing to the maintenance of the family.

(*c*) In the case of *détenus* under the Defence of India Rules, 15 family allowances out of 34 cases in which application was made, have been granted at rates varying from Rs. 7 per mensem to Rs. 75 per mensem. In a large number of cases no applications were received, and in many cases the *détenu* was not earning anything prior to his detention."

Internment of persons in Bengal

XXXIV. Will the Government be pleased to lay on the table a statement showing—

(*i*) the names of persons interned in Bengal up to the 31st August, 1916;
(*ii*) the district to which each interned person belongs;
(*iii*) the date of his internment;
(*iv*) his age at the time of his internment;
(*v*) his profession or calling at the date of his internment;
(*vi*) the number of persons dependent on him at the date of his internment;
(*vii*) the amount of monthly allowance granted to him; and
(*viii*) the number of servants he employs at his place of enforced domicile?

Answer by the Hon'ble MR. KERR :—

"(*i*) Government do not consider it consistent with the public interests to publish the names of the persons who have been dealt with under the Defence of India Rules. Orders of compulsory domicile in selected areas within the Bengal Presidency have issued against 266 persons up to the 31st August.

(*ii*) The districts to which the 266 interned persons belong are given below :—

District	Number
Calcutta	57
24-Parganas	25

(*iv*) & (*v*) Information as to the age and profession or calling of the *détenu* at the time of his internment is being collated.

(*vi*) It is not possible to give at this stage the total number of dependants. Applications have, however, been received in the case of 34 persons who are *détenus* under the Defence of India Act, for allowances for the maintenance of their families. Allowances have been sanctioned in 15 cases and refused in 14 cases. Five cases are under inquiry. The rates of the 15 family allowances vary from Rs. 7 per mensem to Rs. 75 per mensem.

Appointment of Muhammadans to listed posts.

XXXV. (*a*) Will the Government be pleased to state how many listed appointments are at present held by the Muhammadan members of the Bengal Provincial Civil Service?

(*b*) If none, will the Government be pleased to state the reasons therefor?

(*c*) Are the Government aware that there is a widespread feeling of disappointment among the Muhammadan community on account of no Muhammadan being appointed to such posts?

Answer by the Hon'ble MR. KERR :—

" (*a*) & (*b*) One listed appointment is at present held by a Muhammadan member of the Bengal Provincial Civil Service.

(*c*) Government are aware that there is a strong desire among the Muhammadan community that more Muhammadans should be appointed to listed posts. The reasons why this desire cannot be fully met at present are explained in the answer to Question No. XXXVI."

The Hon'ble MR. Z. R. ZAHID SUHRAWARDY asked the following SUPPLEMENTARY QUESTION :—

"Is it not a fact that the one Muhammadan who holds a listed appointment is a member of the Assam Service, and not of the Bengal Service."

The Hon'ble MR. LYON replied :—

"He is a member of the Bengal Provincial Service now deputed to Assam."

By the Hon'ble MR. Z. R. ZAHID SUHRAWARDY :—

Non-appointment of a Muhammadan to the post of Magistrate and Collector of Bogra.

XXXVI. (*a*) Were there any reasons for not appointing a Muhammadan officer to the vacancy recently caused by the death of Mr. N. L. Bagchi, late Magistrate and Collector of Bogra?

(*b*) If not, will the Government be pleased to state why a Muhammadan was not appointed?

Questions and Answers.

Resolution.

[*Maulvi Abul Kasem.*]

Answer by the Hon'ble MR. KERR :—

" (*a*) & (*b*) Appointments to listed posts are made strictly by selection; and in filling up the vacancy caused by the death of Mr. Nanda Lal Bagchi, the records of all Deputy Collectors in the first five grades were carefully and individually examined by Government. The officer selected was taken from the third grade. He was held to be in every way qualified for the post, and Government did not think it would be right to pass him over in order to appoint an equally qualified Muhammadan junior to him in the list. A reference to the Civil List will show that there are only two Muhammadan officers in the first three grades, and the choice of Muhammadan officers for listed posts is therefore at present very restricted. There are a number of excellent Muhammadan officers in the lower grades, whose chance of promotion will come in due course."

LIST OF BUSINESS—ITEM No. 2.

RESOLUTIONS.

(*Under the rules for the discussion of matters of general public interest.*)

The Hon'ble MAULVI ABUL KASEM moved the following Resolution :—

This Council recommends to the Governor in Council that an embankment be raised on the southern bank of the river Ajai, in the district of Burdwan, from Fatehpur to Lakaria, a distance of six miles, as a protection against floods.

He said :—

"My Lord, in moving this resolution, I crave the indulgence of Hon'ble Members for a few minutes to explain the situation and the circumstances which have made it necessary for me to bring forward this resolution for the favourable consideration of this Council and of your Excellency's Government. There is an area of some 50 square miles which is a sort of doab and is subject to floods every year from the Ajai river. The bank of the river is high and the country below it is very low and even after an ordinary rainfall the whole area is flooded and considerable damage is done to crops and property. Like the embankment of the river Damodar there is a system of embankment from Satkonia to Sagarpotul on the southern bank of the Ajai which is now maintained and controlled by the Government, but after Sagarpotul up to Lakaria there is also a zamindari embankment which is not of sufficient height and strength and consequently it cannot protect the area from floods, and since the last two years Government in the Irrigation Department have issued a circular in which they say that the land immediately on the side of the Ajai is now vested in the Government under the Embankment Act, and so the people cannot at the present day repair the embankment as they did in previous years and in fact that part of the country is at the mercy of the river Ajai. It may be said, my Lord, that these embankments obstruct the natural drainage of the country around, but the case of the area I am speaking of is very different. The excess water of this area does not flow into the Ajai but into the Kundoor, and the floods of the Ajai instead of laying silt on the land lay a layer of sand which makes the land sterile, and, in fact, the land around is getting sterile every day and the condition of the crops is very bad, and therefore it has become imperatively necessary that this embankment should be repaired and properly maintained. I speak

[*Babu Kishori Mohan Chaudhuri ; Mr. Beatson Bell.*]

subject to correction, but I understand that the Hon'ble Maharajadhiraja Bahadur of Burdwan contributes Rs. 13,000 for the maintenance of the embankment on the southern bank of the Ajai and I am sure the subordinate talukdars and zamindars would be willing to contribute their share of the Government demand if the embankment be raised under the terms of the Embankment Act, and if flood-escapes are provided in places where the Ajai comes in contact with the water channels and if regulators are put up it will greatly help the irrigation of the country and at the same time help in flushing the country around. It will also add to the health of the locality and at the same time give facilities for cultivation and the fertility of the land around will increase. It has been remarked, my Lord, that if this embankment be raised, it will cause an increase of malaria, but the circumstances are quite different in that part of the country, the land being of a lower level than the river bed, the flood water remains stagnant and gives rise to malaria. With these few words I beg to commend my resolution for the acceptance of the Council."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"I beg to second this resolution. It is certainly necessary that something should be done for granting relief to the sufferers. We remember a recent occasion on which a large number of people suffered greatly on account of the absence of such an embankment. We know how much it taxed the energies of private individuals, not to speak of the authorities. I think it is not necessary to say much on the subject, and I hope the resolution will be accepted by the Government and your Excellency will do something for the relief of the sufferers. With these few words I support the resolution."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, I cannot but sympathise with the Hon'ble Member who has moved this resolution, but at the same time I am afraid we cannot accept it. I would refer him to a question asked in this Council on the 26th July, 1915, by the Hon'ble Maulvi Mazharul Anwar Choudhury.

The following answer was given by the Hon'ble Mr. Cowley :—

'The information before Government is to the effect that any attempt to embank the Ajai river with a view to protect the adjoining country from submersion would be a mistake, and would considerably obstruct the natural drainage of the country. This question was fully discussed in 1860. and orders were then issued for the entire abandonment of the Ajai embankments. with the exception of the four D Schedule embankments—27, 28, 29 and 30.'

That answer was given after a careful and deliberate discussion with our professional advisers. I have also before me a letter from Mr. Addams-Williams, written before he went on leave, in which he urges us in the strongest terms not to undertake any more embankments in the Ajai river ; likewise a letter written a few days ago by Rai Amarnath Das Bahadur, who is now Superintending Engineer of the South-Western Circle. This brilliant Indian officer urges us also in equally strong terms not to attempt to embank the river Ajai. Our professional advisers point out that if we allow embankments in one place there will certainly be a similar demand elsewhere, with the result that the river Ajai will become just like the Damodar, with high embankments on both sides. The bed of the river will rise. The embankment will inevitably break in the year of floods and the whole country will be devastated. In view of the very strong advice which has been given us by our engineering experts, I regret very much that Government is not in a position to comply with the request of the Hon'ble Member."

Resolution.

[*Maulvi Abul Kasem; Mr. Beatson Bell.*]

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, the fact is that there is a system of embankment up to Sagarpotul and the country below is subject to floods. There is an embankment on the southern bank and what is more there is an embankment on the northern bank and therefore the area I am speaking of is absolutely unprotected.

The Hon'ble MR. BEATSON BELL said :—

"It is true that there are D Schedule embankments on the right bank of the river, but in the letter to which I have just referred Mr. Addams-Williams records his opinion that the country would be better off if these embankments did not exist. He would like to see them removed."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, in the circumstances explained by the Hon'ble Member in charge, I beg to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 3.

The Hon'ble MAULVI ABUL KASEM moved the following Resolution :—

This Council recommends to the Governor in Council that all offices under the control of the Government of Bengal, and especially educational institutions, be closed on the occasion of the *Id-ul-Fitr* festival for two days instead of one day as at present.

He said :—

"My Lord, I do not think that this resolution needs many words from me to commend it for acceptance by this Council. The *Id-ul-Fitr* is one of the greatest Muhammadan festivals, if not the greatest, and it is very reasonable on the part of the Muhammadans to demand that public offices should be closed for two days on the occasion of that festival. Civil Courts are closed for two days, but the Criminal Courts and other Government offices close only for one day. There is an additional reason why the Courts should be closed for two days. The *Id-ul-Fitr* is celebrated on the day following the date on which the moon is visible. Orders are issued on the previous day and no one knows on what day it should be closed and on what day the festival would be celebrated ; just as in Suri the *Id-ul-Fitr* was celebrated by some on Tuesday and by some on Wednesday. The Courts were closed on the first day and the Muhammadans had to attend on the second day and they were consequently put to great inconvenience. They have to attend their prayers and perform certain ceremonies in connection with this festival, and they ought to get the holiday, and to avoid all trouble the Courts should be closed for two days. It will give Muhammadans an opportunity to say their prayers quietly among their friends and in the bosom of their families.

As regards educational institutions, my Lord, Government fix the number of holidays to be observed in these institutions, and the school authorities have generally, for the sake of convenience, fixed the gazetted holidays as the holidays for the Muhammadans. The public schools and colleges are allowed only one day for this festival. The authorities sometimes say that Muhammadan students may absent themselves on these days, but that is not the point. Muhammadan students may absent themselves for a month, but they lose the lectures and it is therefore no concession. In the circumstances explained above, I hope this resolution will meet with the approval of this Council."

Resolution.

[*Maulvi Fazl-ul-Haq; Rai Radha Charan Pal Bahadur; Mr. Z. Suhrawardy; Mr. Rasul; Mr. Beatson Bell.*]

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"I wish to support this resolution, and the best way I can do it is not to add anything to what has been already said by my Hon'ble friend. I think he has made out a very strong case, and I hope it will succeed on its merits."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, may I be permitted to draw your Excellency's attention to one fact, and that is, that one of our holidays has been curtailed in order to grant an additional holiday to the Muhammadans. Since the beginning of British rule in India we have been allowed two days for the *Jagadhatri Puja*; out of this one day has been reduced in order to give one day to our Muhammadan friends."

The Hon'ble MR. ZAHID SUHRAWARDY said :—

"My Lord, as it is, we have got very few holidays observed in Government offices as sacred to Muhammadans, and an additional one day will not cause great inconvenience. My Hon'ble friend, Rai Radha Charan Pal Bahadur, has very generously accepted this resolution but has complained that this has been done by cutting out one day from the holidays that were granted for the *Jagadhatri Puja*. As it is, my Lord, we have so few days observed as sacred to the Muhammadans that we would ask your Excellency's Council to accept this resolution and to give satisfaction to your Excellency's Muhammadan subjects if that could be done by the addition of one day. I have great pleasure in supporting this resolution."

The Hon'ble MR. RASUL said :—

"My Lord, I have great pleasure in supporting this resolution, and I shall indeed be greatly surprised if it is not accepted by this Council and the Government. The Hon'ble Member has asked for two days, but I would have asked for three days, because the *Id-ul-fitr* is, as the Hon'ble mover has pointed out, one of the most important Muhammadan holidays, if not the most important, as far as the Sunni Muhammadans are concerned. We observe the *Id* for three days. It is very inconvenient if only one day is granted to the Muhammadans, because it is known to many, if not to all, who are present here, that we have to go and call on relatives and see our friends and it is impossible for us to do that in one day. For Christmas, we generally get 6 or 7 days, for Easter we generally get 3 or 4 days and for the Pujas we get over a month. I do not therefore see any reason why the Muhammadans' demand for the *Id* holiday, which to them is as important as either Christmas or Easter or the Puja holidays, should be refused. I therefore support my friend's resolution and hope it will be accepted by the Council."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, there are several branches of this question of holidays. Holidays, so far as mercantile offices are concerned, are notified under the Negotiable Instruments Act. Quite recently, we considered very carefully the list of holidays under this Act. The result, as pointed out by the Hon'ble Rai Radha Charan Pal Bahadur, was that one day was reduced from the *Jagadhatri* and given to the *Id-ul-fitr*. We were sorry for our Hindu friends, but it could not be helped. It is quite out of the question that the list of holidays published under the Negotiable Instruments Act can be increased. There are however certain executive holidays. These are not holidays under the Negotiable Instruments Act, but all Government offices, other than commercial offices, are closed. Finally, there is the third class, that is to say, days on which the clerks of certain religions may absent themselves by permission of the head of the office. The second day of the

Resolution.

[*Maulvi Abul Kasem : Mr P. C. Mitter.*]

Id-ul-fitr is now treated under the third class, whereas the second day of the *Jagadhatri* is treated under the second class. We are considering with an open mind whether we should not transfer the second day of the *Id-ul-fitr* to the second class—in other words whether we should not treat the *Id-ul-fitr* exactly as we treat the *Jagadhatri*. We recognise that parties and witnesses are concerned as well as clerks. As regards holidays in educational institutions under our control we have already made up our minds to meet the wishes of the Hon'ble Member. In the circumstances I trust that he will withdraw his resolution."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, it is with great pleasure that I withdraw my resolution. We never asked for two days' holidays under the Negotiable Instruments Act and we shall be quite satisfied if the magisterial and executive offices are closed for two days."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 4.

The following Resolution which stood in the name of the Hon'ble Maulvi Abul Kasem was, by leave of the President, postponed to the next meeting of the Council.

This Council recommends to the Governor in Council that a Government High School be established at Burdwan as soon as practicable.

LIST OF BUSINESS—ITEMS NOS. 5 AND 6.

The Hon'ble MR. PROVASH CHUNDER MITTER moved the following resolution :—

This Council recommends to the Governor in Council—

(*i*) that the different District Boards in Bengal be asked to spend, for rural water-supply, during the official year 1917-18, not less than one-third of their closing balance for the official year 1916-17 ;

(*ii*) that the sum referred to in clause (*i*) be spent in addition to the average sums spent by each District Board for the said purpose in the official years 1914-15 and 1915-16 ;

(*iii*) that each District Board be asked to prepare and publish for local information a definite and detailed scheme for this purpose as early as possible, and not later than the 15th December, 1916.

He said :—

"My Lord, the necessity and urgency of rural water-supply is well established. The people keenly feel it and the Government earnestly desire it. So far back as the year 1894-95 dealing with the working of the District Boards in Bengal, the then Government of Bengal in paragraph 48 of its report impressed upon the District Boards the urgency and necessity of paying greater attention to rural water-supply. Since then there have been various important circulars and letters in which the Government have repeatedly drawn the attention of the District Boards to this important question. Notably we have, amongst others, some letters and circulars of the year 1896 and of the years 1902, 1904, 1910 and 1911. I am not going to

Resolution.

[Mr. P. C. Mitter.]

trouble the Council by giving any details of these letters and circulars. It is sufficient for my present purpose to indicate that in all these letters and circulars Government tried to impress upon District Boards the urgency and necessity of providing better water-supply for the rural population of Bengal. Coming to Your Excellency's administration, I find that there is a very important resolution of November 1912, I mean the resolution which resulted from the well-known informal Conference which was held at Darjeeling, and in which your Excellency's Government impressed upon the various District Boards as to the urgency and necessity of solving this question. Later on there are other important letters and circulars—notably a circular which was issued under the signature of the Hon'ble Mr. Samman to all the Divisional Commissioners, I mean the circular of February 1914, and another important circular namely that issued under the signature of Mr. K. C. De in September 1915. In these circulars Your Excellency's Government again invited the attention of District Boards to this question. My Lord, I have said that the people keenly want it and I should like to add that Government are aware that people keenly desire that this want should be removed. In the resolution of 1912 to which I have drawn the attention of the Council, it is stated that "In the course of the tours he has made since his arrival in Bengal, His Excellency the Governor has been most strongly impressed with the keen appreciation on the part of the people of the existence of this want." So that we have it that the people keenly desire it and we have it also that the Government are equally keen about it; so, how is it that the question of rural water-supply is in this deplorable state? Now, my Lord, if I can satisfy Hon'ble Members that we have funds at our disposal, then I submit it ought to follow that a reasonable proportion of these funds should be spent on this important necessity. With your Excellency's leave I propose to place certain figures before the Hon'ble Members. If the Hon'ble Members would refer to the very illuminating resolutions dealing with the working of the District Boards in Bengal, they will find that the total closing balance of the year 1911-12 was 23 lakhs and odd, that of the year 1912-13, 29 lakhs and odd. Now I should like to mention here the fact, which is well known to Hon'ble Members, that in November 1913 the Provincial cesses were all surrendered to the District Boards that, roughly speaking, these cesses amounted to about 29 lakhs, so that we have it that in the year 1913-14 with this increased 29 lakhs in income that the closing balance increased considerably and amounted to 151 lakhs in the place of 23 lakhs and 29 lakhs of the previous years. In the resolution dealing with the administration of that particular year, the Government drew the attention of the District Boards to these large closing balances. The result was that members of the District Boards perhaps made such an attempt as they were capable of to improve matters, but even with such an attempt we find that at the end of the year 1914-15 their total closing balance was 43 lakhs. The figures for 1915-16 are not yet available. So that we find that in the year 1914-15 out of an income of one crore of rupees there was a large closing balance of 43 lakhs. In the year 1913-14, with a total of one crore and 7 lakhs, there was such a large closing balance as 51 lakhs and odd. Now, my Lord, with regard to this deplorable state of affairs the Government in their resolution of the year 1912-13, after dealing with some explanations given by the District Boards for these large balances, and after practically finding that these explanations were wholly insufficient, went on to state :—

"The fact remains that the closing balances have increased by over 25 per cent., and now amount to nearly 30 lakhs; while the total expenditure of the past year chargeable to current income is but slightly in excess of 60 lakhs. In other words, the balances are almost equal to half the ordinary expenditure. The Governor in Council is of opinion that the explanations furnished are in no way adequate to justify this extraordinary position, which calls for the most serious attention of the District Boards.

Resolution.

[*Mr. P. C. Mitter.*]

The good work that could be done by these bodies is limited only by the resources at their disposal, and any fresh calls of an urgent nature are almost invariably met by a plea of poverty. Such a plea is peculiarly inappropriate when urged by a body that ignominiously fails to spend the funds it has."

I beg to draw the attention of the District Boards to the following passage with all the emphasis that I can command :—

"During the past year a permanent addition has been made to the resources of rural boards by the surrender of the proceeds of the public works cess, and the hands of District Boards have for the present been left entirely free in the application of these additional sums. If full advantage is to be taken of this liberal concession, it is essential that practical schemes of expenditure should be drawn up and unremitting energy devoted to the actual work of carrying these schemes to completion. The Governor in Council earnestly commends this matter to the attention of all District Boards and desires to impress upon them the fact that all applications for pecuniary assistance that may in future be received by Government from any District Board will be examined in the first instance with reference to the success that that Board has achieved in expending its ordinary income.

If this was the deplorable state of affairs in 1912-13 when the total income from all sources of all the District Boards was only Rs. 71,70.000, and when the closing balance was only Rs. 29,71,000, is it not a matter for very serious consideration that in the next year with a total income of one crore and 7 lakhs instead of 71 lakhs, the closing balance instead of decreasing increased to 51 lakhs and odd, and is it not regrettable that in spite of the attention of the District Boards being drawn to these facts again by the Resolution in the Administration Report of that year, in the next year, viz., 1914-15, with a total income of one crore of rupees, the closing balance was Rs. 43,30,000, and odd? Therefore, I submit, the consideration of these figures will satisfy every one that there are large closing balances, and that the District Boards at any rate have not found it possible up to now to spend these closing balances on useful works of public utility. My resolution is for all District Boards in Bengal, and I ought to point out that if we go into the details of the 25 different District Boards, we shall find that there are districts in which the closing balance is not very heavy; therefore by the very wording of my resolution, my resolution does not touch those districts. I am also aware that various District Boards in their annual reports point out from year to year that a portion of their closing balance is really earmarked for some useful expenditure. To take one instance, in my own district of 24-Parganas, I find that, for the last 4 or 5 years, a sum of rupees two lakhs have been earmarked for the *Nawi Sunthi* scheme and that District Board has found it very difficult out of its large closing balance to finance this scheme during all these 4 or 5 years. But even allowing for these 2 lakhs there will still be about 4 lakhs left. Making due allowance for such sums as are necessary for future work, there will still be large sums which ought to be spent on this crying need of Bengal. In this connection I should like to draw the attention of Hon'ble Members to what was stated by the Government when the 29 lakhs were surrendered in November 1913. It is perfectly true that when that sum was surrendered the Government did not impose any conditions on the District Boards for that particular year. It is equally true that when the 29 lakhs were surrendered it was expected that the District Boards would go on spending a good portion at any rate of this sum of 29 lakhs on sanitary works. Whether because the Government found that the District Boards were not so inclined or whether because the Government thought it was necessary to call the attention of the District Boards to this question, we know that in February 1914 a circular was issued. In that circular it was pointed out that "His Excellency in Council desires to impress upon them" (the different District Boards) "the importance of setting apart a substantial sum for the sanitation

Resolution.

[*Mr. P. C. Mitter.*]

of villages and anti-malarial measures and for the improvement of water-supply.' Again we find that there is a circular, dated the 26th September, 1915, in which the Governor in Council desired 'to impress upon all District Boards the desirability of spending large sums of money for the excavation of tanks in rural areas.' The District Boards unfortunately instead of setting apart a substantial sum for the sanitation of villages and small towns for the improvement of water-supply and anti-malarial measures have really been spending almost the whole of their increased income on roads and buildings. I do not for a moment deprecate the importance of 'communications,' but the people must live before there will be a necessity for using these roads and buildings. I find, my Lord, between the years 1912-13 and 1914-15 under the head of 'Buildings' there has been an increase of Rs. 1,82,000 and odd and under the head of 'Communications' there has been an increase of 12 lakhs, and under the head of 'Repairs to communications' there has been an increase of 5 lakhs making a total of 20 lakhs out of an increased income of 29 lakhs. Surely, my Lord, these 29 lakhs were not set free for taking away such an important portion for roads and buildings. My Lord, I should like to make another quotation from the Government Resolution of 1911-12. But before I do I should like to remind the Hon'ble Members that during the year 1911-12 the income of District Boards was much less and Rs. 29 lakhs were not set free, that other grants, for instance, for education were not made by the Government. To return to my question I find it stated in the resolution dealing with the administration of District Boards of that year 'It has been a standing reproach against District Boards that they have failed to utilise their income to the full extent and have allowed large balances to accumulate at the close of the year.' My Lord, if that was a standing reproach in the year 1912-13 when the closing balance was 23 lakhs only, was it not worse in the year 1914-15 when the closing balance had nearly doubled and the income had risen by about 50 per cent.? Therefore, my Lord, for all these reasons I submit that the District Boards should be requested to spend larger sums in water-supply during the next official year and that larger sums should not be not less than one-third of their closing balance for the official year 1916-17. I have purposely drafted my resolution in this manner, so that each individual District Board will have the full opportunity of increasing this one-third, and I do hope that most of the individual District Boards will enhance this one-third, although I have taken one-third as the minimum. Regard being had to the very large sums at the disposal of the District Boards, one-third is not surely too much. My object is that the District Boards should spend more than they have been spending in the past. In the third clause of my resolution I have asked District Boards to prepare and publish for local information a definite and detailed scheme for this purpose as early as possible, and not later than 15th December 1916. In order that the resolution may be given a practical shape, it is absolutely necessary that there must be definite schemes and the District Boards ought to be the best authorities for preparing these definite schemes; at any rate, I am in favour of giving them another chance, and after the District Boards have framed their schemes, they should be published for local information so that necessary suggestions and criticisms may be forthcoming, and that there will be sufficient time for the District Boards to go up to the Commissioner as required by the Act, and finally the matter will be placed before the Government. I submit, my Lord, that all the different clauses are necessary.

With your Excellency's leave, I should like to add a few words about certain possible objections that have been urged by some of my Hon'ble friends. Some of them told me that my resolution has the effect of interfering with local self-government and further that it is an admission that local self-government is a failure. With due respect to my friends who make this criticism I submit that it amounts to no such thing. The very wording of my resolution respects the independence of the so-called local self-governing

Resolution.

[*Maulvi Abul Kasem ; Babu Surendra Nath Ray.*]

bodies because I have worded my resolution in the form of a request and not in the form of a direction, but it may be said that this is merely a play on words. I submit I can take my stand on a far stronger reasoning, on the actual realities of the constitution of these local self-governing bodies. If we look to the Local Self-Government Act of 1885 we find that financial control by the higher authorities is a reality. There being that control, should we pay no attention to that reality? As regards the second objection of my Hon'ble friends, that it is an admission that local self-government is a failure, I for one would say that I consider it far more important that the humble, helpless and disorganised raiyats toiling patiently all over the province should not perish for want of good drinking water than that a shibboleth or a political half-truth should be held up. If we examine the Bengal Local self-Government Act and the administration by the different District Boards, we can at once see that we have no real self-government in the true sense of the word. Of the 25 District Boards in Bengal three have no elected members at all and of the other 22 in each one of them the elected members are in a minority. Whether the state of affairs will improve if the elected members be in the majority or not, it is not necessary for my present purpose to enquire. It is sufficient for my purpose to say that we have no real self-government in the true sense of the word so there is no reason why my resolution can be said to interfere with real local self-government."

The Hon'ble MAULVI ABUL KASEM moved that in the Hon'ble Mr. Provash Chunder Mitter's resolution—

(*i*) for the words "their closing balance for the official year 1916-17", in clause (*i*), the following be substituted, namely :—

"the Public Works Cess received by them for that official year" ; and

(*ii*) the following be inserted after clause (*i*), namely :—

"(*ia*) that the District Boards be asked to spend at least one-fourth of the Road Cess for the improvement of village roads."

He said :—

"My reasons for moving this amendment are simple. My friend has just remarked that in some cases the closing balance may be almost *nil* and in some cases the closing balance may be very great, and from what I know of District Boards I think the closing balance really means the balance of expenditure on sanctioned works and if we spend anything out of this closing balance, we shall have to stop the work which had been sanctioned in the previous year. In view of the fact that the Public Cess has been handed over to the District Boards, we would ask the Council to recommend to the District Boards that they should at least supply drinking water to the rural population, whether this request is an interference with local self-government or not. As far as the second part of my resolution is concerned, the District Boards pay more attention to the scheduled roads than village roads, and it is a legitimate demand on the part of the taxpayers and the poor villagers that they should have some advantage of the road cess they pay."

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord, as a member of an important District Board in this Presidency, I should like to say a few words on this resolution.

My Lord, I have felt as my friend has been feeling now the want of water-supply in rural areas. But the principal reasons why I have some difficulty in supporting my friend's resolution, at least the first two portions of it, are that we do not like Government to interfere with the working

Resolution.

[*Babu Surendra Nath Ray.*]

of local bodies and also because the Resolution presupposes that there are 'matured schemes' for water-supply and that money is simply to be spent to carry them out. For aught we know there are districts in which there are no schemes ready and almost half of the official year has passed. It will take time to formulate schemes, to mature them, to take proceedings under the Land Acquisition Act for acquiring lands for tanks, which alone takes at least 6 months, and then to carry the actual work into execution. You cannot off-hand and haphazardly spend thousands and thousands of rupees for nothing. I respectfully submit that it is impossible for District Boards to carry out the first two clauses of my friend's Resolution.

Last year, in the month of August, as a member of the District Board of the 24-Parganas, I asked the District Board to spend a decent sum of money for water-supply in the rural area as the Public Works Cess had been handed over by Government almost expressly for that purpose. Your Lordship will be surprised to hear, but nevertheless it is a fact, that I was told that it had received no such instructions and many of the members of the District Board did not seem to know about it. In the Council Meeting of the 4th September, 1915, exactly this day last year, I asked the following questions in your Lordship's Council :—

Question (*a*)—Are the Government aware that, from want of definite instructions, the District Boards find it difficult to spend the amount derived from the Public Works Cess in improving the supply of good drinking water?

Answer (*a*)—The answer is in the negative.

Question (*b*)—Are the Government considering the desirability of issuing instructions to all District Boards as to how the amount derived from Public Works Cess should be spent?

Answer (*b*)—District Boards have been informed that Government consider it a matter of importance that they should set apart a substantial sum from their increased resources for the sanitation of villages and small towns, for the improvement of water-supply and for anti-malarial measures. A copy of the Circular is laid on the table.

The Circular of February 1914 was laid on the table.

I think as a result of my questions that your Lordship's Government was pleased to issue Circular No. 2319-23 L. S.-G., dated the 25th September, 1915, addressed to all Commissioners of Divisions. The words of both the Circulars, viz., the one of February, 1914 and the other of September, 1915 are definite and explicit, a substantial sum out of the income enhanced by the surrender of Public Works Cess to be spent for the sanitation of villages and small towns, for the improvement of water-supply and for anti-malarial operations. We must therefore frankly admit that Government have not been remiss in giving definite instructions as to how the money thus released from Government control, viz., the Public Works Cess, ought to be spent. They are not less definite than what my friend wants to get by his Resolution. But I think it is advisable that Government should direct that at least half the amount of Public Works Cess be spent on water-supply. But if the District Boards have not done their duty it is not the fault of Government. It is the fault of us, the members of District Boards. The Government can take the horse to the water but cannot make it drink.

The amounts received as Public Works Cess are large. If this amount be properly utilised for 5 or 6 years, I think the question of supply of water in the rural areas of this Presidency will be solved. With this large amount, we can tackle other important questions, viz., the reclaiming of silted up rivers and once navigable channels which will not only improve the sanitation of a very large area of this Presidency but will bring health and plenty to cheer

Resolution.

[*Babu Surendra Nath Ray.*]

the labouring swain. I really cannot account for the apathy and indifference of a large number of the members of District Boards, the majority of whom are nominated, to this water-supply question. The members of District Boards, as far as I am aware, set more value on having pucca metalled roads than on the supply of drinking water. In the District Boards the voice of the official Chairman, who is the District Magistrate, and that of the District Engineer count for much. I do not, however, lay the entire blame upon the members of District Boards. My own opinion is that in District Boards, as in all public bodies presided over by an official Chairman, it is the latter who takes the initiative in all important projects and unless this is done the project lags behind. This has been the case with the question of water-supply. Whereas in municipalities presided over by non-official chairmen, wherever it is possible, there have been attempts and successful attempts to supply anyhow such bodies with pure drinking water and that, with the limited funds at their disposal, the District Boards with their superfluity of money have been so far indifferent. I think in many instances the real reason why the Public Works Cess has not been properly utilized is because many of the members do not know the principal object why this large amount has been handed over to them by Government; in many cases the circular letters of your Lordship's Government to which I have already referred had never been placed before them nor such prominence been given to them as they deserved. People naturally will lay the fault at the door of the official Chairman of the District Board, because they think that if he wants a thing to be done for the good of the district he can always get it done. I think it is high time that the District Boards were reconstituted with a substantial majority of elected members.

My Lord, as I have already said, I cannot support the Resolution in the form in which it has been laid before your Lordship's Council. I would, however, like to make one suggestion. Your Lordship's Government may be pleased to issue a fresh circular to all members of District Boards and upon all District Officers, I mean the Chairmen of District Boards, similar to the Circular letter of the 25th September, 1915, informing them of the objects for which the Public Works Cess was made over to them and to utilise the same for the said purpose without further delay.

I hope, however, your Lordship's Government will see its way to accept the last portion of the Resolution that each District Board be asked to prepare and publish for local information a definite and detailed scheme of water-supply with this modification that the portion regarding the publication of the scheme not later than the 15th December, 1916, be omitted. It is not possible for a District Board which has not already got its scheme ready to get it ready within the 15th December, *i.e.*, within three months from date. It is with great difficulty and after several months that I have succeeded in getting only a partial scheme ready for the District of the 24-Parganas, but as it was not a complete scheme, each Local Board within the District has been asked to submit a list of tanks necessary to excavate or reclaim within its jurisdiction and we hope to get the same within this month. If we succeed in getting the scheme ready within this month or within the next month it will be after I had been at it for months. It is necessary that all District Boards should be asked to be ready with their schemes before the end of the official year and then they can go on with the actual work. They may further be asked to submit the progress statement of the work done by them in this direction to the Commissioner of the Division every six months. This will facilitate the work and may eventually produce the desired result. But my own independent opinion is that this problem of water-supply and village sanitation will not be solved so long as Union Committees are not formed, each Union Committee consisting of 3 or 4 villages, so long as the real needs and requirements of a village are not grappled with on the spot."

Resolution.

[*Babu Bhabendra Chandra Ray.*]

The Hon'ble BABU BHABENDRA CHANDRA RAY said :—

"My Lord, I confess to a feeling of embarrassment in rising to speak on this resolution. The question of water-supply in rural areas is so near to our hearts that any scheme calculated to further this object is naturally expected to receive our support. But, my Lord, one can claim to be pardoned if he fails to see eye to eye with an Hon'ble friend in regard to the practical utility of any proposal though brought forward with the most benevolent of intentions. The Hon'ble Mover has tried to bring out our remissness in dealing with the problem of water-supply in Bengal, which to many minds seems almost inexplicable in the face of the unspent balances that stand to the credit of the District Boards every year. Thrift ceases to be a virtue when practised by the local bodies, contends my Hon'ble friend. And I agree with him there. We individuals would be very happy indeed, if we were provided with a never-ending purse, and there were a mentor, like the Hon'ble Mover, to take us to task for not being sufficiently free with it. What is then the psychology of this unwholesome frugality on the part of our District Boards? On receipt of the notice of this resolution, I thought it a duty which I owed to the constituency that I represent, to address a letter to the Vice-Chairmen of the District Boards in Bengal and of the Local Boards in the Presidency Division, inviting opinion on the different points connected with the subject-matter of this motion. The replies, which these gentlemen have been good enough to send me, strike one that there is so much of divergence between the conditions and circumstances of the different Boards, that it is permissible to doubt the wisdom of any measure which seeks to impose rigid restrictions on their finance in one sweep. The Khulna District Board, I am told, closed its last financial year with a deficit balance, and in 1916 the Jessore Board spent nearly its entire receipts leaving very little beyond the prescribed minimum balance; the Faridpur Board appears to have spent an average of over Rs. 33,000 on water-supply during the last two years, and even if one-third of the closing balance is added to this figure, the total falls short of the water-supply budget for the current year by some thousands. I pick out these instances only by way of illustration. It appears, in the first place, that the balance is generally very deceptive, being made up of the minimum closing balance, balance of allotments for works which could not be completed during the year and for which the unspent amounts must be reallotted; and amounts earmarked for certain important projects to be carried into effect in future. There are, besides, other items such as deposits and cheques not debited to the accounts of the closing year, which go to inflate the balance. So, in our calculation, the actual closing balance should be taken into account, *minus* the allotted balance under different heads which cannot be divested to other purposes. And with the progress that is steadily being made every year in our expenditure on water-supply, an addition of one-third of this actual and free balance to the ordinary budget figure would not very much advance the cause of water-supply. The surrender of the Public Works Cess to the local funds has no doubt improved the financial position of our local bodies; but it must be remembered that concomitantly with this Government have withdrawn what were known as the equilibrium grants and other minor grants, and expenditure has generally increased under several heads—including water-supply.

The second point which appears from the notes that I have received from the District Boards, is that the rate of expansion of water-supply is generally considered to be very satisfactory; and that if more could not be accomplished, the reasons were to be sought in other circumstances than wilful negligence or incompetency of the local bodies. The practical difficulties which my kind correspondents have mentioned as standing in the way of further accelaration in the rate of progress, can be summarised thus :—

1. The eternal difficulty about the local contribution of one-third of the cost, a condition which is not very often relaxed.

Resolution.

[*Bhabendra Chandra Ray.*]

2. Apathy of land-owners, most of whom are unwilling to make gifts of lands for excavating tanks or wells, and do not come forward to place their tanks in the hands of the Boards under an agreement to reserve them for drinking purposes. The difficulty of re-excavating tanks owned by several co-proprietors is also well known.

3. The absence, in the case of a few Boards, of a definite and comprehensive programme which might be given effect to in a few years.

4. The large expenditure involved in carrying out projects of excavating reserve tanks by acquiring lands wholly without local aid.

5. Increasing demands in other directions.

There are other minor difficulties also, peculiar to particular localities, such as difficulty about getting or conveying materials for masonry wells and engaging good contractors in the interior, except at a prohibitive cost.

Some of my friends in the Local Boards have suggested that the grants on water-supply can be more profitably spent through the Local Boards, who, as matters stand, have no hand in the disposition of the grants under this head.

Having enumerated the chief obstacles to a more rapid expansion of water-supply in rural areas, let us consider what we have been actually spending for this purpose. Excluding items of expenditure in subvention of water-supply schemes in municipal areas, the amounts spent on water-supply in Bengal were, roughly, 1 lakh 90 thousand in 1911-12; 1 lakh 63 thousand in 1912-13; 3 lakhs 71 thousand in 1913-14 and 5 lakhs 96 thousand in 1914-15. These figures, according to my calculation, work out at ·85 pie per head of rural population in Bengal in 1911-12, ·75 pie per head of rural population in 1912-13, 1·7 pie similarly in 1913-14 and 2·7 pie in 1914-15; so that in these four years there has been a substantial increase in expenditure. There has no doubt been a large expansion on the receipt side of our accounts owing to the assignment of the Public Works Cess. But while the total income of the District Boards in Bengal has increased from something like 60 lakhs a year to a little over 90 lakhs, that is to say 50 per cent. during this period, expenditure on rural water-supply has become three-fold. Again, before 1913-14 the proportion of expenditure on rural water-supply to the total income of the District Boards of Bengal was on a rough average 2 per cent. per annum. It reached 3 per cent. in 1913-14, the very first year during which the District Boards administered the Public Works Cess; and it exceeded 4 per cent. in 1914-15. We are not yet in a position to know if this rate of progress has been well maintained during the financial year which has just closed. But from the statement made by the Hon'ble Nawab Sir Syed Sams-ul-Huda, at the last budget meeting, it appears that from the inquiry that he had made, he believed that the District Boards spent much more largely during the last year than they had ever done before.

If, my Lord, I am permitted to travel a little beyond the range of our provincial statistics, I think it can be shown that in the two sister Presidencies where, unlike Bengal, the local bodies have been appropriating the entire land cess for very many years, things have not progressed at a quicker rate. On a rough calculation, I find that the local bodies in Bombay did not spend much more than 4 per cent. of their total income upon water-supply in 1912-13; and in the following year the figures went down almost by one per cent. In Madras again, not more than 2·8 per cent. of the total income of the Boards was spent in water-supply in 1913-14; and a little less in 1914-15. I am fully conscious that conditions vary greatly in the different provinces. But before condemning our local bodies we might for a moment turn our eyes to the other provinces where the local bodies were more fortunately placed before the Public Works Cess came to be assigned to the five Provinces in Northern India in 1913. Just as I leave

Resolution.

[*Babu Bhabendra Chandra Ray; Rai Mahendra Chandra Mitra Bahadur.*]

this point I desire to examine how the total closing balance stood in proportion to the total amount available for expenditure during recent years. In 1910-11, the total closing balance in Bengal was about 26 per cent. of the total amount available; in 1911-12 it rose a little above that; for 1912-13 the figure was 31 per cent; and in 1914-15 it came down to something like 29 per cent. In examining these figures it must be borne in mind that during 1913-14 and 1914-15 there was an unusual accession of funds, the Public Works Cess having been made over to our local bodies in 1913.

In Bombay, the proportion was something like 24 per cent. in 1912-13, and 27 per cent. in 1913-14. And in Madras the figures stood roughly at 26 per cent. in 1913-14, and 21 per cent. in 1914-15. Thus, Bengal does not seem to suffer very much by comparison in this respect.

My Lord, my justification for taking up so much of the time of this Council is that I feel that the District Boards are fully alive to their responsibilites in the matter, and a little friendly advice is all that they may require now and then. Your Lordship's Government have always taken a keen interest in the well-being of our rural people, and can be safely depended upon for whatever guidance our local bodies may stand in need of. But, my Lord, one would draw the line at peremptory mandates issuing upon these self-governing bodies in every instance of supposed negligence or default. I fully sympathise with the Hon'ble mover in his desire to see a larger sum shown under the expenditure head of "Water-supply," but I doubt whether the mere process of ear-marking an amount will ensure its being spent unless the local bodies themselves are agreeable. Again, the system of ear-marking of the funds of the District Boards is one which came in for unfavourable criticism at the hands of the Decentralization Commission, who have recommended that the restrictions on the manner in which the Boards should allot their funds, should be swept away. The Government of India having accepted this recommendation, stated in their Local Self-Government policy, 1915, that these restrictions should be relaxed. The attitude of the Government of India in this behalf appears to be one of non-interference, as was clearly explained by the Hon'ble Sir Edward Maclagan in the Imperial Legislative Council in February last, when speaking on a resolution moved by the Maharaja of Nashipur regarding ear-marking of the assignment of Public Works Cess to certain specified purposes. My Lord, what is most needed at the present moment is a well-thought-out, comprehensive scheme of water-supply in the province. After the Water-supply Conference was held at Darjeeling at Your Excellency's instance, it was understood that when the necessary materials had been collected by Sub-Overseers specially deputed for preparing maps and making a survey, it might be necessary to convene a larger conference to discuss the best methods of procedure. At any rate, the Hon'ble Mr. Donald made a statement to this effect in reply to the Maharaja of Nashipur in January, 1913. As we are all anxious to see our funds utilised to the fullest advantage, a representative conference should be held as early as practicable for discussing the best methods of pushing forward schemes of water-supply. And I am sure whatever suggestion will emanate from the Hon'ble Mover will carry very great weight with such a conference. For the present I would humbly request him not to press the resolution."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said:—

"In August last I asked for a tabular statement of receipts and expenditure of public works cesses in the District Boards in Bengal. I have got full information on the subject. Then again to-day I put a question as to the reasons which prevented the District Boards from spending larger amounts than was expected. The answer to that question shows that they had some reason. The large amount of closing balance has attracted the notice of my Hon'ble friend Mr. Mitter, and he thinks that this large amount or the greater

Resolution.

[*Rai Mahendra Chandra Mitra Bahadur.*]

portions of it ought to have been spent. I have full sympathy with him and I share his opinion. It cannot be said that this special grant which has been given to the District Boards should be utilised for other purposes than those for which they have been allotted. But, my Lord, the words 'closing balance' is a misleading one. It is very well known that the sums which are not spent for original works by the District Boards, are included in their closing balance. The amounts which are to be reappropriated are re-allotted again by the District Boards and consequently the closing balance of the year appears to be greater than it really is. Besides, my Lord, it is a known fact that in the closing balance a certain minimum amount, say 5 per cent. or ten per cent., is kept over for the purpose of a reserve. So I submit that the words 'closing balance' do not mean strictly the savings on the amount which was to be spent in the current year. Now the District Boards feel a difficulty in allotting money for the excavation of tanks. What is the amount which should be spent on that head? On the one side, it may be argued that the entire amount ought to be spent; on the other side, it is said that not quite so much, but a substantial portion of that amount should be spent. But what does a substantial portion mean? Now the circular of the Government on that subject is to that effect, and I say that it is not necessary to limit it to a fixed standard, one-third or one-fourth, and it ought to be left to the discretion of the District Boards to spend a substantial portion, and they ought to be fully alive to their sense of duty. Your Lordship will realise that it is necessary for the District Boards to spend large amounts for water-supply. Water is the life of man, and consequently any amount which can be spared should be spent on that account. If the District Boards have neglected their duty and have not spent the amount as one could wish, they may be told to do so, but to limit the amount to a specified standard, is in my humble opinion objectionable. Self-government is a success in this country and, besides, District Boards are guided by experienced chairmen who are in a position to spend the money according to the demands of the people, and if that has not been done, there is no reason why that power of a self-governing body should be controlled by any recommendation from Your Excellency's Government. That is my humble opinion on the matter and therefore I solicit Your Excellency to consider whether it would be reasonable or practicable to put a limit on the authority of the District Boards. Any recommendation on the part of the Government would be carried out by the District Boards, but they have many things to do which one cannot possibly understand at first sight. They have to provide money on various accounts. Your Lordship is aware of the fact that in the Road Cess Act there is a special provision that some amount was to be spent for the supply of drinking water, but that was not done satisfactorily, and the District Boards, though fully alive to their sense of duty, found it a difficult task to provide adequately for the supply of good drinking water. They thankfully received the special grant of the public cesses which was handed over to them by the Government and having got it they were bound to spend it, and I therefore submit that some explanation may be required from the District Boards on this matter. I submit, my Lord, that Your Excellency's Council will consider that one-third is a very small amount, but that a substantial amount ought to be spent by the District Boards on that account. One who is bred and brought up in a village can realise what the actual state of affairs is. In some places the tanks have been silted up and the women folk have actually to carry the drinking water from a great distance and if one will go with me to any village he will be impressed with the picture which I have drawn. In the hot weather months one finds it extremely difficult to procure good drinking water, and with all the emphasis I can command, I submit to Your Excellency that some means may be found to help the poor villagers in a larger measure by the District Boards as well as by the absentee landlords and a larger amounts be spent on the supply of good drinking water.

Resolution.

[*Mr. Rasul; Babu Ambica Charan Mazumdar.*]

As regards the amendment of my Hon'ble friend Maulavi Abul Kasem, I have a few words to say. This resolution will not be an effective one. It is for a given year and my view is that if any instructions are to be given, they must be given to the District Boards not for any particular year."

The Hon'ble MR. A. RASUL said :—

"This is a very important resolution. Those who have touch with the mufassal know what is meant by scarcity of water. It is known to them that the villagers from the month of November to the month of July drink nothing but muddy water No doubt here and there there are some tanks; but in most of the villages, especially in Eastern Bengal, there are not many tanks, and therefore people do suffer in that way. Of course it may be asked as far as this resolution is concerned whether one-third should be spent or whether one-fourth should be spent, there may be difference of opinion in regard to that. I frankly admit that I have no experience of District Boards and I do not know the working of District Boards in Bengal, but at the same time I know in what a deplorable condition the water-supply in the villages is, and therefore, I have great pleasure in supporting the resolution which requests the Government to urge the different District Boards, if it is possible, to spend more money on the water-supply. I do not think there can be any opposition as far as the principle of the resolution is concerned. At any rate, so far I have not heard anything about that, therefore whether it should be one-third or one-fourth or one-eighth, it must be left to the discretion of the Government, if this resolution is accepted, when they ask the different District Boards to spend what amount of money they think best. I have also great pleasure in supporting my friend the Hon'ble Maulvi Abul Kasem's amendment, especially the second portion of it, that is to say that the District Boards be asked to spend at least one-fourth of the Road Cess for the improvement of village roads. Many Hon'ble Members who have never been to the mufassal know nothing of the condition of the village roads, but we, who do come from the mufassal, are fully acquainted with the condition of these roads, and what sufferings we have had at times. Therefore, I have great pleasure in supporting this part of the amendment as well as the resolution moved by the Hon'ble Mr. Pravash Chunder Mitter."

The Hon'ble BABU AMBICA CHARAN MAZUMDAR said :—

"My Lord,—The interesting discussion to which we have all listened with so much attention has brought out one point very prominently before the Council. The Hon'ble mover of the resolution has brought a number of indictments against the District Boards which he is even prepared to characterise as a misnomer for self-governing institutions. Of the members who have joined in the discussion some have followed the lead of the mover of the resolution, while others have tried to defend the unfortunate local bodies; and out of all these divergent views I would draw one conclusion which, however startling it may appear to the Council, seems to be irresistible as it goes to the root of the whole question. Whether you condemn the District Boards or support them there is one question which underlies all these discussions, *viz.*,—what are the District Boards and what are their responsibilities? Whether we choose to call the District Boards self-governing institutions or characterise them as departments of the Collectorate, there is one thing which must strike every reasonable mind, and that is the constitution of these bodies. They cannot be rightly held wholly responsible as self-governing representative bodies because there is always a standing majority of official and nominated members on them. There is very little to choose between the official and nominated members whether in this Council or in the local bodies. There is thus an official majority in the District Boards which are presided over by District officers who generally dictate the policy and direct the operations of these bodies. The District Engineer is his right-hand man and counsellor who naturally owes his allegiance to no one but his

Resolution.

[*Rai Debendra Chunder Ghose Bahadur.*]

chief. Under such a depressing condition the elected representatives of the people have neither any potential voice nor are they very much troubled with a sense of their responsibility. The people have long cried for a change in this constitution. The Hon'ble mover of the resolution has forcibly referred to the many reminders and warnings from time to time given by Government to the District Boards who have failed to utilise the generous grants surrendered to them in 1912 for village water-supply and sanitary improvements of rural areas. It is said that the Boards have paid very little heed to them. My Lord, may I draw the attention of your Excellency's Government to the ready compliance and loyal submission of the municipal corporations in such cases to the directions of Government and the instructions of Government experts and the remarkable success which they have achieved in recent years in matters of water-supply and sanitation in urban areas? In the case of the District Boards presided over by the District officers the balance of the generous grants of the public works cess has gone on accumulating year after year probably in the view that they could be considered as excellent economists who do not expend but only accumulate for the benefit of the posterity; while in the case of the municipalities they are always ready to spend beyond their means and do not hesitate either to beg from the Commissioner or borrow from the Government for the water-supply of their towns and the sanitary requirements of their constituents. My Lord, we beseech your Excellency's Government to try the same experiment with the District Boards as has been so successfully tried in the case of the municipalities; make the District Boards really representative bodies by providing a substantial majority for the elected members and try at least a few selected District Boards with non-official Chairman to direct their affairs, then Government will have an opportunity of judging the comparative merits of the two systems side by side, and the two pictures will present an object lesson the value of which cannot be wholly lost either one way or the other. In case this experiment is made, I am sure Government will at least find in the newly constituted Boards greater consideration shown to the directions of the Government and a more genuine recognition of the liberal grants which have been surrendered from a portion of its revenue for the improvement of water-supply and sanitation of the rural areas. My Lord, I do hope and trust that your Excellency will make that experiment before condemning Local Self-Government altogether."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said:—

"My Lord, I feel that I am able to support in a general manner the resolution moved by my Hon'ble friend, Mr. Pravash Chandra Mitra, and as for the Hon'ble Maulvi Abul Kasem's amendment, I do not see how it can be called an amendment at all. It should have been brought up before the Council as a separate resolution. I think the District Boards are labouring under some practical difficulties in the matter of promotion of rural water-supply, even after the increased grant by the Government was made. I believe there are a few District Boards—24-Parganas is one of them—which have done something in this direction. The practical difficulty which the Boards experience is this: you have a rule that the villagers should contribute one-third of the cost of excavating a tank as a condition precedent of the District Board paying for the remainder. The land-owners, who happen generally to be a numerous body, are seldom able to combine and deposit the one-third of the estimated cost, and so the project falls through. I think it would be well to abrogate this rule and for the Board to pay for the whole of the cost. I think power under the Land Acquisition Act should be given to District Boards to acquire tanks in villages. They should also construct new tanks and wells which would be used purely for drinking purposes. It will of course cost more money, but I would suggest that these

tanks may be used for fish culture as well, and in that way the District Boards might make a profit of from 8 to 10 per cent. on the capital laid out. This matter should, I think, be properly considered by the District Boards, and I believe it is the only way in which the difficulty can be solved."

The Hon'ble MR. K. B. DUTT said :—

"The resolution, as I understand it, is indeed a very modest one. The learned mover has not asked Your Excellency's Government to do anything unusual, but he has only asked Your Excellency's Government to give effect to the various assurances that Your Government have given from time to time. I am somewhat surprised to find that this resolution has raised discussions not exactly pertinent to the issue. To my mind it is undoubtedly not an encroachment on the independence of the District Boards. They have not given effect to Your Excellency's Government's desire to improve the water-supply, and this resolution asks that Your Excellency's Government would impress upon the District Boards the necessity of giving effect to the desire of Government that a certain amount of money should in each year be spent for the purpose of improving the crying wants of the villagers. Your Excellency's Government have set apart 29 lakhs since 1913 for the sanitation and improvement of water-supply and anti-malairial measures, and if I am not mistaken, when Your Excellency's Government set apart this money for this purpose, Your Excellency's Government only reserved to themselves the right of imposing certain conditions, and therefore if Your Excellency's Government were now to advise the District Boards to spend a certain amount of money for this crying want, I do not think for a moment that it would in any way encroach on the rights of the District Boards and their independence. I therefore think Your Excellency's Government should give effect to the resolution and also the amendment moved by the Hon'ble Maulvi Abul Kasem."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I rise neither to bring any accusation against District Boards for their apathy nor to support them in their working. I know something of the working of the District Boards and I think that there are certain misconceptions on the part of some of the Hon'ble Members who have spoken. The closing balance is not the proper thing which should be touched upon. It is composed of the working or opening balance as far as I know the minimum ⅛th of the ordinary income and the unexpended balance allotted to certain works. If we are to take away any portion of the closing balance, it may be that the other works, for which the amounts were ear-marked, might suffer; so that to my mind the better course would be to accept the amendment moved by my Hon'ble friend Maulvi Abul Kasem. A definite portion of the Public Works Cess can be easily set apart for the provision of good drinking water in rural areas. I do not think, my Lord, that anything more is necessary at present than has already been done by Your Excellency's Government, for impressing upon the local authorities the need for granting relief on this important subject. I was a Vice-Chairman of my own District Board, Rajshahi, continually for nine years. What I then really experienced was want of definite information on the subject. Whenever we proceeded to set aside any part or to do anything for the granting of sums for the provision of rural water-supply, we found that sufficient applications for relief were not before us to enable us to do any substantial work. Of course, at the time there was the difficulty of the Government circular in which it was enjoined that one-third of the contribution from the local people should be insisted upon. I believe, my Lord, that when the Public Works Cess was surrendered to the District Board, that necessity disappeared, but I am afraid that the District

Boards have not been able to take advantage of the full and unfettered discretion given by Your Excellency's Government, in dealing with their additional grant. The real need is, as has justly been observed by my Hon'ble friend Babu Surendra Nath Ray, that Union Committees should be established all over Bengal. Really we are not at present in a position to know what is to be done for the improvement of water-supply in villages.

My Hon'ble friend Babu Ambica Charan Majumdar has justly remarked that there is some difficulty in regard to the constitution of the District Boards. The District Boards are not really representative. There are very few people in the District Boards who really know the needs of rural areas. I believe that when the Union Committees are established, the villagers will be able to formulate the schemes and supply necessary information. Your Excellency should take steps for the establishment of Union Committees wherever it is possible, and I think it is possible everywhere. That there is necessity and urgency, there is no question. The question is how the necessary information can be collected at the present moment. If Sanitary Inspectors are appointed under the Sanitary Boards, the information can be collected by the members of the Local Boards. When the Union Committees are established, they will be the proper persons to supply the necessary information. My suggestion is that the third point urged by the Hon'ble mover should be acted upon, that is, that necessary information should be collected and that detailed schemes for each district be prepared, either with the help of Union Committees or with the help of Local Boards and the representative members. When that is done, I think a definite portion of the Public Works Cess can be set apart for removing this urgent need. The Road Cess was ear-marked for communications. As far as I know the supply of good drinking water in rural areas is a legitimate demand upon the Road Cess. But when the Public Works Cess was surrendered to the District Boards, it was done for meeting the expenditure on medical relief and as far as I remember for meeting the deficit for primary education. and it was expressly suggested that a substantial portion might be spent on the improvement of sanitary reforms and for the supply of good drinking water.

In this connection, what has been suggested in the second part of the amendment, that is, that definite instructions be given for spending at least a fourth of the Road Cess for the improvement of village roads, I may state that that will be a very salutary provision because that will help the establishment of Union Committees.

The question of want of funds has also been raised. As far as I know Rs. 500 or Rs. 1,000 is set apart for each District Board. That is, however, a very trifling amount with which nothing very much can be done. If there is no provision for the assessment by Union Committees for the improvement of local roads, when the Local Self-Government Act is amended, this provision should be considered. For the present I think that both the amendments suggested by my Hon'ble friend Maulvi Abul Kasem may be accepted and the third point, that is, the preparation of a definite scheme for each District Board, can also be acted upon. I think that my Hon'ble friend the mover will accept the suggestion that every year for a few years to come a substantial portion of the Public Works Cess, if possible, be spent on these improvements. With these few words, I commend the Resolution for the acceptance of Hon'ble Members.

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY said :—

"My Lord, I am surprised at the resolution coming, as it does, from a strong supporter of the self-government movement. The resolution, as it is worded, aims to curb the powers of those representative bodies through which we all are enjoying at the present moment the only form of self-government, so far

Resolution.

[*Rai Radha Charan Pal Bahadur.*]

allowed to us ; and as a member of one of these bodies I shall be failing in my duty were I not to raise a note of opposition to this resolution. The powers and privileges of the so-called self-governing District Boards are already very much limited by the various restrictions and conditions imposed by the Government and it would be casting a slur on the administrative capacity of our countrymen if in this era of all-round progress our hands are tied tighter instead of giving us a free hand in the management of our own affairs of which we are perhaps the best judges. Moreover, our budget has to be submitted to the Divisional Commissioner, to whom the welfare of the people under his charge is not a matter of little importance, and he has the fullest power to modify our budget if necessary. I must say here that I fail to follow the force of the argument of the Hon'ble Mr. Mazumdar that because of official majority the people in the district are not properly supplied with water. Why, have not the officials a conscience? I dare say that they feel more than many of us, non-officials, for the raiyats for where we have many things to attend to, their duty is to attend to the welfare of the people who are placed in their charge. Under the circumstances, I cannot advocate any measure which proposes to brand our District Boards with the stigma of incompetency. The principle now followed by the Government in giving us gentle hints as to how we are to spend our income is much better than any hard-and-fast rule which will be hanging as a halter round the neck of the District Board. As the figures for 1915-16 are not available yet, I am taking the figures of 1914-15 to show what would have been the state of affairs in 1915-16 if this resolution had been moved and accepted a year ago. In 1914-15 the closing balance was Rs. 43,30,000 or so. One-third of the closing balance was 14½ lakhs, and the ordinary expense on water-supply was about 53,000. According to this resolution an outlay of 20 lakhs or 400 per cent. in excess of what is ordinarily spent would have been required in 1915-16. What would have been the effect of this sudden increase can be easily imagined by any man of business. Even recently we had our own experience when asked to dispose of the huge grants on education. To be candid, I am never for any sudden change like this ; they are more injurious than beneficial. Progress is always best when it is made slowly and carefully.

The proposal to allot to water-supply a fourth of what we are receiving under the head of Public Works Cess is much more reasonable, but even this interference is uncalled for. In fact, during last year, in the whole province 26·6 per cent. of the total receipt of the public works cess was spent on water-supply.

My Lord, from my personal experience, I can assure the Council that the District Boards are not so apathetic towards the water-supply problem as they are supposed to be by people who are prone to pass comments on them from a distance. If we are guilty of not spending much on water-supply the fault is not our own ; it is rather the fault of the circular issued during the term of Sir A. Fraser which demands one-third of the cost of digging tanks and wells from the inhabitants of the locality. Unless this circular is withdrawn, it will never be possible for District Boards to spend much on water-supply, because people in many parts of the country are too poor to make this contribution. It is worthy of note, however, that larger amounts are being spent on water-supply since some relaxations were made in the above rule, and I hope that with the withdrawal of the circular these amounts will continue to be increased without any interference as is contemplated by this resolution. With these few words, my Lord, I request the Council to reject this resolution.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, when I came to this Council, I had no intention of taking part in the debate on this resolution. I would have only contented myself

Resolution.

[*Kumar Shib Shekhareswar Ray ; Rai Radha Charan Pal Bahadur ; Babu Mahendra Nath Ray.*]

with listening to the eloquence of my hon'ble friends. But after what I have just heard on both sides of the question, I desire to say something. In the first place, I would give my whole-hearted support to the resolution moved by my hon'ble friend, Mr. Provash Chunder Mitter. I have heard the arguments as urged from different points of view and nobody can accuse me of not being a supporter of local self-government. It is only owing to the partial granting of local self-government to us that I am speaking in this Council to-day.

My Lord, all honour to the members representing the District Boards, for their valiant stand, but I think none of them have made out a case to show that the indictment that has been made against them by my hon'ble friend has no justification. Only in 3 District Boards out of 25 there is a nominated majority. In others there is a majority of elected members. And there is nothing to show that the elected members urged for the improvement of rural water-supply and they failed. In the municipal body to which I have the honour to belong, there is a majority of nominated members, but the views of the elected members, even when they are not given effect to, are pressed with unabated earnestness. The elected members of the District Boards have done nothing in that direction. My Lord, I ask of opinion that this resolution should be carried. I do not commit myself whether one-third or one-fourth of the Public Works cess should be devoted to the purpose of rural water-supply. I will leave that to Government who may also leave it to the sense of responsibility of the District Boards. But what I want is that the District Boards should be compelled to spend at least a portion of it towards rural water-supply. And when we think of the villagers drinking muddy water from roadside nullahs I do not think even the most ardent supporter of local self-government would object to this resolution being carried.

Another argument has been put forward by my hon'ble friend, Kumar Shib Shekhareswar Ray, that the activities of the District Boards are often hampered by the circulars and resolutions of Government issued from time to time. And as regards the question of water-supply he says that the District Boards cannot take up any work because there is a circular of Government that for any particular work in that direction a quarter of the expenses must come from the public. But I understand, My Lord, that that circular has been withdrawn."

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY said :—

"Not withdrawn, but it has been relaxed in practice."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR continuing said :—

"It comes to the same thing. They are not being hampered in any way now. And if we are to justify the self-governing institutions of this country we must put our house in order."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"My Lord, we are very much obliged to our hon'ble friend, Mr. Provash Chunder Mitter, for the facts and figures he has given us. He cries over a complaint which is very old and which, as he points out, has been repeated in the Government resolutions year after year. I have, however, very grave doubts whether the remedy he proposes is the right one. The position was very fairly summed up in the last resolution of Your Excellency's Government on the working of the District Boards, and as it may have escaped the memory of some of us, I shall take Your Excellency's leave to read out a portion of the resolution which deals with this point.

Resolution.

[*Babu Mahendra Nath Ray.*]

"It is disappointing to find in some districts a lack of spontaneous participation by the villagers in the task of improving the water-supply. Schemes in Bankura and Midnapore were hampered by the unwillingness of the villagers to contribute the one-third share of the cost, which in ordinary circumstances it is just and reasonable that they should provide. In the districts of Murshidabad and the 24-Parganas, proposals for the improvement of private tanks on certain conditions and for the excavations of new tanks on lands made over to the Boards for the purpose did not prove a success owing to the reluctance of proprietors to enter into agreements with the Boards. In the Chittagong Division an increased number of applications for grants-in-aid by owners of private tanks indicates a livelier appreciation by the public of the facilities now made available through the District Boards. The Governor in Council earnestly appeal both to the common sense of the peasantry for their co-operation in the movement for mitigating a want so keenly felt in rural Bengal, and to the public spirit of the land-owners for their assistance in finding land for the purpose. District Boards have been advised to make particular use of their resources during the current year (that is, the year in which we are) from the Public Works Cess on the excavation of tanks."

This is, I consider, a very fair estimate of the present situation and the difficulties which the District Boards are meeting with. It is from the figures which are supplied in the last Government resolution on the working of the District Boards in Bengal that it would appear that the outlook is bad no doubt, but not quite hopeless. We find, for instance, that in the year 1914-15 the total expenditure by the District Boards on water-supply and waterworks amounted to nearly 6 lakhs of rupees, which constitutes a fifth of the whole of the Public Works Cess surrendered to the District Boards four years ago. Take these figures in comparison with the figures for the year immediately preceding, *i.e.*, those for the year 1913-14. The total expenditure on water-supply and waterworks amounted to Rs. 3,71,000; a progress from Rs. 3,71,000 to nearly 6 lakhs of rupees is not perhaps satisfactory, seeing that a large sum was surrendered to the District Boards four years ago for purposes, of which water-supply was the chief one. Still the progress is noteworthy, and in view of the difficulty which the Government resolution points out, it is time we should take heart and not despair of the working of local self-government. I am in perfect sympathy with the Hon'ble Members who represent the District Boards in the Presidency and in the Rajshahi Divisions in their defence, which it is their duty to make, of the District Boards. No doubt, as I have said, the outlook is bad, but the object of true statesmanship is not with the fretfulness of the novice to attack existing institutions, but to find out where the true remedy lies. It is for my friend to the left (the Hon'ble Babu Ambika Charan Mazumdar) and not for me to defend the political "shibboleths" which have been criticised by one of the elected members of this Council. It is not for me but for others to discuss that point. But it has been said that the Magistrate of the district stands in the way of all pious desires on the part of the minority who are the elected members of the District Board to apply a substantial portion of the surrendered Public Works Cess to waterworks. Well, I have not got the experience of many District Boards; I have, however, a quarter of a century of experience of a District Board very near this town. I have never found any opposition on the part of the Magistrate or of the District Engineer, the much abused man, of whom we have heard so much to-day, to do anything against an attempt to apply a substantial portion of this surrendered grant to this purpose. What we find is this; the schemes have to be prepared and they have been prepared in most of the districts. We consult the subordinate bodies, the local boards and union committees where they exist for the purpose of helping us in selecting where tanks can be excavated or where tanks belonging to private owners can be re-excavated. We do not find on the

Resolution.

[*Babu Akhil Chandra Datta*]

part of the people whom we approach that sympathy which is to be expected. What are the District Boards to do under such circumstances? Are the District Boards to throw away a considerable portion of the money thus set apart into the tanks, and then to say: "We have spent so much money on water-supply." I have no doubt that when the people who are owners of private tanks and other people who can help the District Boards in acquiring lands at less than market value realise the gravity of the situation and the importance of the question, the District Boards will be able to get on.

I perfectly agree with my hon'ble friend to my left (Babu Ambica Charan Mazumdar) that the constitution of the District Boards is not satisfactory. Those of you who belonged to the old Council, will remember that I struggled my best to have them reconstituted. But why attack the District Boards? Why don't you deal with them as they are? I am very glad to find that those of us who have experience of the actual working of the District Boards do not take that gloomy and despondent view and do not endorse that pugilistic attitude towards these institutions, which those who have very little experience of these Boards desire to take up. My learned friend who represents the District Boards of the Burdwan Division was very ambiguous. I do not know whether he supported the motion or opposed it. My hon'ble friend said that we should not restrict the powers of the District Boards. I agree with him; but at the same time if my hon'ble friend said that there should be a Government mandate directed to the District Boards that they should spend so much, then I certainly do not agree, and I am quite sure the bodies whom he represents do not agree. There is, as I have said, no lack of funds; my hon'ble friend Rai Debendra Chandra Ghosh Bahadur, has suggested the experiment of letting out tanks to fishermen; I think it is a very good idea, and I doubt not it will be utilized by private individuals. It is not in lack of funds, but only in the absence of properly developed schemes, and of that full co-operation which we expect from owners of private tanks and people at large, that the District Boards are experiencing difficulty. From year to year the Government has been pressing upon the District Boards the necessity of increasing the expenditure, and I am quite sure that the pressure which is being put on them is bearing fruit. In a Council consisting largely of non-official members elected by representative bodies there is no occasion, where legitimate pressure is being put upon local bodies for the purpose of doing their duty, to desire the record of a resolution asking Government to interfere.

For these reasons, I am sorry; I cannot support the resolution. If I were to choose between the first part of the resolution of the Hon'ble Mr. Provash Chunder Mitter and the amendment proposed by the Hon'ble Maulvi Abul Kasem, I shall certainly choose the latter. A very great practical difficulty is attached to directing that a third of the closing balance in the case of each of the District Boards should be allotted for the purpose indicated. I hope, my Lord, the Council will not consider it desirable to have a record here of the inefficiency of District Boards, because under the circumstances the Government resolution of the last year sets out, it is not the District Boards alone who are responsible."

(At this stage the Council was adjourned for an hour for lunch.)

The Hon'ble BABU AKHIL CHANDRA DATTA said:—

"My Lord, I do not see the propriety of the resolution. At all events, I do not see the propriety of the resolution being moved by non-official members. I have no quarrel with the Hon'ble Member on the merits of the resolution. It relates to a non-controversial matter. In fact, the resolution asks for something which is of the most vital importance to the millions of my countrymen. I am not aware of anything more important than the question of rural

Resolution.

[*Nawab Sir Syed Shams-ul-Huda.*]

water-supply. But none the less I fail to understand how a resolution like this can come with good grace from the non-official members, some of whom have been returned to the Council by the District Boards themselves. It is, of course, a mere accident that the Hon'ble Mover of this resolution does not come within the latter category. It is an impeachment not of the Government but of the District Boards. I am not one of these who like to mince matters even if they go against ourselves. We must have the courage to look facts in the face. But this is a matter which rests entirely with the District Boards and not with Government. The Government may very well say this to the District Boards and through them to the people of Bengal :

"We have given you money. We have surrendered the Public Works Cess to you. We have indicated in the most unmistakable language our desire that you should spend more money upon rural water-supply than you have done. In view of all this, why should your representations come up with resolutions like this."

In fact, will it not be something like carrying coal to Newcastle if we were to convey a request like this to the District Boards? In answer to this resolution the Government may very well say—

"Do your duty, and the purpose of the resolution will be accomplished."

There is another ground upon which I question the propriety of this resolution. The Hon'ble Mover is simply asking the Government to interfere with the freedom of the District Boards. When the Government first surrendered the Public Works Cess to the District Boards the grant was made unconditionally and if I remember aright—for I am speaking from memory—the Government said in so many words that that they (the Government) would leave them free in the matter of the utilization of this new income. Is it proper that we should court an interference? Some Hon'ble Members have spoken about the constitution of the District Boards and asked for more elected members and for non-official Chairmen. I quite appreciate their observations, and I yield to none in my keenness about these reforms. But I should think that they are more or less irrelevant to the resolution just now before us. The reforms suggested may well be the subject-matter of an independent resolution or legislation.

On these grounds, I oppose this resolution, although I am in perfect agreement with the principle sought to be laid down for the guidance of the District Boards."

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA said :—

"My Lord, I have listened with very great interest to the debate which has taken place, and I welcome the discussion which has helped to clear the air of a great deal of vague ideas that have prevailed on the subject. On one point all of us are united, that is to say, we all recognise the vital importance of a good water-supply for the rural areas of Bengal. Those who support the resolution and those who oppose it, all recognise that; and so far as we are concerned we have shown by the circulars which we have issued from time to time, that we also fully recognise the importance of the question. My Hon'ble friends who have spoken on the subject have all recognised the efforts that have been made from time to time by Government to impress upon the District Boards the imperative necessity of spending large sums of money on water-supply. It cannot, therefore, be said that Government can possibly approach this question with any prejudice in their mind. There are several difficulties in the way of our accepting the original resolution as well as the amendment proposed by the Hon'ble Maulvi Abul Kasem. In the resolution it is recommended that no less than one-third of the closing balance for the official year 1916-17 should be spent on rural water-supply. I perhaps misunderstood my Hon'ble friend, as I thought he wanted Government definitely to pass an

Resolution.

[*Nawab Sir Syed Shams-ul-Huda.*]

order on the District Boards that they must spend one-third of their balances on water-supply in addition to the amount that has been spent by them in 1914-15 and 1915-16. I now understand the Hon'ble Mover of the resolution wants Government only to request the District Boards to spend that particular sum on water-supply. As a matter of fact we have made repeated requests, and if those requests have failed to produce their effect, I doubt very much if another request will be more effective, but I do not admit that the circulars that we have issued from time to time and our resolutions have failed to produce any effect. I do not admit it, and although I would personally very much wish that more money was spent by District Boards on water-supply, I do not think that the case is at all hopeless. The figures for the last few years relating to expenditure on water-supply have been quoted, but I take the liberty to repeat them—

		Rs.
1912-13	... ...	2,00,000.
1913-14	... ...	3,71,000.
1914-15	... ...	5,96,000.

The latest figures which probably were not available to my friends who have spoken on the resolution are those of 1915-16. The amount spent in 1915-16 is Rs. 7,28,000, so that it must be admitted that there has been a steady progress in the expenditure of the District Boards on water-supply. There would be grave objection to tell all the District Boards that they must spend ⅓ of their balances on water-supply. The conditions of the various District Boards differ. The necessity for water-supply differ from district to district, and, as was pointed out in the discussion which took place in the Imperial Council, they differ from time to time. The closing balance is very deceptive. That has been shown by numerous speakers who have spoken on this subject. It does not show that the closing balance—the whole of it—is available for District Boards to spend as they like. Very often the closing balance includes sums of money which are already ear-marked for particular projects that they have not been able to carry out. It often happens that the closing balance shown at the end of the financial year, or a great deal of it at least, is wiped away a few months later on projects connected with earthwork which are generally in progress in March and end by about May. It may be that particular districts will have little or no closing balances at the end of the year. What the closing balance of 1916-17 will be, no one can say at the present moment, and it would not be right for Government to pass an order, even if Government were prepared to do so, which will compel every District Board, irrespective of their requirements, to spend a definite sum on a definite scheme. I have examined the figures for various years from 1913-14 to 1915-16 of the various District Boards in the province. Some of them show a great desire to spend more money on water-supply, and as regards those, it is not necessary for Government to goad them to more rapid progress. As has been pointed out by the Hon'ble Babu Surendra Nath Ray, they may not have ready schemes and are not likely to have them in the short time that the resolution permits them. It may not be possible for them to have matured schemes and by pressing them to spend money without such schemes, we may be compelling them to waste money which might otherwise be used on more useful purposes.

Now take the figures in respect of some of the District Boards. For instance in Burdwan in 1913-14, they spent Rs. 8,146 on water-supply, and in 1914-15 the figures rose to Rs. 54,000. According to my friend's resolution, we must tell the Burdwan District Board they have not done their duty and that they should spend more money on water-supply. Then take the case

Resolution.

[*Nawab Sir Syed Shams-ul-Huda.*]

of Hooghly, in 1913-14 the expenditure was Rs. 6,914; in 1915-16 it rose to Rs. 16,000.

In the 24-Parganas from Rs. 6,800 the expenditure rose to Rs. 36,500.
In Nadia from Rs. 10,600 to Rs. 29,890.
In Murshidabad from Rs. 6,500 to Rs. 16,600.
In Dacca from Rs. 33,754 to Rs. 51,000.
In Chittagong from Rs. 14,000 to Rs. 63,000.
In Noakhali from Rs. 3,679 to Rs. 44,378.
In Rajshahi from Rs. 8,593 to Rs. 22,595.
In Malda from Rs. 5,300 to Rs. 12,241.

These figures show that it would not be right to say that the District Boards generally are apathetic or that the official Chairman of the District Board stands in the way of money being spent on water-supply. Even without this indication of the desire on the part of the District Boards to rise to their responsibilities, there is the question of principle which we cannot ignore. Reference has been made to the recommendations of the Decentralisation Committee. The Committee, in paragraph 778 of their report, distinctly recommended that District Boards should be fettered as little as possible in spending their resources. When the Public Works Cess was made over to the District Boards, the Government of India said that they left it to the Local Government to determine, if necessary, to what specific projects this increased income should be devoted, but they trusted that a substantial portion of this sum would be set apart for the improvement of rural water-supply, for anti-malarial measures and generally for the improvement of village sanitation. In accordance with this letter, and probably not exactly understanding what the Government of India meant, we drafted our Cess Bill, and in that way reserved the power of laying down the proportion in which the Public Works Cess was to be used for specific purposes, but when we submitted the Bill to the Government of India they said that we had misunderstood their intentions and they thought that it would be sufficient to reserve to the Local Government a general power of control to be kept in reserve and exercised only in cases of default by any particular Board not providing for any particular service. That was the direction which the Government of India gave us, and, considering that we are dealing with self-governing bodies, I think it is a sound matter of principle that Government should cease from interfering with the discretion of these bodies.

A great deal of argument has been adduced on the question as to whether these boards, with only half-appointed members and only half-elected members, can be said to be representative bodies, or in a true sense self-governing bodies. I do not think I should enter into a discussion of a side issue like this, but it is sufficient for me to say, in the first place, that although there may not be an elected majority in the District Boards there is a non-official majority in the Boards for under section 7 of the Act, not more than one-half of the appointed members may be salaried servants of Government. The result is that only one-fourth can be official members.

One of my hon'ble friends remarked, that he made no distinction between official members and non-official members appointed by Government. We have our own experience of this in this Council. We have our appointed non-official members, and if you look to the debates of this Council and to the division lists, you will find that the non-official members who were appointed by Government have voted against Government more often than they have voted on the side of Government. However, this is only a side issue. I would assume for the present that these boards are not self-governing bodies in the sense in which many of my hon'ble friends would like to use that expression, but they will be glad to learn that we are soon going to advance in that direction. It may be within the recollection of this Council

R[illegible]

[[illegible] Syed Shams-ul-*Huda*.]

that when a resolution was [illegible] year by Babu Surendra Nath Banerjee for the improvement and [illegible] of self-governing bodies in Bengal, I informed the Council [illegible] were [illegible] an elected majority in the constitution of these [illegible]. We were then [illegible] village unions all over Bengal, and I am glad to find that most of my hon'ble friends have recognised that with the establishment of the village unions most of these difficulties will disappear. As regards this matter we have not been idle; we have drafted a Bill which is ready, and which will now be considered by the Commissioners at their conference, and after that we hope to send the Bill to the Government of India as early as possible for their sanction, and I may be permitted to hope that next year in the beginning of the session we will be able to introduce that Bill. When we have done that, the practical question will probably be solved, because it is our desire that these boards should be financed largely out of the Public Works Cess. When the Public Works Cess is distributed among the village unions, no one will say that they would be unmindful of their own interests. At any rate, there will be no obstructive District Magistrate, as my hon'ble friends are disposed to look at him, to prevent them from doing what is best in their interests. These union committees, as I said once before, would be put on an elective basis, and they will choose the members for what will be called the circle boards, which will supplant the present local boards; and when the circle boards are established, we propose that they should elect one-third of the members of the District Boards. This is what we contemplate and this is what we hope in the course of a few months to bring into practice, and I am perfectly certain if my hon'ble friend would consider this, he would find that this is undoubtedly the best solution of the problem. I hope it is only a question of a few months. My hon'ble friend's resolution, even if it were carried, will take as much time, probably more, to give effect to it. From what the Hon'ble Babu Surendra Nath Roy has said, I am inclined to think that the time given to District Boards to frame their schemes is rather short, and they would not be able to frame their schemes within the time that the resolution wants them to do. In any case, the resolution carries us to the next year because it refers to one-third of the closing balance of 1916-17 to be spent in 1917-18. I trust that it will be possible before 1917-18 to put into operation our scheme of village self-government. The resolution therefore loses much of its practical importance. It is clear from the figures I have quoted that all the District Boards are not remiss in their duties; but what we will do is this, and I hope it will satisfy the Hon'ble Mover, as well as those who have supported it, we shall examine the figures for the last year and if we find that any particular District Board has neglected its duty in this direction, we will, instead of passing a general order or making any general request, deal with that particular board as one in default. This is what we propose to do, and I believe that this will be accepted by my Hon'ble friends as a solution of the difficulty that has been troubling them. Probably, it is not known to many Hon'ble Members, at least I have not heard it referred to, that we did, as early as the year 1912, ask the District Boards to have a water survey, and I believe all the District Boards—there may be some exceptions, I cannot say—have completed this water survey. But a mere survey is not enough. They require an organisation for carrying out the work, and it was only last year that we told them they were not to lock up the Public Works Cess in any recurring expenditure of any kind. Our object was that they may be prepared to make over the Public Works Cess when Union Committees come into existence without any inconvenience.

A great deal has been said as regards the circular which insisted on the villagers contributing one-third of the cost of the excavation of tanks. That circular was issued long ago, and it was issued long before the Public Works Cess was assigned to the District Boards. I believe that after the assignment of the Public Works Cess many District Boards have not felt themselves

Resolution.

[*Mr. P. C. Mitter.*]

fettered by that circular. The circular issued in 1915 would be sufficient authority for District Boards willing to spend more money, to relax that condition. However, as it has been said that that circular stands in the way, we will consider the desirability of withdrawing it. That will enable the District Boards to spend more freely money on water-supply than they have done, but there are other difficulties pointed out by the Hon'ble Babu Mahendra Nath Ray that stand in the way. The one-third contribution was insisted on in days when the District Boards had not sufficient money, and when Government promised to pay a certain portion of the money spent on water-supply. It was done with the object of taking something from the owners of tanks who wanted their tanks to be excavated at the cost of the District Boards. I think it was eminently a just demand. Experience has, however, shown that the system of entering into contracts with owners of old silted up tanks, to dig their tanks at the cost of Government, has not been as successful as it was originally expected. It often happened that some co-sharer who did not disclose himself when the contract was entered into, turned up when the tank was excavated, and said that he had a share in the tank and that he had not agreed to the terms. This difficulty has induced District Boards in many places to acquire lands and to excavate new tanks of their own instead of excavating tanks of private persons. I consider this to be more satisfactory than the old practice. I think that in such cases the District Boards will not demand any contribution from the villagers. However, if the old circular still stands in the way, we shall consider whether it should not be withdrawn.

I am sorry, my Lord, that I have to oppose the resolution, both on the general principle of non-interference with the discretion of local bodies as well as on the ground that my Hon'ble friend has not proved by the figures he has quoted that the District Boards have gone so hopelessly wrong in this matter that it is necessary for the local Government to exercise their power of control and correction. It may be—I do not admit that it is so—that the District Boards do not now truly represent the rural people, but very soon, as I have said already, they will be so represented; and I do not think that it is desirable that we should take a step now which a few months hence will be considered as a retrograde step and an unnecessary interference with the liberties of self-governing bodies. For these reasons I am sorry that I am not able to accept either the original resolution or the amendment proposed by the Hon'ble Maulvi Abul Kasem.

As regards the road cess it is probably correct that under the present conditions village roads do not receive the same attention from the District Boards that they deserve. There may be a great deal of force in that argument; but, as I have said, the whole question will be solved when the villagers themselves make their own roads. Hon'ble Members should not, as I have said, insist on Government taking a step which will be against their declared policy of non-interference with self-governing bodies. We have in recent years tried to relax the rules which constitute interference with District Boards to almost a minimum, and we do not wish to go back on what we have done. I hope what I have said will satisfy Hon'ble Members, and they will see their way to withdraw the resolution and the amendment. As I have already said, instead of passing a general order, we will examine the cases of individual boards, and, in regard to those in default, we will take such measures as we think best, in order to press upon them to spend more money on water-supply. I think I am going to meet the wishes of my hon'ble friends as far as they can reasonably expect, and I hope this will be, for the present, considered quite enough, in view of all that I have said."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My friend, the Hon'ble Nawab Sir Syed Shams-ul-Huda, has said that the discussion has been helpful in clearing many points pertinent to this

Resolution.

[*Babu S. N. Ray ; Mr. P. C. Mitter.*]

question, and from this point of view I desire to say a few words on some of the points that have been raised by my friends in the course of the discussion.

The Hon'ble Babu Surendra Nath Ray has said that the resolution is not practical as schemes are not ready and are not likely to be ready within the short time required by my resolution, and the Hon'ble Nawab Sahib has supported him. But, my Lord, I desire to draw the attention of Hon'ble Members of this Council to the fact that so far back as the year 1912 in the resolution passed after the informal Conference at Darjeeling, the District Boards were requested to prepare a water survey, and they were later on requested to prepare schemes. If in the course of these three or four years they have not been able to prepare their surveys and schemes, the chances are that if they go on as they have been going on in the past they will not be able to do anything even if ten years' time be given to them."

The Hon'ble BABU SURENDRA NATH RAY said :—

"That was before the Public Works Cess was handed over to the District Board."

The Hon'ble MR. PROVASH CHUNDER MITTER, continuing, said :—

"Yes, only a few months before and you had about three years after the surrender, but, my Lord, the Hon'ble Member should remember that I ask the District Boards,—the 25 District Boards in Bengal,—to spend a sum of about 8 to 10 lakhs over an area of 67,000 square miles. Each District Board will have to prepare a scheme suitable to its local requirements although perhaps they have done nothing in the past ; it ought not to be difficult for them to frame a scheme costing about Rs. 40,000 or Rs. 50,000 over an area of, say, 5,000 square miles. But, my Lord, after the assurance of the Hon'ble the Nawab Sahib that a new state of things will come into existence when we shall have the direct voice of the people who are affected and who pay the taxes, I hope that this deplorable state of affairs will no longer continue.

The Hon'ble Babu Surendra Nath Ray has urged that the resolution interferes with the liberties of local self-government, but my friend has not attempted to meet my reasons.

The Hon'ble Babu Mahendra Nath Ray has said something about the impressions of a novice. My Lord, when a new mind is brought to bear upon a subject it might perhaps sometimes be helpful. Looking at the affairs of the District Board with which he has been connected for many years, I find a fairly deplorable state of things. In that particular District Board, I find, for example, in the year 1913-14 with a total income of Rs. 1,29,000 they have spent the splendid sum of Rs. 3,400, that is, less than 3 per cent. on water-supply. If I may be permitted to refer to another important question—vaccination—I may state that, that District Board as well as all the others with a total income of over a crore of rupees have spent the splendid sum of Rs. 800, and the particular district of Howrah spent the magnificent sum of Rs. 194. So perhaps sometimes questions examined by new minds may be helpful even to members who have been there for a long time, but I can well appreciate their irritation.

My Lord, I do not propose to deal with the various points raised because after the Hon'ble Nawab Sahib's assurance, we have at any rate got this useful information that within a few months we may fairly expect that there will be real self-government, and if we have real village self-government, we may fairly expect the people to look after their own needs. As condition of things on the basis of which I ventured to place the resolution before the Council will soon cease to exist, I do not wish to press the resolution, and I beg leave to withdraw my resolution."

Resolution.

[*Maulvi Abul Kasem ; Adjournment.*]

The Hon'ble MAULVI ABUL KASEM said :—

" My Lord, after the remarks that have fallen from the Hon'ble Member in charge, I think the only course open to me is to withdraw the amendment. We are grateful, however, to the Government that steps are being taken to introduce local self-government in a true sense of the word in this part of the country."

Both the resolution and the amendment were then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEMS Nos. 7 and 8.

The following resolutions which stood in the name of the Hon'ble Babu Akhil Chandra Datta were, by leave of the President, postponed to the next meeting of the Council.

This Council recommends to the Governor in Council that the system of trial by jury be introduced in all districts in Bengal for the trial of all offences before courts of session.

This Council recommends to the Governor in Council that the special jury system, as contemplated by sub-section (2) of section 269 of the Code of Criminal Procedure, be introduced in all districts in Bengal.

ADJOURNMENT.

The Council was then adjourned *sine die.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop for 1916.

(NOTE.—On an average of the five years ending 1914-15 the area under jute in Bengal represents 87·7 per cent. of the total area under jute in British India.)

Character of the season.—In the note published with the preliminary forecast it was stated that sowings were unduly delayed, particularly in the Western districts, for want of rain, and that the outturn of this crop would, to a great extent, depend upon future weather conditions. The absence of heavy rains in the latter part of July in these districts, followed by sufficient rainfall in August, saved the situation. On the other hand, the heavy rain which fell in Northern Bengal after the publication of the Preliminary Forecast caused considerable damage on low lands; the districts of Rangpur, Dinajpur, Jalpaiguri and Pabna being the greatest sufferers. In the Eastern districts the rainfall was not heavy; but the sudden rise of the rivers caused some slight damage to the crops.

June—July.

In August the rainfall was almost normal, facilitating steeping and washing operations.

August

Slight injury by insects was reported from a few of the Western districts. The damage, however, was insignificant.

On the whole the season may be regarded as a fairly satisfactory one.

Acreage.—The areas returned in the Preliminary Forecast have been altered in certain districts as a result of further checking.

The final acreage figures for the three provinces for this year, as compared with last year, are shown as follows :—

Province.	Area in acres.		Increase.
	1915.	1916.	
Bengal—			
Western	325,858	333,784	7,926
Nortnern	601,614	661,528	59,914
Eastern	1,158,798	1,356,509	197,711
Cooch Behar	27,556	31,741	4,185
Bihar and Orissa	188,090	224,037	35,947
Assam	74,000	78,700	4,700
Total ...	2,375,916	2,686,299	310,383

The increase in acreage figures is attributable to the rise in the price of jute last year.

Percentage outturn.—With reference to column 5 in Appendix I, it should be noted that the percentage figure is calculated on the Divisional Normals and not on District Normals, the latter having not yet been worked out.

The final outturn figures for the three provinces are as follows :—

Province.	Bales.		Increase or decrease.
	1915.	1916.	
Bengal—			
Western	1,051,399	898,946	-152,453
Northern	1,975,539	1,997,784	+22,245
Eastern	3,479,128	4,533,145	+1,054,017
Cooch Behar	72,335	68,000	-4,3[illegible]5
Bihar and Orissa (including Nepal) ...	692,873	626,238	-66,635
Assam	152,869	216,153	+63,284
Total ...	7,424,143	8,340,266	+916,123

In Bengal the estimated increase is 14 per cent. and in Assam 41 per cent., while Bihar and Orissa shows a decrease of 10 per cent. on last year's figures.

APPENDIX I.

Final Forecast of the Jute Crop of Bengal, 1916.

District.	Estimated area under jute.		Estimated outturn as a percentage of the normal yield per unit of area.		Estimated total yield.		Date by which harvesting generally commenced and whether that date was early, normal or late.	Remarks by District Officers.
	Last year.	This year.	Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8	9
	Acres.	Acres.			Bales.	Bales.		
24-Parganas	69,791	67,633	100·3	97	224,154	210,622	End of August. Normal	Decrease in area is due to want of rainfall at sowing time. The growth of the plants was hampered by rather excessive rains in July and August last. Hence the outturn is below the normal.
Nadia	53,008	67,155	92	64	156,055	132,601	From middle of August to first week of September. Normal in Kushtia and Chuadanga but late in other subdivisions.	The decrease in area as compared with that estimated in the preliminary forecast is due to revision after checking by the Agricultural Department. The outturn will be worse than that of last year owing to want of timely rainfall.
Murshidabad	20,553	28,169	96	60	63,157	55,387	August and September. Late.	The increase in area as compared with the first forecast is due to inclusion of area not reported by some Panchayats at the time of submission of the preliminary forecast and also due to revision after checking. The low outturn is due to want of timely rains at the sowing seasons and subsequent heavy rains, which retarded weeding.
Jessore	85,037	85,044	98	88	269,410	239,496	August. Normal	The outturn is estimated to have fallen much below the normal, owing to the fact that late-sown crop did not grow well for want of sufficient rainfall in proper time.
Khulna	20,586	22,111	103	95	67,574	66,998	End of August. Normal ...	The increase in area as compared with that of last year is due to the rise in the price of jute during the latter part of last year. Outturn is poorer than that of last year on account of insufficient rainfall at sowing time.
Burdwan	8,363	6,913	108	90·8	29,051	20,087	First week of September. Early.	The contraction in area is ascribed to droughty and unfavourable weather at sowing time. Late sowings and want of sufficient moisture till the first week of August accounts for the falling off in the outturn.
Midnapore	12,076	12,062	99	88	41,146	33,937	End of August and September. Late.	The decrease in area is due to want of timely rain. In Ghatal subdivision, however, 847 acres were sown after the submission of the preliminary forecast. Heavy rain in June damaged the crop in low-lying areas in Contai. The outturn of the late-sown crop of Ghatal is as yet uncertain.
Hooghly	39,531	33,810	114	97·5	144,260	105,412	First week of September. Late.	Owing to the late rainfall and to the dull market of last two years, the area sown is much less than that of last year, but the crop was on the whole a full-grown one.
Howrah	16,013	10,887	110	98·7	56,292	34,406	Middle of August. Early	The weather conditions turned favourable since July. The crop, though not generally satisfactory, was quite good in places.
Rajshahi	63,100	75,800	91	83	199,500	219,000	First week of August. Late	The crop was rather late this year. The outturn falls below the normal on account of unfavourable weather conditions.
Dinajpur	66,500	67,200	89	88·6	206,200	208,000	First week of August. Normal.	The excessive rainfall in July and August damaged the crop in the Thakurgaon and Balurghat subdivisions.
Jalpaiguri	50,870	48,240	86	85·7	152,784	144,720	Middle of August. Normal	Outturn poorer than last year on account of unfavourable weather.
Darjeeling	2,351	2,945	90	100	7,405	10,300	Last week of July. Normal.	The weather conditions were favourable throughout.
Rangpur	298,216	243,618	103·3	88·5	817,816	755,215	Beginning of August. Normal.	The increase in area is due to the high price of jute obtained last year. The decrease in outturn is attributed to stunted growth of the crop on account of continued rainfall in May and also to the damage done to the crop in lowlying tracts by floods in July and August.
Bogra	63,800	66,000	89	83	197,780	191,400	First week of August. Late	The increase in area is due to revision of figures published in the preliminary forecast, as more plots of land were sown with the crop after the Panchayati schedules were filled up. The decrease in outturn is due to unfavourable weather.
Pabna	101,777	134,435	88	85·7	314,054	408,149	July. Normal	Late sowings and excessive heat of May hampered the growth of the plants.

Malda	25,000	23,300	91	75	80,000	61,000	First half of August. Late	The weather conditions were unfavourable owing to excessive heat in May and June. Floods due to excessive rainfall in the beginning of July and to the rise of the river Ganges in the beginning of September were also responsible for the decrease in outturn.
Dacca	232,975	281,116	74·6	83·3	643,057	866.428	Beginning of July. Normal.	The increase in area is due to rise in the price of jute last year and also to checking of figures. The weather conditions were on the whole favourable, which accounts for the increase in the percentage outturn.
Mymensingh	484,321	587,911	80	89·5	1,433,590	1,945,985	Low lands—Beginning of July. Normal. High lands—Beginning of August. Late.	The weather was unfavourable at the beginning but it turned favourable since June. Some damage to the crop was reported from Jamalpur and Tangail subdivisions owing to sudden rise of river water during the second week of August. The outturn is estimated to be fairly satisfactory.
Faridpur	186,500	214,300	100	97	690,050	771,680	First week of July. Early	The outturn has fallen below the normal on account of the insufficiency of rainfall at sowing time and drought thereafter till the end of May. The harvesting commenced rather earlier this year owing to rise of river water.
Bakarganj	47,000	49,300	98	97	170,422	177,261	July. Early	The increase in area is due to increase in the price of jute last year. Weather was unfavourable at sowing time but turned favourable afterwards. The percentage outturn is estimated to be a little less than that of last year.
Chittagong	200	200	90	90	666	666	First week of September. Normal.	
Tippera	180,861	196,517	66	92	441,662	668,944	Latter part of July. Somewhat late.	The increase in area is due to the extension of cultivation of jute in thanas Bancharampur and Nabinagar in the Bhola subdivision and throughout the Chandpur subdivision. The increase is also partly due to checking of the Panchayati figures.
Noakhali	26.941	27.075	100	102	99,681	102.181	Beginning of August. Rather late.	The weather has been favourable since April. A good outturn of the crop is estimated.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1916.

(NOTE.—On an average of the five years ending 1914-15, the area under jute to which the Bihar and Orissa forecast relates represents about 9·3 per cent. of the total area under jute in British India.)

Acreage.—The final district returns of the seven jute-growing districts of the Province show an area under jute of 224,037 acres or in round numbers 224,000 acres, as compared with 226,000 acres reported in the preliminary forecast and 188,000 reported in the final forecast of last year. The decrease in the final forecast is due to the fact that since the publication of the preliminary forecast the District Officers of Muzaffarpur, Cuttack and the Santal Parganas have reduced their estimates. For Purnea, which is the most important jute-growing district in this Province, the figure for acreage has been arrived at by a census of jute fields taken by the Panchayats under the supervision of special officers.

2. **Weather conditions.**—The weather conditions have been on the whole unfavourable in the important jute-growing districts. In March there was practically no rain. In April the rainfall was above the normal in the jute-growing districts, except in Cuttack and Balasore, where it was below the normal. In May it was defective everywhere. The absence of rain early in the season retarded sowings. The rainfall in June was in excess of the normal in all the jute districts and facilitated sowings and improved prospects of the crop to a great extent. In Cuttack, however, the fall was excessive and further retarded the sowings. The rainfall in July was very heavy in Purnea and Bhagalpur, where the crop was adversely affected by the excessive rain and consequent floods. Damage was also caused by continuous rain and floods in the Santal Parganas. In Cuttack the rainfall was much below the normal and the growth of the crop was stunted. In August the rainfall was slightly above the normal in Muzaffarpur and Bhagalpur and below the normal in the remaining districts. The heavy floods which occurred in Champaran, Muzaffarpur and Bhagalpur in the second week of September are reported to have caused no appreciable damage to the crop.

3. **Outturn.**—In Purnea a number of crop tests were undertaken by special officers deputed for the purpose, as in previous years, to collect further definite information regarding the actual outturn per acre. The results have not yet been received in this office, but the year's crop has been estimated at 2·5 bales per acre, *i.e.*, 83·3 per cent. if the normal be retained at 3 bales per acre. The low outturn is due to late sowings in the Sadar and Araria subdivisions, owing to unfavourable climatic conditions and to excessive rainfall and floods later in the season. In the other jute districts the percentage of outturn is reported as under :—

	Per cent.
Champaran	100
Muzaffarpur	100
Balasore	80
Cuttack	72
Santal Parganas	41
Bhagalpur	40

According to the estimates of the District Officers the total outturn of the crop for the Province comes to 82·1 per cent. of a normal yield.

Taking 3 bales as the normal outturn per acre for each district and working on the area and percentage outturn reported by District Officers, the total gross outturn of the crop for the Province this year comes to 552,003 bales or in round numbers 552,000 bales.

The average import of raw jute into this Province from Nepal during the last three years was equivalent to 74,235 bales. This figure, added to the figure for the Province arrived at, gives a total for Bihar and Orissa of 626,238 bales or in round numbers 626,200 bales.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM

Final Forecast of the Jute Crop in Assam, 1916.

(NOTE.—On the average of the five years ending 1914-15, the area under jute in Assam represents some 3·0 per cent. of the total area under jute in British India.)

Character of the season.—As explained in the preliminary forecast weather conditions were generally not satisfactory in the beginning of the season, but improved later on. The absence of heavy rain and consequently of floods in July and August was very beneficial to jute and greatly improved its prospects.

Area sown.—As in previous years, for the permanently-settled areas of Sylhet and Goalpara figures have been compiled by Panchayats and for other districts by the Land Records staff.

The total area under the crop as estimated by the Deputy Commissioners comes to 78,700 acres as against the revised figures of 74,000 acres of last year and 73,100 acres shown in the preliminary forecast of this year, *i.e.*, an increase of 6 and 8 per cent., respectively. The figures of last year have been revised on the basis of the area under the crop as shown in the crop abstracts of that year. All districts except Cachar, Goalpara, Sibsagar and Lakhimpur show an increase in comparison with the revised area of last year. In Goalpara, the area has been reduced by 4,100 acres and in Sibsagar and Lakhimpur each by 100 acres, while in Cachar it is unchanged. The Deputy Commissioners of Cachar, Sylhet, Kamrup and Nowgong have revised the figures reported by them for the preliminary forecast. The two chief causes which have operated in bringing about a general increase in area are the comparatively high price which prevailed at the close of last year and the fact that the weather was generally favourable except in the early part of the season.

Outturn.—The percentage of outturn as estimated by the Deputy Commissioners is 83 of the normal against 63 of the previous year. On the basis of the normal yield of 3·3 bales per acre fixed for this province, the outturn is 216,153 bales as compared with 152,869 bales (revised) last year; this means an increase of about 41 per cent.

A. R. EDWARDS,

Director of Land Records and Agriculture, Assam.

	Acres.	Acres.	Acres.			Bales.	Bales.		
Cachar	400	300	300	50	80	495	792	August. Normal ...	The weather and rainfall were favourable to the crop, though excessive rainfall at the time of sowing restricted the area. The outturn is estimated to be better than that of last year.
Sylhet	16,000	10,700	17,000	48	85	16,949	47,685	Beginning of August. Normal.	On account of failure of other crops last year more than the normal area has this year been put under jute in the hope of getting a speedy crop of more than ordinary value. The weather was not favourable at the outset and also cultivation was retarded by cattle mortality. Agricultural loans were granted for purchase of cattle. The subsequent favourable weather has greatly improved the prospects of the crop. Although the crop has been rather a late one, a far better outturn than last year is expected.
Goalpara	30,000	40,100*	36,000	65	80	86,014	95,040	First week of July. Early.	The decrease in area as compared with that of last year is due partly to the want of seasonable rain at the time of sowing and partly to the drop and uncertainty in price. The outturn is below normal on account of unfavourable weather at the beginning of the season.
Kamrup	5,500	6,800*	8,500	67	95	15,035	28,647	First week of August. Normal.	The increase in area as compared with that of last year is due to favourable weather at the time of sowing. The outturn is a little below normal owing to insufficient rain.
Darrang	1,000	6,300	7,000	75	80	15,592*	18,480	First part of August. Early.	The small increase in area as compared with that of last year is due to extension of cultivation by Muhammadan settlers from Mymensingh. The outturn is below normal on account of damage done by insects.
Nowgong	500	4,600	4,800	60	80	9,108	12,672	Beginning of August. Early.	The small increase in area as compared with that of last year is due to the high market value of jute at the close of last year and to extension of cultivation. The outturn is expected to be better than that of last year owing to favourable weather which set in at a somewhat late period.
Sibsagar	300	600	500	90	70	1,782	1,155	1st September. Normal.	The decrease in area and outturn is due to unfavourable weather.
Lakhimpur ...	200	200*	100	96	96	634	317	1st September. Normal.	The decrease in area in the Sadar subdivision is due to the fact that people have given up jute cultivation owing to the fall in the price of jute last year and have taken up paddy cultivation, while the decrease in North Lakhimpur subdivision is due mainly to cattle disease at the sowing season. The outturn is estimated to be slightly below normal owing to weather not being entirely favourable.
Garo Hills	4,000	4,400*	4,500	50	90	7,260*	13,365	End of July. Normal	Weather and rainfall were not favourable when the sowing commenced but they improved later on. The outturn is estimated to be far better than that of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary Forecast of the *Bhadoi* Crops of Bengal, 1916-17.

(Note.—On the average of the five years ending 1914-15, the area under autumn rice in Bengal represents some 6·6 per cent. of the total area under rice in British India.)

Character of the season.—In the early part of the season the rainfall was insufficient for ploughing and sowing operations for the autumn crops. Sowings progressed slowly till the second week of April when general rain facilitated matters. This was followed by defective rainfall in May, the early sown crops suffering much in consequence. The rainfall in the month of June enabled further sowings to be made in the Western districts and greatly helped the growth of the standing crops in the Eastern Bengal districts. The heavy rain in July in the Northern districts did considerable damage to the crops especially on low lands. In the Eastern districts, however, the rainfall was not heavy, but the sudden rise of the rivers caused a little damage in some districts. On the whole a fair crop is expected.

Acreage.—The total area sown this year with the different crops, is reported to be 6,152,700 acres against 6,375,900 acres of last year and against 6,224,600 acres reported in the corresponding forecast of last year. Of this, the area under autumn rice is reported to be 5,231,900 acres this year against 5,435,700 acres last year and against 5,286,800 acres reported in the corresponding forecast of last year. The decrease in area this year is principally due to want of timely rain at sowing time and also to the increase of jute cultivation in some districts. In the district of Bakarganj, however, the decrease is attributed to the fact that last year there was an abnormal increase in area under *bhadoi* paddy owing to failure of winter rice in the preceding year.

Outturn.—According to the estimates of the District Officers, the outturn of the different *bhadoi* crops works out to 79 per cent. against 82 per cent. of the normal last year, and against 85 per cent. reported in the corresponding forecast of last year. Of autumn rice, 78 per cent. is estimated against 86 and 83 per cent. respectively reported in the preliminary and final forecasts of last year.

Nadia ...	*Bhadoi* paddy (autumn rice).	491,100	481,800	475,200	75	58	Beginning of May. Normal.	The slight decrease in area in some cases is due to want of rainfall at sowing time. Want of rain has been keenly felt since the beginning, but the situation has somewhat improved lately. The growth of the crops has been stunted owing to want of rain. Slight damage is reported to have been done to the crops by insects in the Ranaghat subdivision. The outturn consequently is expected to fall far below the normal.

JESSORE	*Bhadoi* paddy (autumn rice).	407,800	361,900	358,500	90	75	Middle of April ...	The decrease in area is due to the fact that *aus* paddy was not sown in low land owing to the flood. The weather at sowing time was favourable, but later on damage to the extent of 2 annas was done by flood and insect pests in Narail, Magura and Jhenidah subdivisions. Owing to want of timely rain the growth of the crops was retarded. Hence the outturn is expected to be below the normal.

Dacca ...	*Bhadoi* paddy (autumn rice).	238,700	270,500	266,000	59	81	......	The decrease in area is due to corresponding increase in jute cultivation. Insufficient rainfall at sowing time interfered greatly with the growth of the crops. Subsequently, however, the rainfall has nearly been properly distributed. Three-fourths of the crops on very low land have been damaged by the sudden rise of water in the Manikganj subdivision. The flood is normal this year and the outturn is expected to be better than last year.

MYMENSINGH	*Bhadoi* paddy (autumn rice).	390,600	466,500	466,500	43	74	First part of April. Normal.	Last years 3,000 acres under "*bhadoi* fruits and vegetables, etc.," were shown by mistake under "*bhadoi* food-crops, etc." This has been corrected this year. The weather conditions have been generally favourable although the early sowings were in some places affected by drought. Some damage also by flood has been reported from Tangail. Hence the outturn is below the normal.

MIDNAPUR ...	*Bhadoi* paddy (autumn rice).	233,500	246,800	239,100	85	90	March. Normal	The decrease in area this year is due to increase in the area under jute crop. The weather at sowing time was not good owing to deficiency of rain, but has subsequently been favourable. The extent of damage done to the crops by the sudden rise of flood-water and untimely rain is about 12 per cent. on an average.

BAKARGANJ	*Bhadoi* paddy (autumn rice).	136,000	400,000	300,000	100	75	End of March to middle of April. Late.	The decrease in the area under *bhadoi* paddy this year is due to the fact that last year there was abnormal increase in area owing to failure of winter rice in the preceding year.
	Other *bhadoi* pulses ...	1,000	500	500	80	80	December to May Normal.	The weather was not favourable at sowing time, but has since been favourable. The damage to a certain extent was reported to have been caused by insect *rice hespa* and also owing to want of timely rain and to rise of river.

TIPPERA ...	*Bhadoi* paddy (autumn rice).	320,000	320,000	315,000	60	60	April. Normal ...	The decrease in the area is due to extension of cultivation of *boro* paddy in certain parts of the district. The weather at sowing time was favourable, but continued drought affected the growth of the crops and has caused damage by about 40 per cent. The outturn is expected to be below the normal owing to want of seasonable rain.
